PART A: NWFP MANAGEMENT AND MARKETING PLAN

Background

The cross-cutting management regimes for Zangbi Shingmein Tshongdrel Dheytsen for Panabi Chiwoq, under Phangkhar Gewog, Zhemgang Dzongkhag falls under the protected area-based management plan for Royal Manas National Park. The cross-cutting plan is prepared for sustainable management of non-wood forest products available in the forest.

Zangbi Shingmen Tshongdrel Dheytsen was formed by the 11 local households of Zangbi village, under Panabi *chiwoq* of Phangkhar Gewog, Zhemgang Dzongkhag. The community primarily generates income from the sale of cash crops such as mandarins and ginger. The altitude ranges from 425 to 950 meters above sea level and features subtropical forests, with bamboo (*Dendrocalamus hamiltonii*) being the dominant undergrowth species. The boundary location of the NWFP areas are as follows: 1) Phuling at the western side: 26.935636,90.811972, 2) Yungbaling at the northern side: 26.947395,90.831159, 3) Murdhibi at the southern side near to Vedhang stream;26.934081,90.827889, 4) Takaling at the eastern side;26.940463,90.846676. The total areas identified as NWFP collection sites are 34.07 ha.

On average, each household earns an annual income from agriculture products, about Nu 30,000 to Nu.200,000 Ngultrum per year. Currently, the Zangbi NWFP group has primarily focused on selling bamboo culms for construction and bamboo shoots in nearby markets. Members have gained significant knowledge in the sustainable harvesting of bamboo and have learned some processing techniques for bamboo shoot pickle making for sale.

Review of the previous plan and the way forward

This marks the 1st revision of the plan, aimed at achieving the objectives set in previous plans, which were not fully operationalized due to challenges such as the COVID-19 pandemic and marketing issues. In their initial phase, the group unfortunately could not market bamboo culms and bamboo shoots as planned.

The motivation behind renewing the group includes the desire to enhance income through collective action and to address marketing challenges. The members foresee opportunities to expand their market reach to upcoming projects, such as the Chamkharchu Project and the Gelephu Mindfulness City development, as well as other NWFP dealers.

The revision of the plan was felt crucial to achieve the objectives of the earlier plans while also exploring additional NWFPs and new areas for sustainable management of resources. The group aims to leverage their experiences and knowledge gained to enhance their marketing strategies and increase their overall income.

Goals and Objectives

- To generate income for the people of the Zangbi community through the sale of bamboo shoots, bamboo culms and sale of other NWFPs.
- To sustainable harvesting and marketing of Bamboo resources along with other NWFPs.
- To create employment opportunities within the communities and sense of responsibility for protecting the forest resources.

Description of NWFPs present in the area for management

There were more than 15 collection areas specified for the collection of listed NWFPs based on the resources availability in those identifies areas. Various NWFPs grow during the specific season as mentioned below in Table 1. There are about 15 major products listed as per the commercial values.

Table 1. Brief description of NWFPs for commercial harvesting in each season

NWFP name	Harvesting area(s) (name)	Parts harvested	Use/purpose (traditional & others)	Harvesting season (months)	Estimated quantity for harvesting season or year
Bamboo Culm (Paibing)	Yungbaling, Jinti, Barpong, Mundhang, Tangkaling, Bojongbi, Zangbi	Culm	Fencing, Handicrafts, Constructional purposes, etc	Dec-Jan	50000 culms
Bamboo shoot (Bungba)	Yungbaling, Jinti, Barpong, Mundhang, Tangkaling, Bojongbi, Zangbi	Shoot	Vegetable, Pickle	Jul-Aug	2000kg
Pipla (Pipla)	Mundhang, Jinti, Modharbi, Tangkaling, Zangbi	Fruit	Medicinal values	Oct-Nov	500kg
Fern (Nakey)	Tashiling, Modharbi, Mundhang, Zangbi, Jinti	Young shoot	Vegetables	Feb-Mar-Jul	500bundle
Dhamru (Dhamru)	Mundhang, Tashiling, Vedhang, Jinti	Leaves	Vegetable	Apr and Oct	5000bundle
Wild Potato (SurdhangKii)	Tashiling, Jinti, Barpong, Mundhang, Bangorbi	Tuber	Food	Dec & March	1000kg
Cane (culm)	Jinti, Tashiling, Phuling, Vedhang, Mundhang	culms	Handicrafts	Oct-Nov	1300H/loads
Dhurka	Mundhang, Tashiling, Jinti, Yungbaling, Jinti	heartwood	Medicine, incense making	Jan-Dec	2500kg
Cane shoot (Patsa)	Jinti, Tashiling, Phuling, Vedhang, Mundhang	Shoot	Vegetable	Apr-Jun	500pcs
Mushroom (mu)	Tashiling, Mundhang, Jinti, Pholing, Tangkaling	Fungus	Vegetable	Jan-Dec	500kg
Ngawangpemo (Tupistra)	Tashiling, Mundhang, Kakaling, Basaling	Flowers	Vegetable	Oct-Nov	1000bundles
Nipelma (Bohemeria spp)	Tashiling, Pholing, Basaling, Mundhang, Papabi	Bark	Gum	Jan-Dec	3000kg
Mochali (Musa Fower)	Tashiling, Basaling, Mundhang, Vedhang, Bojonbi	Flower	Vegetables	Oct-Aug	1500 pcs
Chinchang (Cinamomum root)	Tashiling, Basaling, Pholing	Bark of roots	Spices/ Medicine	Jan-Dec	1000kg

Table 2. Available bamboo resources, as per the assessment result

Block areas	Year/age category
-------------	-------------------

	Year-1 (culms)	Year-2 (culms)	3 years above (culms)
Zangbi Block1	1500	2210	5670
Zangbi Block2	990	1455	3566
Yungbaling Block	1120	4020	11200
Jinti Block	1560	6555	17019
Bojongbi Block	1310	2250	5409
Tangkaling Block	1600	2385	8905
Total (nos/culms)	8080	18875	51769

The bamboo assessment was done based on old CF manual2 (plot size was 25mx10m, and the plots were randomly selected)

Harvesting prescriptions for sustainable NWFP collection

To make the harvesting of NWFP sustainable, the ZANGBE SHINGMEN TSHONGDREL DHEYTSHEN must apply an appropriate harvesting prescription based on scientific and local knowledge. The chairman will work according to the seasonal calendar and the period of the guidelines. During the harvesting season, the chairman will collect a permit from the Gomphu Range office for the required head loads in the name of the NWFP group and then inform the members to proceed with harvesting the resources. The harvesting areas will be identified with the members as per table No. 1 above. The monitoring work will be also done by the Committee members for the proper harvesting as per the guidelines.

Table 3. Harvesting prescription for sustainable harvesting of NWFPs

NWFP species	Harvesting prescriptions for sustainable harvesting
Bamboo culm and bamboo shoot (<i>Dendrocalamus hamiltonii</i>)	Cut culms above one node from the ground level Do not cut culms less than one-year-old Retain 50% healthy culms in a clump Remove matured culms from the center of the clump. Do not harvest the culms growing on the periphery of the clump Collect bamboo shoots to a maximum of 25% from a clump Cut bamboo shoots with a sharp knife at the ground level without damaging or wounding the other healthy ones After cutting and collecting the bamboo shoots, cover that void place with topsoil Protect the remaining shoots and let them further develop into culms
Pipla (<i>Piper pedicelatum</i>)	Do not uproot or cut down the entire climber. Collect fruits only when fully matured. Harvest fruits only after the announcement of collection season Date for harvesting (The date is usually announced by the coordinator / relevant authority). Harvest fruits/spikes by hand picking without damaging the plant or by

	cutting a few fruit-bearing branches. Do not cut down the host tree to ease harvesting. Do not cut the entire fruiting portion of the plant
Nagkey (<i>Diplazium esculentum</i>)	Harvests young shoots that are 15cm in length. Don't harvest all shoots coming up in season. Retain at least 50% of the young shoot of the last flush for the development of leaves. Don't harvest the shoots that have developed into leaves.
Dhamru (<i>Elatosteme lineolatum</i>)	Collect plants that are 15cm and above. Retain stump of around 3” for sprouting of new shoots. Don't uproot the whole plant. You shouldn't cut down trees and create more openings. Shouldn't disturb its catchment area.
Surdhangkii (<i>Dioscorea spp</i>)	Manual digging hole with the help of a hoe. Select the mature climbers Keep the upper part of the tuber for regeneration.
Cane and shoot (<i>Plectocomia Himalayana</i>)	Cut cane stem only when matured Cut only canes with usable length at least 10m Harvest during winter season to have better quality Cut young shoots by bending the cane stem with help of long hook with sharp knife Do not cut the support tree of the cane shoot
Naipelma (<i>Boehemeria sp</i>)	Harvest only the bark of the root Do not cut whole plants Do not cut down the supporting tree
Dhurka (<i>Knemateuni nervia</i>)	Do not cut down the standing trees Collect the fallen/ uprooted heartwood of Dhurka (Arna) with sharp knife.
Chinchang (<i>Cinamomum spp</i>)	Collect the 50% of root bark Do not damage all the parts of roots Harvest only 30-40% of the root of individual plant
Muchali (<i>Musa sp</i>) /Banana flower.	With the help of a long stick try to pluck the flower Do not collect all the flowers from same location Never cut the whole banana tree
Mushroom	Collect the mature fungus Harvest by using a knife Do not damage the growing surface of the log
Ngawangpemo (<i>Tupista Nutans</i>)	Collect only flowers by hand Do not uproot mother plant Don expose or damage the root while harvesting the flower.

Participatory Mapping and Google Map

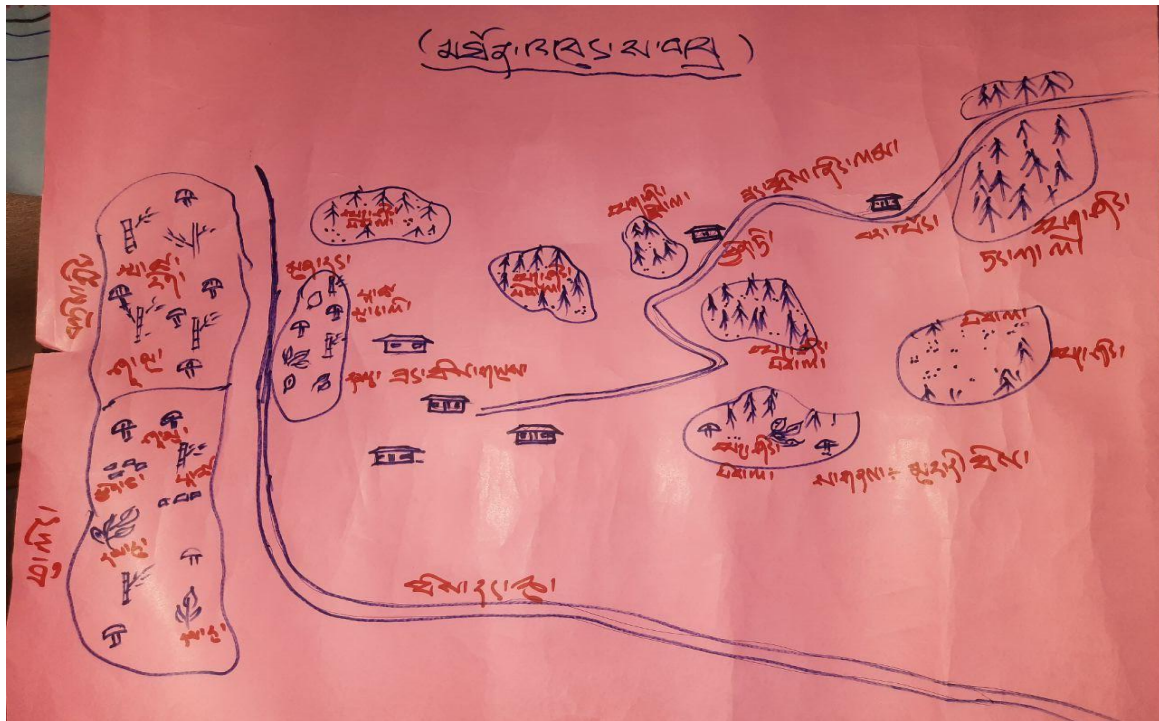

Figure 1. Participatory mapping prepared by group members for NWFP resource collection

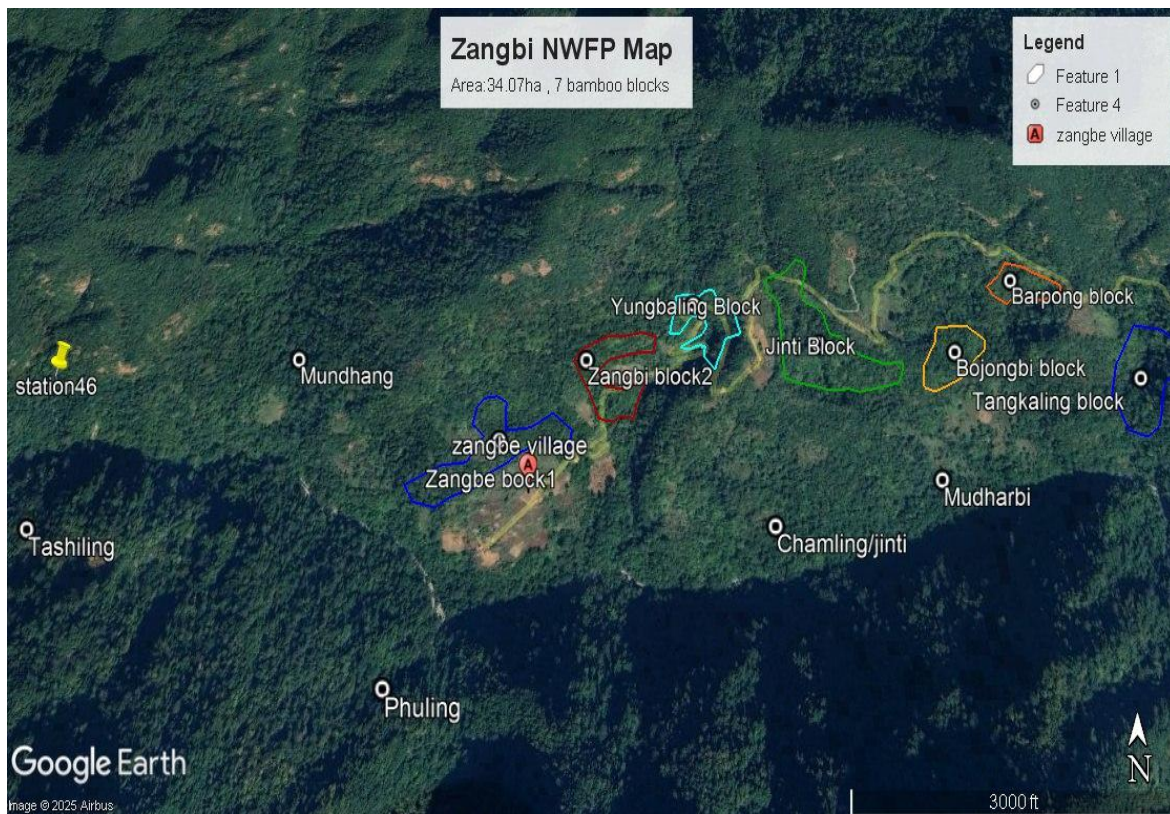

Figure 2. Google Map showing different NWFP harvesting areas

Marketing and Sales Plan

In the previous plan periods, the NWFP group members of Zangbi couldn't market products as planned. The main reason behind this is that during that term (2019-2022), the COVID-19 pandemic has hampered their sales plan, both for locals and outsiders. For the present plan, the following products listed will be the main products that will be sold in the market based on the demand made by the customers. The sale plan was formulated based on the interim framework for management and marketing of NWFP guidelines 2022. The prices were fixed based on the prevailing local market rates as tabulated under.

Table 4. Marketing and Sales Plan for the group

NWFP	Potential market / buyer	Estimated quantity for sale / season (unit)	Forms of Products (dry/fresh)	Expected price / unit	Total (Nu)
Bamboo culm	Chamkharchu project Local Contractors Upcoming GMC project	5000culm	culm	50	250000
Bamboo shoot	KNC, GMC project Gelephu	1000kg	Fresh shoot	30	30000
Pipla	NWFP Dealer	50kg	Dry fruit	100	5000
Fern	Local Market	100bundle	fresh shoot	25	2500
Dhamru	Local Market	100bundle	Fresh shoot	20	2000
Wild potato	Local Market	250kg	Fresh tuber	200	50000
Dhurka	NWFP Dealer	1500kg	Dry heartwood	115	172500
Cane (culm)	Local market	30H/loads	culms	600	18000
Patsa (Cane shoot)	Local market	200 pcs	shoot	100	20000
Tupista Nutans	NWFP Dealer & Local Market	200bundles	flower	100	20000
Muchali (Musa spp)	Local Market	100pcs	Fresh Flower	50	5000
Mushroom	Local Market	70kg	Fresh	200	14000
Naipelma (<i>Boehmeria spp</i>)	Local market, Thimphu market, GMC	700kg	Dry bark	70	49000
Chinchang (<i>Cinnamomum spp</i>)	Local market, GMC, Chamkharchu Project	150pkt	Dry bark	50	7500
			Total amount		625500

Marketing Arrangements

The NWFP products such as Bamboo shoots and mushroom in smaller quantities can be sold in Pantang and Panbang market. For NWFP with larger quantities, it can be aimed to be sold in the Gelephu market and other project areas. To confirm the smooth functioning of the business, the dealer from the market will be arranged by the committee members of the group.

The Chairman will monitor and explore the demand from nearby institutes, agents, companies and other business groups. For further arrangements, support will be sought from the DAMC. In addition, the group will focus more on diversified handicraft development and will explore other innovative ideas which have good scopes in the market.

Table 5. Activities to be implemented by the NWFP group

Activity	A brief description of how the activities is carried out
Harvesting of products	The members will harvest the NWFPs in groups, market it together in teams and share the income from the sale of the product according to the by-laws framed in Part 2.
Post-harvest practices	The members will try to prepare the products for sale, and all the grading work etc. will be done in groups as per the Chairperson's instructions.
Marketing of products	The NWPF collected and harvested will be marketed in groups as per the by-laws.
Identification of buyers	The chairperson will link with the licensed buyers
Price fixing	The price fixing will be as per the marketing and sales plan. The Chairperson will fix the price according to the current market value.
Income sharing	80% of the income will be deposited in the group account and the remaining 20% will be shared among the members.
Raising of community development fund	80% of the income from the sale of NWFP, Fee collection, and other collections will be deposited in the BDBL group account CDF.
Payment to committee members for their service	Committee members will be given a vehicle charge and expenses incurred while visiting other places for the NWFP-related work from the group fund and during normal group work equal share will be given to them like members.

Benefits to the members

The benefit or income from the sale of Non-Wood Forest Products will be equally shared among the active members who have worked for the collection, transportation, seasoning and marketing of the products. The financial projections were done for only potential NWFPs.

Table 6. Financial projection of the benefits for the members from the sale of NWFPs

SN	Particulars	Products (names)		Remarks
----	-------------	------------------	--	---------

		B. culms	Boehemeria spp	Dhurka	Cane shoot	Total Amount (Nu)	
1	Revenues

D	Average income for group members (C/no. of group members)	3636.36	572.72	2454.54	272.72	6936.34	
E	Price per unit paid to group members (C/1a)	8	9	18	15	50	

Benefits to the group

About 20% of the income generated from the sale of NWFPs will be shared among the members after the sale of the product upon calculating all the expenses incurred for the work and 80% will be deposited in the group's account as a main source for group fund development. Below in the table is only 80% of the income from the sale of NWFPs, collection of fees and fines that will be saved as the main fund (CDF) for the group. The project below is done only for major/potential products that will generate more income for the Group.

Table 7. Financial projection of the benefits to the group, the community development fund

SN	Particulars	Amount (Nu)
	Revenues	
1	Membership registration fees	5500

3	Contribution to the Community Development Fund (CDF) from sales of Bamboo culm	200000
4	Contribution to the CDF from sales of Boehmeria sp (Neipelma)	39200
5	Contribution to the CDF from sales of Dhurka arna	138000
6	Contribution from the CDF from sales of cane shoot	16000
A	Total revenues	398700
	Expenses (only include expenses that will be paid from the group funds)	
1	Expenses for the opening of Joint account	5500
2	Refreshment for harvesting products (in lump sum per season)	20000
3	Permit fees	22000

C	Balance: Total revenues – Total expenses	351200

PART B: GROUPS BY-LAWS

NWFP Management and Marketing Group

Membership Arrangement and resignation	
<i>Membership arrangement</i>	➤ All the households residing in Zangbe village are eligible to join as members of the management group. ➤ Acceptance in the group will be made only by the committee members through the general assembly.
<i>Procedure for becoming a new member</i>	➤ Any individual wishing to become a member of the group will put up a letter/application to the chairperson. ➤ A member wishing to join the group should be 18 years old and above, must be Head of the Household, he or she should be a permanent residence of Zangbe village. ➤ A person wishing to join the group as new member, from the fragmented families of the villages /can become a member by paying Nu. 5000/- as a membership fee i.e after one year, and Nu.5000 will be increased each year till fifth year ➤ Any other individual wishing to become a member after completion of the 5th year plan cycle, shall need to wait and join as member during plan revision.
<i>Procedure for leaving the group</i>	➤ If anyone from the group wishes to discontinue from a group member, he/she has the right to leave. However, he/she should leave with the submission of the application to the chairperson and will not be allowed to join the group in the future. ➤ Further, the member leaving the group will not be allowed for any kinds of benefit from the group fund.

	➤ If the Children of withdrawn individual wishes to join as a member in future, they must follow the procedure set to become new members.
<i>Responsibilities and rights of group members</i>	➤ Implement activities approved by the government that have been planned in their management plan. ➤ Attain ad-hoc meetings conveyed by committee members. ➤ Protect illegal activities and refrain from doing illegal activities in the collection area. ➤ Harvest the NWFPs only as per the management plan.

Executive Committee of NWFP management and marketing group

Chairperson	Name: Drakpa, Contact No. 17718872
<i>Responsibilities Roles, Rights,</i>	➤ Implement activities approved by the government that have been planned in their management plan. ➤ Attain ad-hoc meetings conveyed by committee members. ➤ Share the minutes of meeting and resolution with the group members ➤ Monitor the illegal activities that may happen in the identified collection areas ➤ Advise the group members to refrain from doing illegal activities in the collection area. ➤ Advise the members to harvest the bamboo only as per the management plan.
Secretary	Name: Pema Kencho, Contact No. 17718869
<i>Responsibilities, Roles, Rights</i>	To maintain records of cash transactions such as: ➤ Collection and deposition of fines in the group account ➤ Collection and deposition of annual membership fee ➤ Recording of expenditure for meeting and labour engagement ➤ Recording of expenditures for group activities ➤ Issuance and recording of receipts for fine collection ➤ Share the details of fund accumulation to members during meetings
Treasurer	Name: Rinchen, Contact No. 17704372
<i>Responsibilities, Roles, Rights</i>	To maintain records of cash transactions such as: ➤ Collection and deposition of fines in the group account ➤ Collection and deposition of annual membership fee ➤ Recording of expenditure for meeting and labour engagement ➤ Recording of expenditures for group activities ➤ Issuance and recording of receipts for fine collection ➤ Share the details of fund accumulation to members during meetings
Tenure and incentives for Committee Members	
<i>Tenure</i>	All the committee members like the Chairperson, Secretary and Treasurer will be for 10 years unless unfavorable circumstances haunts.

<i>Incentives</i>	Transportation charges, Food, and Refreshments as per the prevailing local rate will be provided during any activities related to the group from the group income/fund
-------------------	--

Sources for generation of funds

<i>Membership registration fee, Annual contribution, Collection of sale proceed</i>	➤ New membership fees nu 500 in the beginning of the plan to create group saving account in the bank. ➤ Fees and fines collected will be deposited in the group saving account. ➤ To raise the funds and the groups carry out other activities, 80% of the sales of products will be deposited in the joint savings account (CDF).
---	--

Group Fund Utilization

<i>Group fund management and utilization</i>	➤ 20% of the income from the sale of products will be shared during the sale of products ➤ Welfare to members during natural calamities. ➤ Community cultural activities. ➤ For refreshment purposes during the group activities. ➤ The funds in the bank will be withdrawn once in 5 years by the committee members jointly.
--	---

Conflict Management

<i>Conflict resolution</i>	➤ In case of disputes or conflicts among communities arise about access to certain areas for NWFP harvesting; the matter shall be put to the village Tshogpa, Gewog Tshogchung (GT) Dzongkhag Tshogdue (DT) for further decision. ➤ Conflicts or disputes within the NWFP Management Group, which cannot be resolved by the group members shall be forwarded to the coordinator for settlement. If the case cannot be resolved, it shall be forwarded to the Gewog Administration. ➤ In case there is a conflict between the NWFP Group and outsiders, the case shall be forwarded to the Gewog Administration by the Coordinator and Forest Range office.
----------------------------	--

Group Meeting and Purpose

To plan and discuss an important activity for the management of NWFP, meetings will be conducted as follows:

Types of meeting	When	Purpose
General assembly (All group members)	12 th month and 6 th month of the Bhutanese calendar	To discuss and plan activities before harvesting or before harvesting products.
Committee members meeting/ ad-hoc meeting	Just before the above meetings	Plan activities as per the need For preparing progress reports.

Penalties

- Absentees during working and meetings shall be fined Nu: 400/- each time for meeting and Nu 700/- per day for work absentees.
- Violation of the NWFP business plan shall be fined according to the quantity misused, as per the detailed inspection done by the committee members.
- Collection of NWFPs during the off-season shall be fined double the market price, each time.
- If any of the members sells the bamboo resources, he/she will charge the market price scheduled as per the prevailing market rate
