Part I: NWFP management and marketing plan

1. Background/Introduction

The cross-cutting management plan for Tshamdruk Tshosum Shingmen Detshen Choekor is formed for sustainable management of high-altitude medicinal plants (NWFPs) falling within the jurisdiction of the Wangchuck Centennial National Park.

Wangchuck Centennial National Park in north-central Bhutan was established in 2008 to protect Bhutan's rich biodiversity and as a special gift to the monarchs for their selfless service. It is the largest park in Bhutan, covering 4,914 square kilometres, and supports the government's goal of keeping 60% of the country's land under forest cover. The Park has four Range offices for management purposes. The Choekhor Park Range is one of four range offices.

Choekhor Park Range, located in the Bumthang Dzongkhag, covers the upper areas of Choekhor and Tang Geogs. It extends north to the border with Tibet and spans 1,588.82 square kilometers. Established on July 1, 2010, this range is responsible for public services and conservation activities as outlined in the Management Plan. It boasts a rich variety of plants and animals, including the snow leopard and valuable non-wood forest products such as *Ophiocordyceps sinensis*, *Nardostachys grandiflora* and *Neopicrorhiza scrophulariiflora* to mention among many. Many local communities rely on these plants for their livelihoods and income.

However, the increasing demand for these non-timber resources poses a challenge to their sustainability. To improve management and conservation, it is crucial to involve local communities through the formation of NWFP (Non-Wood Forest Products) groups. This approach will encourage local people to take responsibility for managing and using these resources sustainably. Proper management plans based on scientific, social, and economic data should be developed and implemented in Choekhor Park Range to ensure the long-term sustainability of these valuable resources. The formation of Tshamdruk Tshosum Shingmen Detshen with 185 households will manage high-altitude NWFPs and curb illegal harvest in their jurisdictions.

2. Management Goal/Objectives

- Strengthen the sustainable management and marketing of NWFPs;
- Define clear roles and responsibilities of different stakeholders involved in NWFP
- Management marketing, monitoring & evaluation;
- Improve/value add NWFPs product development,
- Efficiency and effectiveness of marketing; and
- Promote domestic and cultivation of high value NWFP

3. Description of NWFPs present in the area demarcated for management by the group

Based on medicinal value and usefulness in home remedies the member of the NWFPs group proposed the collection of NWFPs as per the growing areas in different locations.

SL. No.	Scientific Name	Local Name	Collection season	Cost/Kg/Sack	Parts Used
1	<i>Dactylorhiza hatagirea</i>	Wangpo lagpa	August-October	1000/kg	Rhizome
2	<i>Neopicrorhiza scrophulariiflora</i>	Putu-shing	August-November	1000/kg	Rhizome
3	<i>Pleurospermum amabile</i>	Tsa-tseb	August- October	100/kg	Whole

4	<i>Nardostachys jatamansi</i>	Pangpoe	August- October	500/kg	Rhizome
5	<i>Exidia recisa</i>	Jili Namchoo	All year round	15000/kg (dry)	Whole
6	<i>Rhododendron anthopogon/ setosum</i>	Balu Sulu	All year round	800/Sack	Leaves
7	<i>Aconitum spp.</i>	Bongmar	August- October	800/kg	Leaves
8	<i>Juniperus spp.</i>	Shoop	All year round	300/sack	Flower
9	<i>Putro Seli</i>	Tang guen	August- October	500/kg (Dry)	Rhizome
10	<i>Drosera peltata</i>	Brangzung	June- August	800/kg (Dry)	Whole
11	<i>Delphinium brunonianum</i>	Lartsi-bumpa	August- November	1250/kg (Dry)	Whole
12	<i>Aconitum spp.</i>	Tsendhu	October- Nov	NA	Rhizome
13	<i>Tanacetum nubigenum</i>	Khamkar	September- November	500/kg	Whole
14	<i>Meconopsis spp.</i>	Tshernyen meto	July-September	600/kg (dry)	Whole
15	<i>Fritillaria cirrhosa</i>	Tsiga	Sept- October	1000/kg (dry)	Rhizome
16	<i>Paris polyphylla</i>	Thogsumpa	June- October	1500/kg (dry)	Rhizome
17	<i>Hippophae rhamnoides</i>	Teyseng	September- November	100/kg	Fruits
18	<i>Saussurea spp.</i>	Azhangbepa	August- October	1000/kg (Dry)	Whole
19	<i>Halenia elliptica</i>	Chagtey	August- October	100/kg (wet)	Whole
20	<i>Bistorta macrophylla</i>	Droem	August- October	NA	Rhizome
21	<i>Hypericum choisianum</i>	Ja Soena Choejay	October	200/kg (Dry)	Whole
22	<i>Rhodiola crenulata</i>	Solo marpo	August- October	50/kg (wet)	Rhizome
23	<i>Allium rhabdotum</i>	Mekam	June-July	100/packet	Whole
24	<i>Veronica ciliolata</i>	Domna domthri	June- July	900/kg (Dry)	Whole
25	<i>Rhododendron cinnabarinum</i>	Ish Mish	August-October	500/kg (Dry)	Leaves
26	<i>Pedicularis megalantha</i>	Luru Marp	July- September	500/kg (dry)	Flower
27	<i>Pedicularis longiflora</i>	Luru Serp	July- September	500/kg (dry)	Flower
28	<i>Aconogonon turtuosum</i>	Yulu	August-November	200/kg (Dry)	Leaves
29	<i>Tsuga dumosa</i>	Dhungshing	All year round	100/kg (Dry)	Leaves
30	<i>Gentiana elwesii</i>	Pangja meto	September- November	1100/kg (Dry)	Flowers
31	<i>Thamnolia vermicularis</i>	Shawgirapchu	All year round	700/kg (Dry)	Whole
32	<i>Waldheimia glabra</i>	Khamna	August- October	300/kg (Dry)	Whole
33	<i>Gerardiana spp.</i>	Tsem	All year round	200/kg	Whole
34	<i>Sorbus spp.</i>	Serkali	Sept - Dec	35/kg (Dry)	Leaves

4. Trends of NWFPs collected for past three years

Sl. No	Species	Local name	Quantity of harvested dried NWFP (Kg) over last 3 years			Average (Kg)	Name of areas
			Year 1	Year 2	Year 3		
1	<i>Dactylorhiza hatagirea</i>	Wangpo lagpa	25	40	25	30.00	Dhur drok, Tsam drok, Ten drok
2	<i>Neopicrorhiza scrophulariiflora</i>	Puti shing	3500	4050	4950	4166.67	
3	<i>Pleurospermum amabile</i>	Tsa tseb	25	30	27	27.33	
4	<i>Nardostachys jatamansi</i>	Pangpoe	150	200	350	233.33	
5	<i>Exidia recisa</i>	Jili Namchoo	1000	1000	1000	1000	
6	<i>Rhododendron anthopogon/ setosum</i>	Balu Sulu	750	700	850	766.67	
7	<i>Aconitum spp.</i>	Bongmar	10	15	10	11.67	
8	<i>Juniperus spp.</i>	Shoop	1500	1850	1950	1766.67	
9	<i>Seli</i>	Tang guen	10	11	15	12.00	
10	<i>Drosera peltata</i>	Brangzung	150	200	250	200.00	
11	<i>Delphinium brunonianum</i>	Lartsi-bumpa	15	25	30	23.33	
12	<i>Aconitum spp.</i>	Tsendhu	5	7	9	7.00	
13	<i>Tanacetum nubigenum</i>	Khamkar	12	17	19	16.00	
14	<i>Meconopsis spp.</i>	Tshernyen meto	14	16	19	16.33	
15	<i>Fritillaria cirrhosa</i>	Tsiga	11	13	15	13.00	
16	<i>Paris polyphylla</i>	Thogsumpa	100	90	85	91.67	
17	<i>Hippophae rhamnoides</i>	Teyseng	1500	2000	2500	2000.00	
18	<i>Saussurea spp.</i>	Azhangbepa	90	85	95	90.00	
19	<i>Halenia elliptica</i>	Chagtey	25	20	35	26.67	
20	<i>Bistorta macrophylla</i>	Droem	90	95	100	95.00	
21	<i>Hypericum choisianum</i>	Ja Soena Choejay	15	20	25	20.00	
22	<i>Rhodiola crenulata</i>	Solo marpo	90	120	130	113.33

24	<i>Veronica ciliolata</i>	Domna domthri	45	40	55	46.67	
25	<i>Rhododendron cinnabarinum</i>	Ish Mish	150	200	250	200.00	
26	<i>Pedicularis megalantha</i>	Luru Marp	35	40	55	43.33	
27	<i>Pedicularis longiflora</i>	Luru Serp	30	45	40	38.33	
28	<i>Aconogonon turtuosum</i>	Yulu	55	50	65	56.67	
29	<i>Fir</i>	Dhungshing	4500	4000	4500	4333.33	
30	<i>Gentiana elwesii</i>	Pangja meto	70	65	80	71.67	
31	<i>Thamnia vermicularis</i>	Shawgirapchu	35	50	60	48.33	
32	<i>Waldheimia glabra</i>	Khamna	30	25	45	33.33	
33	<i>Gerardiana spp.</i>	Tsem	15	25	20	20.00	
34	<i>Sorbus spp.</i>	Serkali	25	30	40	31.67	

5. Brief description for commercial and harvesting season in each season.

NWFP Name	Harvesting area name	Parts harvested	Use/Purpose (Traditional and others)	Harvesting season	Estimated quantity
Wangpo lagpa	Dhur drok, Tsam drok, Ten drok	Rhizome	Medicines	Aug-Oct	1000/kg
Puti shing		Rhizome	Medicines and Incense	Aug-Nov	1000/kg
Tsa tseb		Whole	Yama medicines	Aug- Oct	100/kg
Pangpoe		Rhizome	Medicines and Incense	Aug- Oct	500/kg
Jili Namchoo		Whole	Used as a vegetable and in traditional medicines	All year round	15000/kg (dry)
Balu Sulu		Leaves	Incense	All year round	800/Sack
Bongmar		Leaves	Medicines	Aug- Oct	800/kg
Shoop		Leaves	Incense	All year round	300/sack
Tang guen		Rhizome	NA	Aug- Oct	500/kg (Dry)
Brangzung		Whole	Medicines	Jun- Aug	800/kg (Dry)
Lartsi-bumpa		Whole	Medicines	Aug- Nov	1250/kg (Dry)
Tsendhu		Rhizome	Medicines	Oct- Nov	NA
Khamkar		Whole	Herbal tea, aromatized salads	Sept-Nov	500/kg
Tshernyen meto		Whole	Used as medicines for curing various diseases	Sept	600/kg (dry)
Tsiga		Rhizome	Used to cure cough, bronchitis, pneumonia, lung injury, and cancer-treating	Sept-Oct	1000/kg (dry)
Thogsumpa		Rhizome	Medicines purposes	Jun-Oct	1500/kg (dry)
Teyseng		Fruits	Antioxidants	Sept- Nov	100/kg
Azhangbepa		Whole	Medicines	Aug- Oct	1000/kg (Dry)
Chagtey		Whole	Use to treat chronic hepatitis B	Aug- Oct	100/kg (wet)
Droem		Rhizome	Use for treating wounds	Aug- Oct	NA
Ja Soena Choejay		Whole	Decoration, treating hemoptysis and wounds	October	200/kg (Dry)
Solo marpo		Rhizome	Treats depression, fatigue, anxiety and tuberculosis	Aug- Oct	50/kg (wet)
Mekam		Whole	Leaves and flowers heads eaten as vegetables	Jun-Jul	100/packet
Domna domthri		Whole	NA	Jun-Jul	900/kg (Dry)

Ish Mish		Leaves	gaining quick insights on disease prevention, treatment, toxicity, care, uses, and symbolism	Aug-Oct	500/kg (Dry)
Luru Marp		Flower	Treats fever, sterility, rheumatism, improve digestion and blood circulation	Jul- Sept	500/kg (dry)
Luru Serp		Flower	Treats anti-inflammatory, anti-diabetic, antibacterial, antifungal, analgesic, antitumor, hepatoprotective	Jul- Sept	500/kg (dry)
Yulu		Leaves	The plant is used in baths to treat bacterial and fungal skin disease	Aug- Nov	200/kg (Dry)
Dhungshing		Leaves	Incense	All year round	100/kg (Dry)
Pangja meto		Flowers	Treats in digestion problems, loss of appetite, intestine gas, diarrhoea, gastritis, heartburn and vomiting.	Sept- Nov	1100/kg (Dry)
Shawgirapchu		Whole	Incense	All year round	700/kg (Dry)
Khamna		Whole	Incense	Aug- Oct	300/kg (Dry)
Tsem		Whole	Medicines	All year round	200/kg
Serkali		Leaves	Bacterial, viral, inflammatory diseases including tumor.	Sept - Dec	35/kg (Dry)

6. Harvesting prescriptions for sustainable harvesting of NWFPs

6.1 Collection Guidelines

1. Two collectors from each household are allowed but in case any problem happens to the initial permit holder, another person from the same household shall be allowed to replace him/her but has to inform and get approved by the Chairperson.
2. The chairman will apply for the permit in the Online Forest Service (OFS) after gathering a list of members who are willing to collect it.
3. The Range Office shall issue transit permits and collect royalty
4. The NWFP executive committee shall deal with collection of resources beyond the time given as per the group bylaws. As agreed by the group, if Committee members properly handle the case, the collected fine shall be deposited into the group account but if needs to

be settled by Forestry officials, the collected fine amount will be as per government rules and regulations.

5. Depending on the degree and frequency of the illegal collection and selling cases by this group, the DoFPS, WCNP, and Choekhor Park Range shall issue a warning letter to the TTSD regarding the suspension and cancellation of the NWFP Group certificate

Table 1: Prescriptions for sustainable harvesting of NWFPs

Botanical name	Local name	Basic guidelines and harvesting prescriptions
<i>Dactylorhiza hatagirea</i>	Wangpo lagpa	After shedding of flowering and turning of leaves and stem in yellow colour, it is ready to collect only 50% of the rhizomes are allowed to be collected as it may become extinct in future.
<i>Neopicrorhiza scrophulariifolia</i>	Putu-shing	- Dig up only mature rhizomes - Harvest rhizome only during the harvesting season - Do not uproot the entire plant - Leave the mother plant intact with a small portion of rhizome/root in the soil for its regeneration in the following year
<i>Pleurospermum amabile</i>	Tsa tseb	- whole plant materials - collect only 30% of the plants
<i>Nardostachys jatamansi</i>	Pangpoe	- Dig up and collect the rhizome by using a sharp knife - Do not uproot the entire plant - Leave the mother plant intact with a small portion of rhizome/root in the soil for its regeneration in the following year
<i>Exidia recisa</i>	Jili Namchoo	- The collectors are instructed to collect without felling its mother trees - Do not set up fire as all the mother trees will wipe up
<i>Rhododendron anthopogon</i>	Balu	Use sharp knife/scissors to cut branches in order to collect leaves and twigs
<i>Rhododendron setosum</i>	Sulu	Collect at maximum 20% of the leaves and twigs from an individual shrub to avoid over-harvesting
<i>Aconitum spp.</i>	Bongmar	- Toots are collected - Collect only 50% of the plants
<i>Juniperus spp.</i>	Shoop	- Only leaves are allowed for collection - Do not cut the tree/branches (falls under special class category)
<i>Selinum vaginatum (C.B Clarke)</i>	Tang guen	- Collected roots and - prescribed 60% collection
<i>Drosera peltata</i>	Brangzung	- Whole plants - Only 70% is allowed for collection
<i>Delphinium moscosum</i>	Lartsi-bumpa	- Whole plants collected - Risk in extinction
<i>Aconitum spp.</i>	Tsendhu	- Entire roots - Prescribe only 30% collection
<i>Tanacetum nubigenum</i>	Khamkar	- Collected during the full flowering period - Prescribe only 45% collection

<i>Meconopsis spp.</i>	Tshernyen meto	• Flowers and fruits
<i>Fritillaria cirrhosa</i>	Tsiga	• Collected rhizome
<i>Paris polyphylla</i>	Thogsumpa	• Require hoe to collect • Need to collect mature ones and not all the plants
<i>Hippophae rhamnoides</i>	Teyseng (Eng: Sea buckthron)	• Do not cut mother trees • Collect only fruits
<i>Halenia elliptica</i>	Chagtey	• Leaves are collected • Do not uproot whole plants • Collect 70% of the areas
<i>Hypericum choisianum</i>	Ja Soena Choejay	• Flower parts only • Do not cut the mother shrubs
<i>Rhodiola crenulata</i>	Solo marpo	• Collected roots • Collect only 60% of the roots
<i>Allium rhabdotum</i>	Mekam	• Whole plants used for curry and medicines too • Do not uproot whole plants and collect only 70% of the plants
<i>Veronica ciliolata</i>	Domna domthri	• Flowers with whole stem
<i>Rhododendron cinnabarinum</i>	Ish Mish	• Collected flowers, leaves, and pollens too • Do not cut the mother trees
<i>Pedicularis megalantha</i>	Luru Marp	• Whole plants used for medicines • Collect only 50% of the plants
<i>Pedicularis longiflora</i>	Luru Serp	• Whole plants used for medicines • Collect only 50% of the plants
<i>Aconogonon turtuosum</i>	Yulu	•
<i>Tsuga dumosa</i>	Dhungshing	• Collect leaves • Cut only branches • Do not cut whole trees
<i>Gentiana elwesii</i>	Pangja meto	• Collects only flower • Do not destroy the plants
	Pang Karp	• ???
<i>Thamnia vermicularis</i>	Shawgirapc hu	• Collects leaves only • Use a sharp dragger while cutting
<i>Waldheimia glabra</i>	Khamna	• Collects leaves only • Use a sharp dragger while cutting
<i>Gerardiana spp.</i>	Tsem	• Used only leaves for local tea preparations • Do not cut mother trees
<i>Sorbus spp.</i>	Serkali	• Whole plants used for medicines • Collect only 50% of the plants

6.2 General information on the NWFP Collection Site

The sites for NWFP collection are chosen based on where the resources are available and the area covered by traditional community pasture land use as a boundary. After group discussion, it was decided to collect the NWFPs on a sustainable basis from total area of 98044 ha (242168.68 ac) as per the map demarcated by the group and the area are as follows: Dhur drok, Khang drok, Dhur, Gangkar Phuensum, Chachena, Broksar, Moela Karchung, Tamkora, Dhirub, Gomthang, and Pasamlung areas.

Figure 2: Google map showing NWFPs collection area

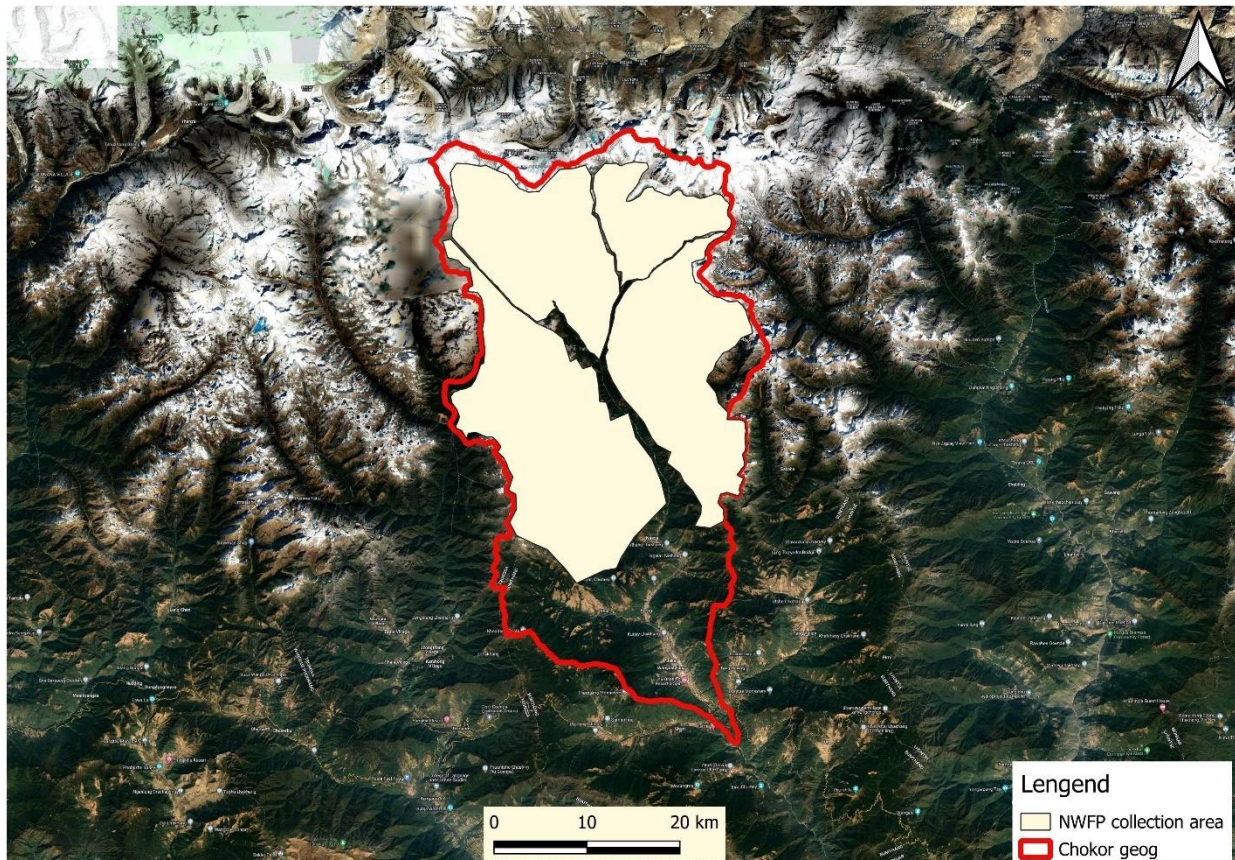

Figure 2: Google showing location of collection area

Figure 3: NWFPs collection area for the Group

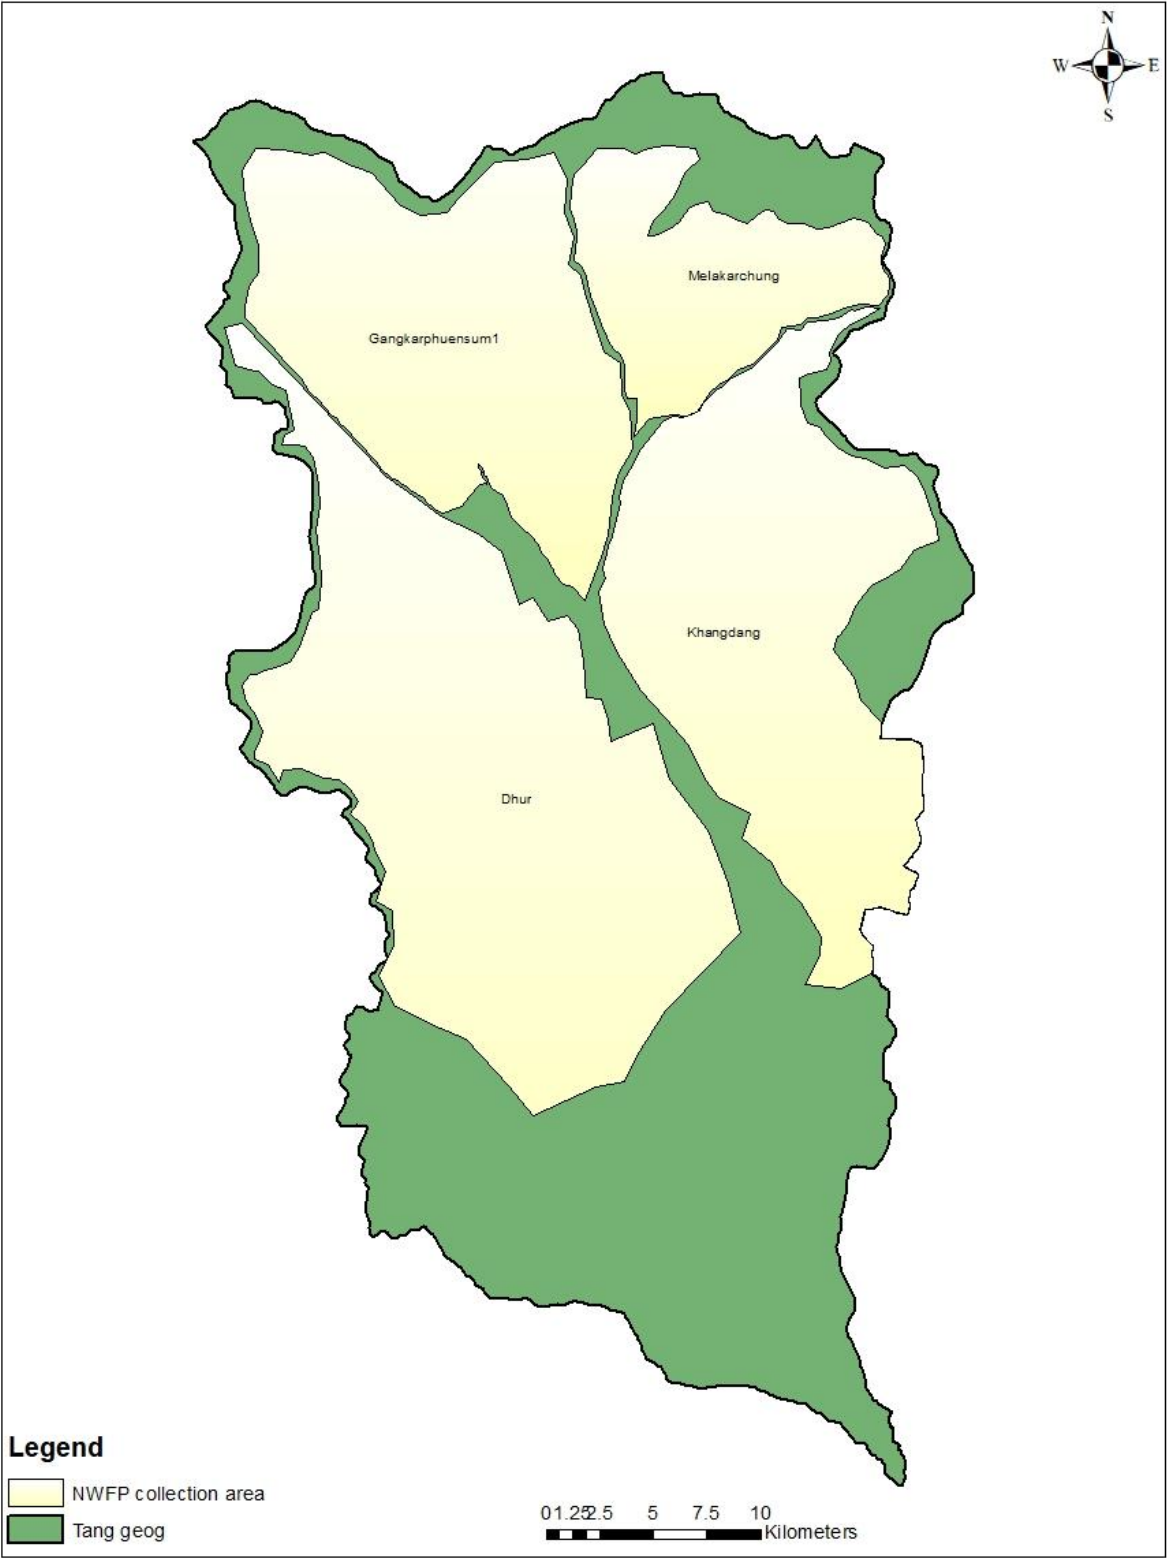

Figure 3: NWFPs collection area

7. Marketing and Sales plan

The table below describes the products. These products are gathered from specific locations and then brought to Choekhor Gewog for sale through an auction process. Local leaders and NWFP group committee members attend this auction. The direct sale of products from one individual to another buyer is not allowed. Furthermore, the sale must be conducted in the presence of officials to ensure transparency in the amount received by the seller. The management committee collects 5% of the total sales amount from individual sellers and deposits it into a group account. Any member or committee member, as well as the Gewog administration, can seek out buyers through auction to compete or bid on prices.

Table 2: Marketing and sales plan

NWFP	Local Name	Potential market/ buyer	Estimated quantity for sale per season	Form of products (dry/fresh)	Expected price per unit (Nu)	Total (Nu)
<i>Dactylorhiza hatagirea</i>	Wangpo lagpa	Exporters/ TMD and local buyers	Dry	30	1,750.00	52,500
<i>Neopicrorhiza scrophulariifolia</i>	Putang shing		Dry	4166	1,000.00	4,166,000
<i>Nardostachys jatamansi</i>	Pangpoe		Dry	223	500.00	111,500
<i>Exidia recisa</i>	Jili Namchoo		Dry	135	15,000.00	2,025,000
<i>Rhododendron anthopogon/ setosum</i>	Balu Sulu		Dry	767	800.00	613,600
<i>Aconitum spp.</i>	Bongmar		Dry	12	800.00	9,600
<i>Juniperus spp.</i>	Shoop		Dry	1767	300.00	530,100
<i>Seli</i>	Tang guen		Dry	12	500.00	6,000
<i>Drosera peltate</i>	Brangzung		Dry	200	800.00	160,000

- Maintain all records of withdrawal and deposit of expenditures of group fund.
- Deal any procurement associated with the group and maintain record accordingly.

Resoop

- Shall inspect the site based on the order of the Chairman on need basis and on ad hoc basis.
- Shall submit the written report to Chairman which shall be further submitted to RO.
- All resoops should get together to apprehend the offenders or illegal collectors and handover to Chairman and settle the case.

3. Tenure of Committee Members

- The committee members shall serve the term for 3 years provided he or she has willingness or no complaints from group members.
- Withdrawal or change of Committee members shall be discussed and decided during annual meeting.
- Resoops shall serve for one year and change as per the sequence appointed by committee members.

3.1 Incentives to the Committee Members

- Executive members will be paid nu. 10,000/year as an incentive.
- The committee members (Chairman, Secretary and Treasurer), DSA of Nu.1000 will be paid during official meetings and tours if there are no other funding sources.
- Travel Allowance (TA) for committee members will be as per Bhutan Civil Service Rules (BCSR) 2023 (Nu.16/km).
- Committee members shall need approval form Geog Thrizin on any official meetings and tours to claim DSA and TA.

4. Source of Group of Fund

The following are the sources of fund for the group

- Membership registration fees collected from new members.
- Annual membership fee collection
- Fines from absentees in work and general group meeting.
- Fines from illegal sale and illegal harvesters.
- From sale of products seized during the patrolling.

4.1 Membership registration fees

New members who wish to join the group have to pay a sum of Nu.5000 if the applicant joins in the first year, Nu.6000 in the second year and Nu.7000 in the third year of the management plan as membership registration fee. The treasurer of the group will collect and deposit in group saving account within two weeks and maintain a cash deposit for future reference.

4.2 Annual contribution

- a) Group agreed to contribute Nu.200 as a membership fee in the first year and Nu.100 in the second and third year. Annual membership fee shall be collected by Treasurer during the annual meeting and he/she shall present all the financial transactions of one year on that day to maintain transparency.

5. Group fund management and utilization

- The fund in the bank shall be withdrawn by committee members only after the common consensus with group members. Such a decision will be taken during the Annual General Meeting.
- Donation and contribution shall be directly deposited in group account by the treasurer.
- All the fines and penalties imposed and accumulated shall be deposited in the group account and maintain bank receipt for future reference.
- If the NWFP group gets cancelled permanently due to any reason, the total amount saved in the bank group account shall be divided among the active members

6. Loans and its Procedures

After accumulation of Nu.100,000 group fund, committee members can allocate their fund for loan.

6.1 Eligibility criteria for loans

- a) Both group member and non-member can avail loan from the group fund but it has to be decided by the committee members.
- b) The borrower must be of 18 years and above.
- c) Only one member from the household is eligible for loan at a time and should not have outstanding loan from the group.
- d) Loan shall be disbursed only upon the drawing of agreement between borrower and the committee member.
- e) Loan shall be disbursed only upon the drawing of agreement between borrower and the committee member in the presence of jabmi/witness.

6.2 Loan amount and ceiling

- a) The maximum amount of the loan of Nu.90,000/- shall be disbursed to each applicant.
- b) The interest rate of 10% shall be charged per annum to the group members and 15 % to the non-members on the amount of loan availed.

6.3 Loan Term

- a) The repayment of loan shall be within 1 year from the date of borrowing.
- b) However, all loans and other dues must be cleared before the expiry of the management plan.

6.4 Repayment Schedule and Process

- a) The borrowers have a freedom to pay the principal amount and interest within a term of borrowing period.
- b) However, if the borrower fails to pay on the due date, he/she shall pay the penalty of 24 % annually.
- c) It is the duty of the treasurer to maintain proper records of all financial transactions.

6.5 Loan Approval and Disbursement Process

- a) Upon fulfilling the eligibility criteria, applicant can submit application to committee members.
- b) The borrower and Committee member shall sign loan agreement before the loan disbursement.
- c) The loan agreement shall be prepared in two copies, one for NWFP Management Committee and one for the borrower.
- d) The NWFP Management Committee shall withdraw/transfer the amount from their respective bank account and disburse to the borrower.

7. Conflict Management

Any conflict or dispute within the group or with outsider, shall be solved by Chairman and executive committee. If the Committee members can't solve, case shall be forwarded to gewog Administration and if deemed necessary to Park Management.

8. Meeting and Purpose

- Group general meeting will be held once a year to present the activities conducted, present financial status, discuss any uprising issues and to collect annual membership fee.
- Date of meeting will be informed by Chairman upon discussing with Committee members.
- Emergency meeting will be held upon notification from the Chairman.
- Executive Committee meeting will be held in social media groups to discuss any NWFP group related issues.
- Nu.1000 will be charged for any absentee in the meeting.

9. Fines and Penalties

It will be mandatory to obtain a collection permit. If any individual members are found collecting NWFPs without collection permit and in the wrong season the following penalties shall be imposed.

Table 5: Fines and Penalties

1	Collection of NWFPs in the	Group members	As per FNCRR 2023 (Fine, compensation and fair market value)	
			As per FNCRR 2023 (Fine, compensation and fair market value)	

	wrong season & without a permit		As per FNCRR 2023 (Fine, compensation and fair market value)	
		Group members helping outsiders in collecting NWFPs	As per FNCRR 2023 (Fine, compensation and fair market value)	
			As per FNCRR 2023 (Fine, compensation and fair market value)	
2	Collection of NWFPs in demarcated NWFP area	Non-group members or outsiders		
3	Absent from Meeting	500/- per occasion		
4	Misconduct by Executive members	All executive members	Any misuse of group funds shall be dealt with as per the NWFPs management plan and bylaws	No warning
5	illegal collection of NWFPs by Executive members		Warning and product seized	1 st time
			Terminate from group	2 nd time
6	Delay of membership fees	To collect membership from all members	As per the NWFP management plan	Need to pay double of fees

10. Power of the Forest Department

As per the Chapter 7 Section 264 of the Forest and Nature Conservation Rules and Regulation 2023, the Department of Forests and Park Services may terminate Non-wood Forest Management Group based on the report and recommendation from the Division or Park Office.

The export of CITES listed species shall be based on the NDF report approved by the Department.

Annexure 1: Photographs with harvesting prescriptions

Sl.No	Botanical Name	Local Name	Basic guidelines and harvesting prescriptions
1	<i>Dactylorhiza hatagirea</i>	Wangpo lagpa 	✓ After shedding of flowering and turning of leaves and stem in yellow colour, it is ready to collect only ✓ 50% of the rhizomes are allowed to be collected as they may extinct in the future.
2	<i>Neopicrorhiza scrophulariifolia</i>	Putu shing 	✓ Dig up only mature rhizomes ✓ Harvest rhizome only during the harvesting season ✓ Do not uproot the entire plant ✓ Leave the mother plant intact with a small portion of rhizome/root in the soil for its regeneration in the following year
3	<i>Pleurospermum amabile</i>	Tsab tsep 	✓ whole plant materials ✓ collect only 30% of the plants
4	<i>Nardostachys jatamansi</i>	Pangpoe 	✓ Dig up and collect the rhizome by using a sharp knife ✓ Do not uproot the entire plant ✓ Leave the mother plant intact with a small portion of rhizome/root in the soil for its regeneration in the following year
5	<i>Exidia recisa</i>	Jili Namchoo 	✓ The collectors are instructed to collect without felling its mother trees ✓ Do not set up fire as all the mother trees will wipe up
6	<i>Rhododendron anthopogon</i>	Balu 	✓ Use sharp knife/scissors to cut branches in order to collect leaves and twigs

7	<i>Rhododendron setosum</i>	Sulu 	✓ Collect at maximum 20% of the leaves and twigs from an individual shrub to avoid over-harvesting
8	<i>Aconitum spp.</i>	Bongmar 	✓ Toots are collected ✓ Collect only 50% of the plants
9	<i>Juniperus spp.</i>	Shoop 	✓ Only leaves are allowed for collection ✓ Do not cut the tree/branches (falls under special class category)
10	<i>Selinum vaginatum</i> (C.B Clarke)	Tang guen 	✓ Collected roots and ✓ prescribed 60% collection
11	<i>Drosera peltata</i>	Brangzung 	✓ Whole plants ✓ Only 70% is allowed for collection
12	<i>Delphinium moscosum</i>	Lartsi-bumpa 	✓ Whole plants collected ✓ Risk in extinction
13	<i>Aconitum spp.</i>	Tsendhu 	✓ Entire roots ✓ Prescribe only 30% collection

14	<i>Tanacetum nubigenum</i>	Khamkar 	✓ Collected during the full flowering period ✓ Prescribe only 45% collection
15	<i>Meconopsis spp.</i>	Tshernyen meto 	✓ Flowers and fruits
16	<i>Fritillaria cirrhosa</i>	Tsiga 	✓ Dried bulbs are Collected ✓ The host plants should not be cut as it may affect the sustainability in the future
17	<i>Paris polyphylla</i>	Thogsumpa 	✓ Require hoe to collect ✓ Need to collect mature ones and not all the plants
18	<i>Hippophae rhamnoides</i>	Teyseng (Eng:Sea buckthorn) 	✓ Do not cut mother trees ✓ Collect only fruits
19	<i>Saussurea spp.</i>	Azhangbepa 	✓ Collected only flowering parts ✓ The host plant should not dig

20	<i>Halenia elliptica</i>	Chagtey 	✓ Leaves are collected ✓ Do not uproot whole plants ✓ Collect 70% of the areas
21	<i>Bistorta macrophylla</i>	Droem 	✓ Collects rhizomes ✓ Collect 70% only using hoe
22	<i>Hypericum choisianum</i>	Ja Soena Choejay 	✓ Flower parts only ✓ Do not cut the mother shrubs
23	<i>Rhodiola crenulata</i>	Solo marpo 	✓ Collected roots ✓ Collect only 60% of the roots
24	<i>Allium rhabdotum</i>	Mekam 	✓ Whole plants are used for curry and medicines too ✓ Do not uproot whole plants and collect only 70% of the plants
25	<i>Veronica ciliolata</i>	Domna domthri 	✓ Flowers with whole stem
26	<i>Rhododendron cinnabarinum</i>	Ish Mish 	✓ Collected flowers, leaves, and pollens too ✓ Do not cut the mother trees

27	<i>Pedicularis longiflora</i>	Luru Serp 	✓ Whole plants used for medicines ✓ Collect only 50% of the plants
28	<i>Aconogonon turtuosum</i>	Yulu 	✓ Juice of leaves is used for the treatment of chest burning, stomach-ache and blood purification
29	<i>Tsuga dumosa</i>	Dhungshing 	✓ Collect leaves ✓ Cut only branches ✓ Do not cut whole trees
30	<i>Gentiana elwesii</i>	Pangja meto 	✓ Collects only flower ✓ Do not destroy the plants
31	<i>Thamnia vermicularis</i>	Shawgirapchu 	✓ Collect as per collection guidelines
32	<i>Waldheimia glabra</i>	Khamna 	✓ Collects stem ✓ Collect only 60% from the growing sites
33	<i>Gerardiana spp.</i>	Tsem 	✓ Collects leaves only ✓ Use a sharp dragger while cutting

			
34	<i>Sorbus spp.</i>	Serkali 	✓ Used only leaves for local tea preparations ✓ Do not cut mother trees
35	<i>Pedicularis megalantha</i>	Luru Marp 	✓ Whole plants used for medicines ✓ Collect only 50% of the plants

Annexure 3: List of plants with contribution to the NWFP group members

Sl.No	Botanical Name	Local Name	Group contribution
1	<i>Aconitum spp.</i>	Bongmar	100.00
2	<i>Aconitum spp.</i>	Tsendhu	100.00
3	<i>Aconogonon turtuosum</i>	Yulu	150.00
4	<i>Allium rhabdotum</i>	Mekam	100.00
5	<i>Dactylorhiza hatagirea</i>	Wangpo lagpa	100.00
6	<i>Delphinium brunonianum</i>	Lartsi-bumpa	100.00
7	<i>Drosera peltata</i>	Brangzung	100.00
8	<i>Exidia recisa</i>	Jili Namchoo	250.00
9	<i>Fritillaria cirrhosa</i>	Tsiga	100.00
10	<i>Gentiana elwesii</i>	Pangja meto	100.00
11	<i>Gerardiana spp.</i>	Tsem	150.00
12	<i>Halenia elliptica</i>	Chagtey	100.00
13	<i>Hippophae rhamnoides</i>	Teyseng	100.00
14	<i>Hypericum choisianum</i>	Ja Soena Choejay	100.00
15	<i>Juniperus spp.</i>	Shoop	150.00
16	<i>Meconopsis spp.</i>	Tshernyen meto	100.00
17	<i>Nardostachys jatamansi</i>	Pangpoe	200.00
18	<i>Neopicrorhiza scrophulariifolia</i>	Puta shing	1,000.00
19	<i>Paris polyphylla</i>	Thogsumpa	100.00
20	<i>Pedicularis longiflora</i>	Luru Serp	100.00
21	<i>Pedicularis megalantha</i>	Luru Marp	100.00
22	<i>Rhodiola crenulata</i>	Solo marpo	100.00
23	<i>Rhododendron anthopogon/ setosum</i>	Balu Sulu	150.00
24	<i>Rhododendron cinnabarinum</i>	Ish Mish	150.00
25	<i>Saussurea spp.</i>	Azhangbepa	100.00
26	<i>Seli</i>	Tang guen	150.00
27	<i>Sorbus spp.</i>	Serkali	100.00
28	<i>Tanacetum nubigenum</i>	Khamkar/Khamar	150.00
29	<i>Thamnolia vermicularis</i>	Shawgirapchu	150.00
30	<i>Tsuga dumosa</i>	Dhungshing	100.00
31	<i>Veronica ciliolata</i>	Domna domthri	100.00
32	<i>Waldheimia glabra</i>	Khamna	100.00
33	Pema Drishing, Chushungyem, Tagpa Dama		150.00
34		Pang Karp	100.00
35	<i>Fir</i>	Dungshing	150.00
36	Nang marma, Namkhai Ningpo		150.00
