Part I: NWFP management and marketing plan

1. Background/Introduction

The cross-cutting management plan for Sephu Detsi Ngomen Ketshel Tshogchung (SDNKT) is formed for sustainable management of high-altitude medicinal plants (NWFPs) falling within the jurisdiction of the Wangchuck Centennial National Park.

Wangchuck Centennial National Park, one of the biggest National Park in the country spans an area of 4914 sq. km across five Dzongkhags covering nine gewogs. The National Park ranges its altitude from 1350-7500 masl with vegetation ranging from warm broadleaf forest to alpine meadows. The Park is one of the feeding water sources of four major rivers and their tributaries namely; (*Punatshangchu, Mangdichu, Chamkharchu and Kurichu*) which play a vital role in generating hydropower in the country. The wide range of altitude confers the park with diverse flora and fauna species, over 693 species of vascular plants, 44 species of mammals, 251 species of birds, 246 species of butterflies, and 5 species of fish have been recorded so far. The Park headquarter is located at Bumthang, Nasiphel, Chokhor geog, and has four Range Offices spread over east-west and center, i.e., Dungkar Park Range in the east, Sephu Park Range in the west, Nubi and Chokhor Park Range in the center.

The Sephu Park Range Office is located at Drupsiding, about 5 km from the east-west national highway from Chazam-Nikka-Chu Bridge. It caters public services to Busa-Zere and Nakha Chiwog of Sephu gewog. The Park Range extends an area of 2292 sq. km with altitude ranging from 2500-7000 masl, including upper parts of Kashi, Dangchu and Nubi gewog adjoining the Jigme Dorji National Park to the North-West. There are 123 households residing within the Park Range and the majority of the communities that reside inside the park depend on agriculture and livestock for their livelihood for 79 semi-nomadic households, their main source of income is from Yak products and the sale of NWFPs, especially *Cordyceps* and the other medicinal herbs. They herd their Yaks on the alpine meadows of Sephu Park Range for about eight months.

Due to the diverse vegetation in nature from cool-broad leaved forest to alpine-scrub, the Park Range is a home to various species of wild flora and fauna species. Some of the key species of wildlife found are Snow Leopard, Tiger, Red Panda, Bhutan Takin, Musk Deer. Various species of high-altitude medicinal herbs are also found in the regions of *Cordyceps* growing areas. Due to lack of management plan some of the species are illegally harvested both by park residents and outsiders. The commonly collected species are *Nardostachys spp*: *Neopicrorhiza spp*: *paripolyphylla spp*. *Ophiocordyceps sinensis*, *Rhodo spp*, *Juniper spp*.

The formation of Sephu Detsi Ngomen Ketshel Tshochung (SDNKTD) with 262 households will lead the management of high-altitude NWFPs and curb illegal harvest in their area.

NWFP Collection map

Figure 1: Map showing NWFP Collection area with Wangdue Dzongkhag Map

2. Goal and Objectives

- Sustainable management and utilization of NWFPs as per the management plan
- Reduce illegal harvest of NWFPs
- To generate alternative income and improve the livelihood of the community

3. Description of NWFPs present in the area demarcated for management by the group

Based on medicinal value and usefulness in home remedies the member of the NWFPs group proposed the collection of NWFPs as per the growing areas in different locations.

NWFP Name	Name of Harvesting Area(s)	Description
<i>Nardostachys jatamansi</i>	Tsho Youechoe, Yaksa, Gechey, Dremtsho and Yasa	Not proven, but some people say that leaves and twigs are used for medicine, but it is currently widely used for incense. It is found scarcely in dry places and it is difficult to collect as it has to dig the ground.
<i>Rhododendron anthopogon</i>	Tsho Youechoe, Sintha, Thangley, Tshongseythang, Youm Tsma Tsho, Yaksa, Gangjuna, Jimthang, Jheroo, Tashi Tokha, Tongshipu, Rolusulu, Thamchae Thamchu, Tshosum, Tshoba, Chachae, Taechowang, Thangchenma, Gechey, Gangba Tsho, Gachey, Dremtsho, Situzomsa, Gangra, Khekhorthang, Khekhorthang, Meshina, Yasa, Tampey, Khekoechuzhi and Khandrochoja	Commonly used for incense and some people mix this product with other products and sell it in the market.
<i>Rhododendron setosum</i>	Tsho Youechoe, Sintha areas, Thangley, Tshongseythang, Youm Tsma Tsho, Yaksa, Gangjuna, Thangchenma, Jimthang, Jheroo, Tashi Tokha, Tongshipu, Rolusulu, Thamchae Thamchu, Tshosum, Tshoba, Chachae, Taechowang, Gechey, Gangba Tsho, Gachey, Dremtsho, Situzomsa, Gangra, Khekhorthang, Meshina, Yasa, Tampey, Khekoechuzhi and Khandrochoja	Both the twigs and leaves are being used for the production of incense and it also mixes with Balu. It gives a soothing smell as an incense powder.
<i>Saussurea ovalata</i>	Tsho Youechoe, Sintha, Thangley, Tshongseythang, Youm Tsma Tsho, Yaksa, Gangjuna, Thangchenma, Gechey, Dremtsho, T a s h i T o k h a , J h e r o o and Jimthang	It is used for treating of paralysis, cerebral ischemia, wounds, and cuts. Liver disorders, bone-ache, cough, intestinal and urinal problems.
<i>Aconitum</i>	Tsho Youechoe, Tshogseythang, Youm Tsma Tsho, Situzomsa and Tempay	The tuberous roots of genus Aconitum are commonly applied for various

		diseases, such as rheumatic fever, painful joints, and some endocrinal disorders
<i>Aconitum orochryseum</i>	Sintha areas	The tuberous roots of genus Aconitum are commonly applied for various diseases, such as rheumatic fever, painful joints, and some endocrinal disorders
<i>Dactylorhiza hatagirea</i>	Sintha areas, Thangley, Yaksa, Sintha, Gechey, Gangra and Yasa	Leaves and tubers are used for numerous traditional medicines. It also cures dysentery, diarrhoea, chronic fever, cough, wounds, burns, fractures, and stomach-ache
<i>Rheum nobile</i>	Sintha, Youm Tsma Tsho, Gangjuna, Thangchenma, Gangba Tsho, Gachey, Gangra, Khachatryan, Meshina, Khandrochoja and Rolusulu	Used leaves and flowers only. It is said to be a source of taste and heating potency. It is used for the treatment of swelling and fullness of the stomach.
<i>Vistorta Microphylla</i>	Thangley and Gachey	
<i>Neopicrorhiza scrophulariiflora</i>	Yasa, Tshongseythang, Sintha, Youm Tsma Tsho, Ganguna, Thangchenma, Gechey, Dremtsho, Situzomsa, Gangra, Khekhorthang, Meshina, Jimthang, Jheroo, Tashi Tokha, Tongshipu, Rolusulu, Tampey, Tampey, Khekoechuzhi, Khandrochoja, Taechowang, Chachae, Tshoba, Tshosum and Thamchae Thamchu	The rhizome is harvested for medicine and it is scarcely grown in those mentioned areas.
<i>Artemisia moorcroftiana DC</i>	Tshongseythang, Sintha, Thangchema, Gechey, Dremtsho, Khekhorthang, Meshina and Tasho Tokha	In Chinese traditional it is used for fever, inflammation, headache, bleeding and malaria treatment
<i>Pluerospermum amabile</i>	Youm Tsma Tsho, Gechey, Thangchenma, Khekhorthang and Rolusulu	Used against poisoning from plants, meat and precious stones. It clears the blockage of veins and relieves pain and lowers fever and rectifies imbalanced bodily constituents
<i>Dalphinium spp</i>	Thangchenma, Gangra and Khekhorthang	Remedies illness caused by the sprit, lowers the fever arising from poisons, treats skin diseases like itching and eczema, remedies infections common cold and snake bite

<i>Lepisorus contortus</i>	Gechey, Gangra and Khekhorthang	Effective in treating burns heals fractured bones and cartilage. Lowers fever of kidneys
<i>Sorozeris hookeriana</i>	Gangba Tsho	It is used for relieving fever and pain arising from poisoning, and used for healing bone fractures
<i>Meconopsis grandis</i>	Gachey, Meshina, Jheroo and Jimthang	It is good for removing the foreign materials like stones and bullets from the body, it lowers the fever of lungs and cures wounds.
<i>Astragalus yunnanensis</i>	Yasa and Rolusulu	Protect and support the immune system, preventing colds and upper respiratory infections, lowering blood pressure, treating diabetes, and protecting the liver. Astragalus has antibacterial and anti-inflammatory properties. People sometimes use it on the skin for wound care.
<i>Juniper spp</i>	Yasa, Chachae, Tshoba, Tsho Youechoe, Tshongseythang, Yaksa, Tampey, Khekoechuzhi and Taechowang	This species is believed and respected to be a religious tree and, in some places, the whole tree including leaves are being used as incense but with the restriction of law, only leaves are being used as incense.
<i>Pedicularis longiflora</i>	Tshosum	Diuretics and febrifuge also remove any excess accumulation of body fluids. It is used in the treatment of inflammation of the liver or gall bladder, seminal/vaginal discharges, oedema, and disorders

4. Trends of NWFPs collected for past three years

Sl. No	Species	Local Name	Quantity of harvested dried NWFP (Kg) over last 3 years			Average dried NWFP production (Kg)	Name of areas
			Year 1	Year 2	Year 3		
1	<i>Nardostachys jatamansi</i>	Pangpoe	200	250	300	250	Tsho_Youechoe
2	<i>Rhododendron anthopogon</i>	Balu	450	550	650	550	Tsho_Youechoe
3	<i>Rhododendron setosum</i>	Sula	450	550	650	550	Tsho_Youechoe
4	<i>Saussurea ovalata</i>	Za-due Goggu	80	110	130	107	Tsho_Youechoe
5	<i>Aconitum orochryseum</i>	Aconitum	2	4	9	5	Tsho_Youechoe
6	<i>Junipers spp (Leaves)</i>	Shub	6500	7200	8250	7317	Tsho_Youechoe
7	<i>Neopicrorhiza scrophulariiflora</i>	Putashing	1200	1500	2000	1567	Sintha areas
8	<i>Dactylorhiza hatagirea</i>	Wangla	20	50	120	63	Sintha areas
9	<i>Rheum nobile</i>	Chukhar Metog	5	7	9	7	Sintha areas
10	<i>Vistorts microphylla</i>	Labjagom	5	7	12	8	Thangley
11	<i>Artemisia moorcroftiana DC</i>	Khenkar	3	5	7	5	Tshongseythang
12	<i>Pluerospermum amabile</i>	Tsapstey	2	3	6	4	Youm Tsma Tsho
13	<i>Dalphinium spp</i>	Laspham	3	5	7	5	Thangchenma
14	<i>Lepisorus contortus</i>	Drapoe	3	6	9	6	Gechey
15	<i>Meconopsis grandis</i>	Tshegyen Metog	4	7	11	7	Gachey

5. Brief description for commercial and harvesting season in each season.

NWFP Name	Harvesting area name	Parts harvested	Use/Purpose (Traditional and others)	Harvesting season	Estimated quantity
Putashing	Sintha, Tshongseythang, Youm Tsma Tsho, Gangjuna, Thangchenma, Gechey, Dremtsho, Situzomsa, Gangra, Khekhorthang Yasa, Tampey, Khekoechuzhi Khandrochoja Taechowang, Chachae Tshosum, Tongshiphu, Jheroo Jimthang, Lula	Rhizome	Medicine	Aug-Oct	15 kg (dry)
Pangpoe	Sintha, Tshongseythang, Youm Tsma Tsho, Gangjuna, Thangchenma, Gechey, Dremtsho, Situzomsa, Gangra, Khekhorthang Yasa, Tampey, Khekoechuzhi Lukla, Khandrochoja Taechowang, Chachae Tshosum, Tongshiphu, Jheroo Jimthang	Rhizome, leaf and twigs	Medicine, incense	Oct-Nov	13kg (dry)
Wangla	Sintha, Thangley, Yaksa Gechey, Gangra, Yasa, Lula	Rhizome	Medicine	July-Sept	7 kgs (Dry)
Balu	Sintha, Tshongseythang, Youm Tsma Tsho, Gangjuna, Thangchenma, Gechey, Dremtsho, Situzomsa, Gangra, Khekhorthang Yasa, Tampey, Khekoechuzhi Lukla, Khandrochoja Taechowang, Chachae Tshosum, Tongshiphu, Jheroo Jimthang	Leaves and Twigs	incense	Oct-Nov	45kg (dry)
Sulu	Sintha, Tshongseythang, Youm Tsma Tsho, Gangjuna, Thangchenma, Gechey, Dremtsho, Situzomsa, Gangra, Khekhorthang Yasa, Tampey, Khekoechuzhi	Leaves & Twigs	Incense	Oct-Nov	40 Kg (Dry)
Tsega	Sintha, Tshongseythang, Youm Tsma Tsho, Gangjuna, Thangchenma, Gechey, Dremtsho, Situzomsa, Gangra, Khekhorthang Yasa, Tampey, Khekoechuzhi, Lukla Khandrochoja Taechowang, Chachae	Bulb	Medicine	Sept-Oct	2kg (dry)

	Tshosum, Tongshipu, Jheroo Jimthang				
Jakpa (Dochu Kewa)	Gangchukha, Goentsa, Thangyee, lower areas of Sephu geog	Rhinzome	Medicine	June-Oct	1500 kg (Dry)
Jeli namchu	Thangyee, lower areas of Sephu geog	Whole plants	NA	All year round	15000 kg (Dry)
Tsaptsup	Sintha, Thangley, Yaksa Gechey, Gangra, Yasa, Lula, high areas of Sephu geog	Whole plants	Yama medicine	Aug-Oct	NA
Gen-gi shamu	Goentsa, Sombji, Pelela, Sekta, Serthang, Barzha, Rubdhona, lower areas of Sephu geog	Whole plants	NA	June-July	NA
Sisi shamu	Goentsa, Sombji, Pelela, Sekta, Serthang, Barzha, Rubdhona, lower areas of Sephu geog	Whole plants	NA	June-Aug	400 kg (wet)
Lhapja gom	Sintha, Thangchelay, Yaksa Gechey, Gangra, Yaksa, Lula, Yango, Thangchenma, Methuchuta, Gangba Tshoba, Melo, high areas of Sephu geog	Roots	Medicines	????	???
Zocha	Lower areas of Sephu geog	Bark and leave	NA	Year round	NA
Jinsing (Chekthey kewa)	Lower areas of Sephu geog	Rhizome	NA	Sept-Nov	1100 kg (dry)
Allium spp	Tshabidhing, Sintha, Rhubdhona, Goentsa, Dhur Tshachu Tam, Meshina	Whole plants	Medicinal and for vegetables too	July-December	50 (Kgs) wet
Fritillaria spp	Barzha, Goentas, Rhubdhona Rubjithang, Tshachu Hom, Padama,	Rhizomes	Medicinal	Aug-Nov	150 kgs dry
Chagop	Barzha, Goentas, Rhubdhona Rubjithang, Tshachu Hom, Padama	Whole plants	Stomach pain relive	Jun-Jul	150 kgs wet
Gulthera (Lhaja)	Lower areas of Sephu geog	Fruits	Edible and prepare alcohol	May-Jul	450 kgs wet

6. Harvesting prescriptions for sustainable harvesting of NWFPs

6.1. Collection Guidelines

- Two collectors from each household are allowed but in case if any problem happens to the initial permit holder, another person from the same household shall be allowed to replace him/her but has to inform and get approved by the Chairperson.
- The chairman will apply for the permit in the Online Forest Service (OFS) after gathering a list of members who are willing to collect it.
- The Range Office shall issue transit permits and collect royalty
- Collection of resources beyond the time given shall be dealt by NWFP executive committee as per the group by-laws. As agreed by the group, if the case is properly handled by Committee members, the collected fine shall be deposited into the group account but if needs to be settled by Forestry officials, the collected fine amount will be as per government rules and regulations.
- Depending on the degree and frequency of the illegal collection and selling cases by this group, the Sephu Park Range and WCNP shall issue a warning letter to the SDNKTD regarding the suspension and cancellation of the NWFP Group certificate

Table 1: Prescriptions for sustainable harvesting of NWFPs

NWFP Species	Basic guidelines and harvesting prescriptions
Putu-shing	▪ Dig up only mature rhizomes ▪ Harvest rhizome only during the harvesting season ▪ Do not uproot the entire plant ▪ Leave the mother plant intact with a small portion of rhizome/root in the soil for its regeneration in the following year
Wangla	▪ After shedding of flowering and turning of leaves and stem in yellow colour, it is ready to collect ▪ Only 50% of the rhizomes are allowed to be collected as it may become extinct in future.
Balu	▪ Use sharp knife/scissors to cut branches in order to collect leaves and twigs
Sulu	▪ Collect at maximum 20% of the leaves and twigs from an individual shrub to avoid over-harvesting
Shupshing	▪ Only leaves are allowed for collection ▪ Do not cut the tree/branches (falls under special class category)
Jakpa	▪ Require hoe to collect ▪ Need to collect mature ones and not all the plants
	▪
Pangpoe	▪ Dig up and collect the rhizome by using a sharp knife ▪ Do not uproot the entire plant ▪ Leave the mother plant intact with a small portion of rhizome/root in the soil for its regeneration in the following year
Jeli namchu	▪ The collectors are instructed to collect without felling its mother trees ▪ Do not set up fire as all the mother trees will wipe up

Sisi shamu	▪ It is usually grown under the shed of trees and instructed to avoid felling trees
------------	---

6.2. General information on the NWFP Collection Site

The sites for NWFP collection are chosen based on where the resources are available and the area covered by traditional community pasture land use boundary. After group discussion, it was decided to collect the NWFPs on a sustainable basis from the areas and in total there are 18391.87 hectares (45446.3 Acres) as per the map demarcated by the group and the area are as follows: Tsho Youechoe, Sintha areas, Thangley, Tshongseythang, Youm Tasma Tsho, Yaksa, Gangjuna, Thangchenma, Jimthang, Jheroo, Tashi Tokha, Tongshiphu, Rolusulu, Thamchae Thamchu, Tshosum, Tshoba, Chachae, Taechowang, Gechey, Gangba Tsho, Gachey, Dremtsho, Situzomsa, Gangra, Khekhorthang, Meshina, Yasa, Tampey, Khekoechuzhi and Khandrochoja.

Figure 2: Google map showing collection site

NWFP collection map

Figure 3: NWFPs collection area for the group

7. Marketing and Sales plan

The products are described in the table above. They are collected from designated sites and brought to Sephu gewog for sale through an auction process. This auction is attended by local leaders and NWFP group committee members. The sale of products directly from individual-to-individual buyers is not allowed. Additionally, the sale must take place in the presence of officials to ensure transparency in the amount received by the seller. The management committee collects 5% of the total sales amount from individual sellers and deposits it into a group account. Any member or committee member, as well as gewog administration, can seek out buyers through auction to compete or bid on prices.

Table 2: Marketing and sales plan

NWFP	Potential market/ buyer	Estimated quantity for sale per season	Form of products (dry/fresh)	Expected price per unit (Nu)	Total (Nu)
Puti shing	Export, Traditional Medicine Department	12000 kgs	dry	1100.00	39,600,000.00
Wangla		100 kgs	dry	1750.00	175000.00
Balu		4000 kgs	dry	800.00	32,00,000.00
Sulu		4000 kgs	dry	800.00	32,00,000.00
Shupshing (Leaves)		5000 sacks	dry	300.00	15,00,000.00
Jakpa (Dochu Kewa)		600 kgs	dry	600.00	3,60,000.00
Pangpoe		1000 kgs	dry	500.00	50,0000.00
Jeli namchu		30 kgs	dry	15000.00	45,0000.00
Sisi shamu		430 kgs	fresh	350.00	1,50,500.00
Tang guen		700 kgs	dry	1000.00	70,0000.00
Lartsi-bumpa		1250 kgs	dry	800.00	10,00,000.00
Tsendhu		250 kgs	dry	1250.00	3,12,500.00
Khengkar		425 kgs	dry	500.00	2,12,500.00
Tshernyen meto		250 kgs	dry	600.00	150000.00
Fir leaves		4000 Sacks	dry	350.00	14,00,000.00

8. Marketing arrangements

- 1) All group members have equal access to the collection as per the management plan.
- 2) All NWFPs collected shall be sold through auction for which time and venue shall be fixed by geog administration.
- 3) The executive committee shall announce the auction date and venue to the group and shall organize the auction
- 4) Sale of NWFPs outside of the designated auction site and the period shall be considered an offence.
- 5) From every member, 5% of the sale amount from the auction shall be contributed to the group fund.

9. Benefits to the group

The management of the resources by the SDNKTD shall benefit the members as follows:

- 1) Monitor and have control over the resources from external illegal collectors.
- 2) Raising group funds will further benefit individual members from interest-free or low- interest loans or financial arrangements.
- 3) Alternative income generation besides livelihood on livestock products.

[illegible]

Table 4: Financial projection to the group from community development fund

Sl. No	Particulars	Amount (Nu)
	Revenues	0.00
1	Membership fees	1,04,800.00
2	Contribution to the Community Development Fund (CDF) from sales of NWFPs (5%)	4330000.00
A	Total revenues	4434400.00
	Expenses (only include expenses that will be paid from the group funds)	90,000.00
1	Permit fees/Royalty	920000.00
2	Annual Group meeting	0.00
3	Other miscellaneous expenditure	0.00
B	Total Expenses	90,000.00
C	Balance: Total revenues – total expenses	4344800.00.00

Part II: Group's By-Law

Membership arrangement

Any person belonging to Sephu geog holding gung, thram and census registered in Sephu geog shall have equal opportunity and rights to become a member of SDNKTD. Those families residing separately from the main household and running family independently shall be allowed to be NWFP members. Currently, the group has 262 households as a NWFP user group

However, the following terms and conditions shall need to be fulfilled.

- Households willing to join the group have to submit a new membership application addressed to the chairperson of the group.
- The executive committee members led by the chairperson will hold a review meeting to accept/reject the new membership
- Upon acceptance, he/she shall be notified and must pay Nu. 1000 to compensate for work carried out by other members.
- The acceptance in a written letter shall be issued specifying the date of joining the group.
- New members should comply with the management plan and group by-laws.

Membership withdrawal

Any member has right to resign or withdraw from the group. However, his or her resignation from the group shall be accepted fulfilling the following terms and conditions.

- Submit withdrawal application to the chairperson.
- The Chairperson will call for executive committee members to convene a review meeting.
- Acceptance or rejection shall be notified in writing by the chairperson
- Upon acceptance of membership withdrawal, the member has to pay Nu 500/- as the withdrawal fee.
- Withdrawn member shall not be entitled to any monetary or other benefits from the group fund
- If a withdrawn member wishes to rejoin, he/she will not be accepted as a member.

Responsibilities and rights of members

- The member shall work in the interest of the NWFP management group.
- The member shall harvest resources as per harvesting guidelines prescribed in this management plan
- The group shall be responsible for exploring the market
- All group members should attend the meeting.
- Ensure and maintain quality products during the time of auction.
- Monitor the demarcated areas to prevent illegal harvesting of NWFPs.
- Report to the Chairman of any illegal collectors are intercepted or observed

- All the group members shall contribute labour during harvesting, marketing & enrichment activities.
- Right to elect as well as terminate executive members with the majority vote of two- thirds members present.
- Attend any meeting/training/workshop/study tours.
- Maintain cooperation among the members.
- NWFP collectors shall refrain from destroying herders' camps and nearby forests. If any misconduct is found or intercepted shall be reported to Gewog Administration

Roles and responsibilities of the Executive committee

Chairperson	• Coordinate and chair the meeting. • Coordinate the auctioning of the products in collaboration with the concern geog Administration • Solve conflicts arise within the group or with outsiders. • Explore market opportunities for NWFPs. • Seek training and technical support from relevant organizations. • Coordinate auction for the sale of products depending upon the volume of NWFPs collected. • Ensure execution of management and marketing plans by the members. • Announce harvesting season as per the management plan. • Represent the group during the meeting or training outside the chiwog/geog and Dzongkhag. • He/she is the co-signatory (Secretary and Treasurer) for cash withdrawal from the bank. • Liaison with concerned Agencies and traders and fix dates, price, and venues for marketing of NWFPs • Maintain attendance registers for the groups • Facilitate preparation of an annual work plan. • To review the by-laws in consultation with the Range office, Sephu, and other relevant agencies. • Shall be responsible for the availing permits for the group • Maintain records on NWFPs collected and sold in a year and submit reports to concerned agencies or authorities
Secretary	• Chair the meetings in the absence of the Chairperson. • Assist the chairperson. • Maintain records and share meeting minutes with relevant stakeholders. • Assist the Treasurer in maintaining the cashbook and bank book. • Check the quality of the products to ensure quality products are brought by members for sale. • Maintain records of quantity collected, harvested records, and sale records. • Prepare annual progress reports and submit them to the chairperson. • Draft official correspondences and submit them to the chairperson for signing. • Maintain stock registers for the group. • Disseminate the latest market information to the members of the group.

	• He/she is the joint signatory (Coordinator, Treasurer) for fund withdrawal from the bank. • Present the physical progress and administrative process adopted by the group in the annual meeting.
Treasurer	• Maintain cash transaction records • Present accounts status and expenditure details during the annual general meeting of the group. • Attend the auction with other members of executive committees. • Serve as secretary when absent. • Collect the fine and annual membership fees and deposit in the group saving account. • Maintain financial records of quantity collected & quantity sold. • Collect permit fees from members and hand them over to the range office. • Co-sign with the chairperson while withdrawing funds from the Bank. • Collect all contributions/donations and deposit to the group account. • Maintain all records of withdrawal and deposit of expenditures of group fund.

Resoop

- He/she shall serve the term for one year.
- He/she shall inspect sites based on the order of the Chairman on a need basis and an ad-hoc basis.
- He/she shall submit the written report to the Chairman and a copy will be submitted to the Park Range Officer.
- All Resoops should be united to apprehend the offenders or illegal collectors and handover to the Chairman and settle the case with committee members

Tenure of committee member

The committee members will remain in the post until the end of the management plan period provided, he or she has willingness or no complaints from group members.

Incentives to the committee members

As a form of motivation, the executive members will receive an annual working allowance of Nu. 10,000.00 (Ten thousand) from the group fund. However, they will not receive any additional payment for travelling or fuel expenses.

- The Chairman will receive Nu.10000 annually.
- The Secretary will receive Nu.10000 annually.
- The Treasurer will receive Nu.10000 annually.

The sources of funds

- From new members registration fee upon joining.
- From annual membership fee collection
- 5% of the sales revenue from non-wood forest products (NWFPs) sold by members will be deducted.
- Fines are imposed on members absent from work or general group meetings.
- Fines are also imposed on those who engage in illegal sales or harvesting activities.
- Revenue is generated from the sale of products confiscated during patrols.

Membership registration fees

New members who want to join the group must pay a registration fee of Nu. 1000.00. (One thousand) only. The group's treasurer will collect this fee and deposit it into the group savings account within two weeks. A cash deposit will also be maintained for future reference.

Annual contribution

Starting from the first year, each household will be required to pay a membership fee of Nu. 200.00. From the second year onwards, the annual membership fee will be reduced to Nu. 100.00 per household. These fees will be collected during the first week of August as directed by the chairperson and other executive members. The collected amount will then be deposited into the group's savings account within two weeks and a record of all transactions will be maintained for future reference.

Collection from sale proceeds

The treasurer will deposit 5% of the sale values of Non-Wood Forest Products (NWFPs) directly into the group account, while the remaining 95% will be given to the collector. The amount each person receives will depend on how much they collected and delivered for sale. Each household can have two people collecting NWFPs.

Group fund management and utilization

Group fund management refers to the process of managing and allocating funds within a group or organization. This involves making decisions on how the funds will be used, investing them in different assets or projects, and ensuring that they are utilized efficiently and effectively to achieve the group's financial goals. It also involves monitoring the performance of the funds and making adjustments as needed to maximize their value.

- The funds in the bank shall be withdrawn by committee members only after a common consensus with group members. Such a decision will be taken during the Annual General Meeting.
- The annual membership fee shall be collected by the Treasurer on the first week of August after fixing an exact date for the annual meeting and financial presentation for transparency
- No loans will be given during the first cycle of the NWFP Management Plan period.
- The fund will be used for the maintenance of trails and bridges during the emergency

Conflict resolution

- Disputes within the NWFP group members in the implementation of activities shall be reported to the Chairman and executive committee members for settlement. If they fail to resolve, the case shall be forwarded to the Range office for settlement.
- If a dispute arises among the group members and executive members, the case or issue shall be dealt with by gewog administration, Sephu. If the case is beyond the capacity of gewog administration, they will forward it to the Park Range office.
- In case disputes or conflicts among communities arise about access to certain areas for NWFPs collection, the matter shall be forwarded to the gewog Tshogdey (GT) by the

Chairman through the Range office. If it is unresolved, then forward to Dzongkhag Tshogdu (DT).

- In any conflict between the group members and buyers during the sale of a product, the case shall be forwarded to the gewog administration, concerned range and WCNP headquarter.
- The subsequent unresolved disputes shall be registered with the Royal Court of Justice.

Meeting and purpose

The meetings will be conducted to plan new activities and to discuss problems arising within and outside the group. The specific purpose and point to be deliberated in the meeting are as follows:

- Conduct follow-up meetings with the executive committee and group members.
- To plan activities to be implemented for the following year.
- To discuss issues and problems to make decisions accordingly.
- The overall progress report should be presented to group members by the chairman.
- The meeting shall be convened once in a year.
- The treasurer shall present the financial statement and its report to group members.
- A copy of the report and minutes of the meeting shall be submitted to the Park Range Office.
- The executive committee meeting shall be held depending upon the need to devise the plan and intimate with group members accordingly.

Fines and Penalties

It will be mandatory to obtain a collection permit. If any individual members are found collecting NWFPs without a collection permit and in the wrong season the following penalties shall be imposed.

Table 5: Fines and Penalties

Sl. No	Type of offence	Target	Fines (Nu.)		Remarks
1	Collection of NWFPs in the wrong season & without a permit	Group members	5,000/-	1 st time	The product will be seized
			10,000/-	2 nd time	
			A fine of 10,000.00 and cancellation of membership	3 rd time	
		Group members helping outsiders in collecting NWFPs	5000/- plus products seized will be auctioned and deposited in group fund	1 st time	
			10,000/- plus products seized will be auctioned and deposited in the group fund	2 nd time	

2	Collection of NWFPs in demarcated NWFP area	Non-group members or outsiders	As per FNCRR (Fine, compensation and fair market value)		
3	Absent from Meeting	500/- per occasion			
4	Misconduct of Executive members	All executive members	Any misuse of group funds shall deal as per the NWFPs management plan and by-laws	No warning	The misused fund shall be immediately refunded within seven days of the detection
5	Delay of membership fees	To collect membership from all members	As per the NWFP management plan	Need to pay double of fees	

Power of the Forest Department

As per Chapter 7 Section 264 of the Forest and Nature Conservation Rules and Regulation 2023, the Department of Forests and Park Services may terminate Non-wood Forest Management Group based on the report and recommendation from the Division or Park Office. The export of CITES listed species shall be based on the NDF report approved by the Department.

Appendix I: NWFP Committee Member Name List

Sl. No	Name	Role	CID No	Contact No
1	Dorji Khandu	Chairman	11409000020	17690879
