Executive Summary

The Devi Shingmen Tshogpa was initially formed in the year 2014, with the funding support from Royal Government of Bhutan (RGoB) with technical backstopping from Gewog Forestry Extension, Lhamoizingkha. The group comprises of 56 hh members from seven communities under Tshamzhigosa chiwog, Lhamoizingkha gewog, namely; Changay, Tintaley, Kharbandi, Kaijaley, Marichtala, Tititar, and Devitar. Tshamzhigosa chiwog is well-equipped with facilities, including drinking water supply to 95% of households, electricity supply to all households, farm road connectivity, an outreach clinic (ORC), Non-formal education center, and Extended Classroom (up to class three). Despite these amenities, the residents must travel 18 km to access other important facilities in Lhamoizingkha. The community's income primarily stems from off-farm activities and the sale of *Areca* nut in the Indian market. Some households also earn income from machinery services (power chainsaw), daily wage work, and subcontract work. Annual household incomes range from 50,000/- to 3,50,000/-. The farmers of these villages have also been depending on forest resources since the time immemorial. The designated collection area provides wide varieties of Non-wood Forest Produces (NWFPs), among which species of Pipla (*Piper mullesua* and *Piper longum*) are considered to be the most promising produces found. The members of this NWFP group are fortunate to have an abundance of Piper species in their locality, which fetches them good market values.

Revising the management plan after the completion of the plan period is crucial for several reasons. It allows for the assessment of the original objectives to determine what worked and what did not. New information, technologies, and practices can be incorporated to improve strategies, and the plan can be updated to remain relevant amidst changing environmental, economic, or social conditions. The first revision of the management plan was conducted in 2018 after five years of implementing the initial plan. However, due to the movement restriction imposed by COVID-19 pandemic, the group faced several challenges and could not make progress. In the particular plan period, with the funding support from the erstwhile Social Forestry and Extension Division (SFED), the group was provided with the weighing machine. The second plan revision in 2024 was successful with funding support from WWF Bhutan IKI Living Landscape Project. The revised management plan will cover the next 10 years, from 2024 to 2034.

Among the non-wood forest product that are commonly collected from the forests includes Pipla, brooms and *Ziziphus mauritiana*. During the revision of the management plan, five produces were kept fixed for collection, namely *Piper mullesua*, *Piper longum*, *Thysanolaena latifolia*, *Wallichia oblongifolia*, and *Ziziphus mauritiana* from the collection areas. Devi Shingmen Tshogpa has effectively managed their group and sourced products to meet their demand from the collection site over the last nine years. Their collection quantities have been relatively consistent, with 511 kg in 2019, 750 kg in 2020, 453 kg in 2021, 700 kg in 2022, and 997 kg in 2023, totaling 3,411 kg of Pipla over the last five years. The group has successfully sold these products in the market, generating a total revenue of Nu. 660,350. Currently, they have Nu. 63,738.72 in their joint account. The Management Plan is designed to be easily understood, simple, and effective for all group members, ensuring its applicability during plan activities. It emphasizes equitable benefit sharing among members without discrimination. The plan aims to achieve sustainable management of NWFPs while improving rural households through the sale of products. It also aims to conserve natural resources by reducing illegal harvesting and facilitating the generation of government revenue through proper legal channels. Additionally, the plan provides a platform for forestry officials to monitor the group regularly and offer timely support as needed.

PART – A: NWFP Management and Marketing Plan

1. Background

Devi Shingmen Tshogpa, located under Tshamzhigosa chiwog, Lhamoizingkha Gewog, Dagana Dzongkhag, comprises of 56 households with a total collection area spanning over 700.8 hectares, ranging an elevation from 204 meters to 1109 meters above sea level. The NWFP user group is predominantly made up of *Lhotshamps* and resettled *Sharchops*. They have high dependency on the forests since the ancient time.

The management plan has been developed with the technical support from Divisional Forest Office, Dagana, Lhamoizingkha Range, and the Forestry In-charge, Lhamoizingkha. It is designed to guide the sustainable harvesting of Non-wood Forest Products (NWFPs) for the next decade, building upon the ten years of establishment and operation. The primary goal of forming the NWFP management group is to enhance sustainable harvesting of the produces and to uplift the living standard of the community through commercialization of those produces.

The committee members were elected by the group members based on their ability to perform their duties fairly and impartially, their strong commitment to the development of the group, and their dedication to protecting the group from individual greed, ensuring present and future benefits for all.

This management plan is divided into two parts; Management and Marketing Plan, and By-laws. The management and marketing plan is developed considering the sustainable management, utilization, and protection of the resources. Meanwhile, the by-laws were designed mainly focusing on legal issues which could arise while regulating resource sharing among members, membership arrangement, regulation of funds and roles and responsibilities of user group, and penalties to any defaulters.

2. Goal and Objectives:

- Sustainable management of NWFPs for future generation.
- Income generation through sale of NWFPs.
- To elevate the poverty and improve the livelihood of the community
- Control illegal activities
- Socio economic development without discrimination.

3. Description of NWFPs present in the area demarcated for management

In the following table, the description on the NWFPs present in the demarcated area are shown for each season for effective management and sustainable harvesting.

Table 1. Brief description of NWFPs for commercial harvesting in each season

NWFPs Name	Harvesting area (s) (Name)	Parts Harvested	Use/purpose (Traditional and others)	Harvesting Season (Months)	Estimated quantity for harvest in a season/year

<i>Piper mullesua</i>	Alley, Changaykhop, Changchangey Tar, Kaijaley-Jamuney-Bunglung, Malbasey, Methundara, Panitar, Phakreybari, Ramphu suntalabari, Thulatala, Tintaley and Thulo Thumki.	Fruits	Medicinal	August-December	682 Kgs
<i>Piper longum</i>	Phakreybari and Thulo Thumki.	Fruits	Medicinal	March Mid-April Mid	20 Kgs
<i>Thysanolaena latifolia</i>	Changay Khop, Ramphu Suntalabari, Tintaley	Stem	Boom	December-January	200 pieces
Hard Broom <i>Wallichia oblongifolia</i>	Changay Khop, Chengchengay, Methundara, Thulo Thumki	Stem	Hard Broom	Throughout	100 pieces
<i>Ziziphus mauritiana</i>	Kaijaley-Bill Dovan	Fruit	Pickle	December-January	400 kg

4. Harvesting prescription for sustainable NWFPs Harvesting

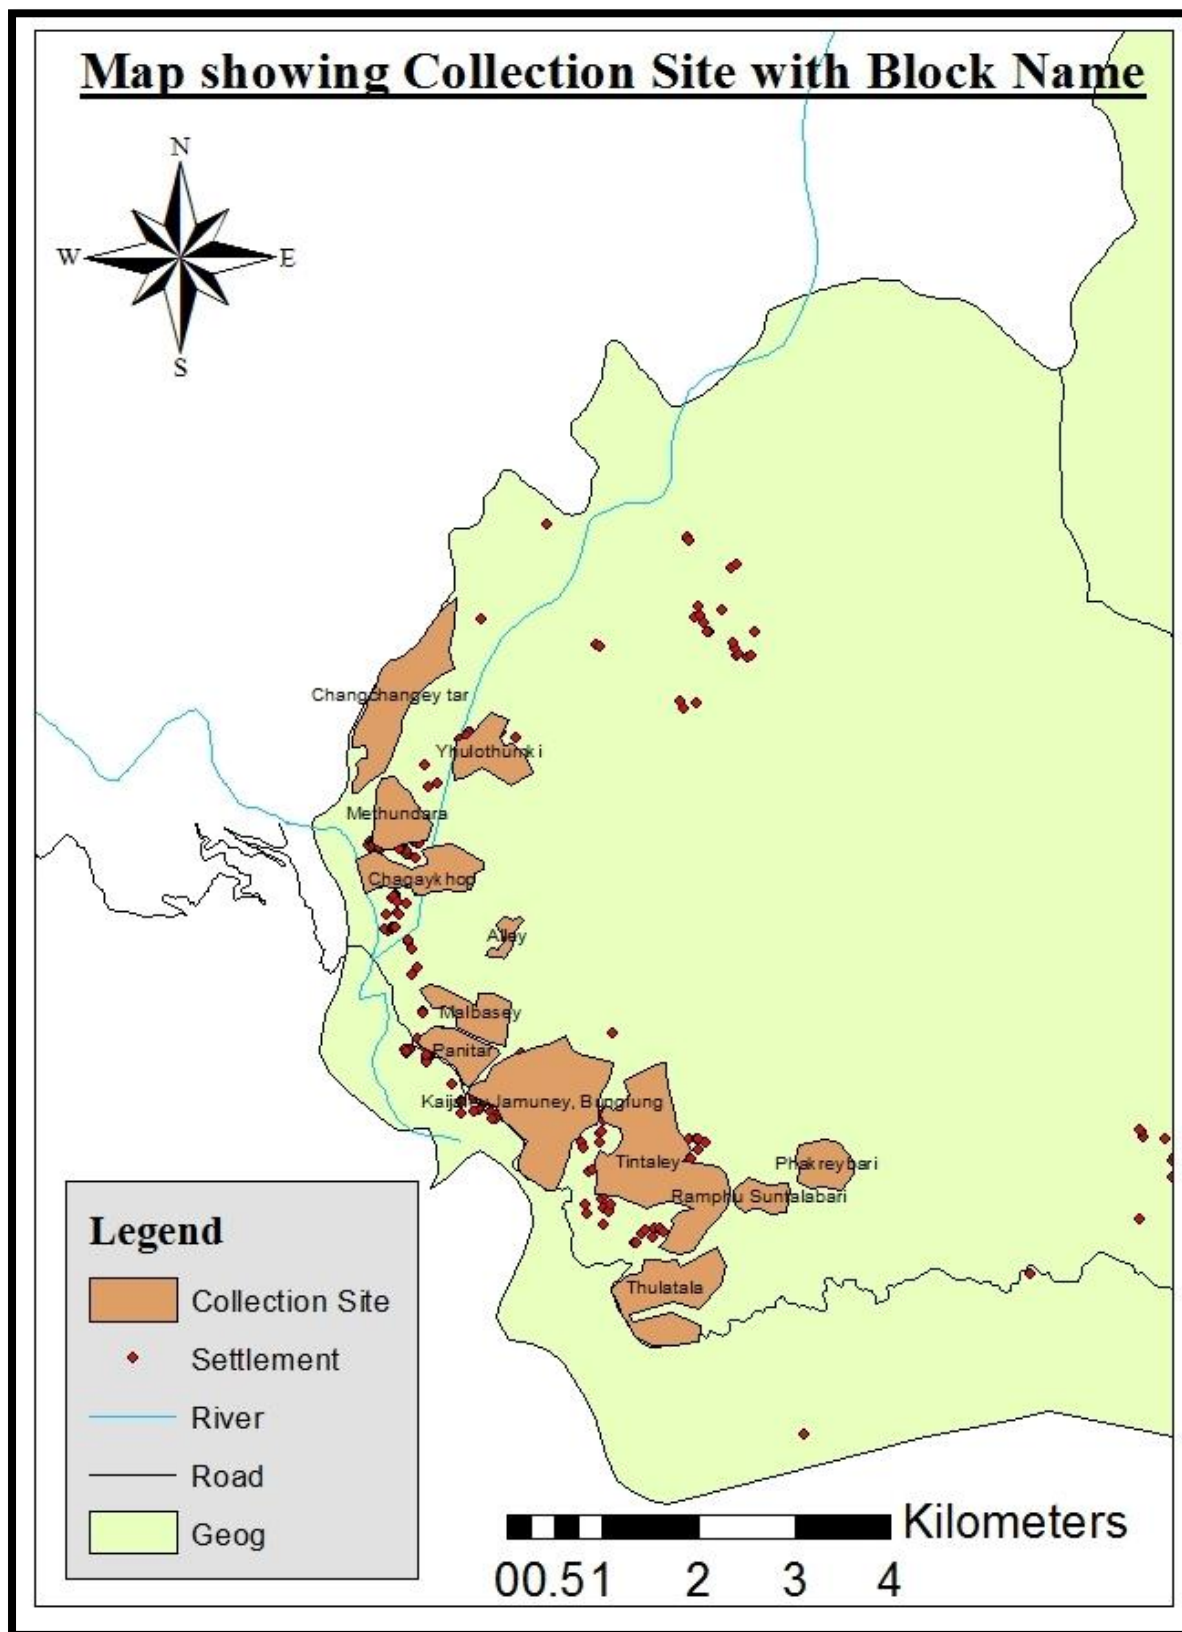

Harvesting prescriptions are necessary to prevent overexploitation, ensure regeneration of harvested species, and sustain the ecological balance of forest ecosystems, benefiting both communities and the environment.

Table 2. Harvesting prescription of NWFPs

NWFPS Species	Harvesting prescription for sustainable harvesting
<i>Piper mullesua</i>	• Hand picking the matured fruits and leaving the premature till it reaches the maturity. • Harvesting fruit only without damaging, cutting or uprooting the entire plant. • No one will be allowed to collect other than the group members. • Harvest the fruit only after date announce by chairman or as per management plan. • No single member is allowed to harvest the product by its own and for self-benefit.

<i>Piper longum</i>	• Hand picking by climbing host tree or use ladders. • Hand picking the matured fruits and leaving the premature till it reaches the maturity. • Do not fell the host tree to ease the collection. • Harvesting fruit only without damaging, cutting or uprooting the entire Climber. • Harvest the fruit only after date announce by chairman or as per management plan.
Soft Broom <i>Thysanolaena latifolia</i>	• Do not damage the rhizome in order to allow natural regeneration. • Cut the matured stem right from base.
Hard Broom <i>Wallichia oblongifolia</i>	• Do not cut whole plant • Cut matured branches and leave seed for regeneration • Retain immature branches
<i>Ziziphus mauritiana</i> (Boyar, LH)	• Use hook to pull the branches for the collection of fruits • Do not break the branches in the collection of fruits • Do not cut down whole tree to ease collection work

5. Map of Devi Shingmen Tshogpa Collection Site

6. Marketing and Sale Plan

The marketing and sale plan of the NWFP group involves identifying potential buyers, negotiating fair prices, and ensuring timely delivery of products. The group aims to increase market access and plan to implement transparent pricing mechanisms.

Table 3. Marketing and Sale Plan of the Group

NWFPS	Potential Market or Buyer	Estimated quantity for sale/ season (Unit)	Form of products (Dry/fresh)	Expected price per Unit	Total (Nu)
<i>Piper mullesua</i>	India and Bhutan	682 kg	Dry	200/-	1,36,400/-
<i>Piper longum</i>	India and Bhutan	20 Kg	Dry	250/-	5,000/-
<i>Thysanolaena latifolia</i> (Soft Broom)	Thimphu and P/ling	200 pieces	Dry	30/-	6,000/-
<i>Wallichia oblongifolia</i> (Hard Broom)	Thimphu and P/ling	100 pieces	Dry	30/-	3,000/-
<i>Ziziphus mauritiana</i>	Thimphu and P/ling	400 kg	Pickle	50/-	20,000/-

7. Marketing Arrangement

As per the time framed in the table 1, the Chairperson should obtain collection permit through Range office before the announcement of collection date. After obtaining collection permit, the chairperson will inform the members regarding the collection date accordingly. The NWFPs will be individually collected or harvested, and each member will be responsible for the custody of their collected products. These products must be dried and stored in the individual's own house. Meanwhile, the Chairperson, along with forestry official of Range Office will be responsible for exploring market, and the products shall be sold collectively by the group.

Once a market is identified for the products, the rate will be fixed, and each member must transport their products to the road head upon announcement of the date by the chairperson, or take it directly to the chairperson's place. Each member will witness the weighing of their products, and the entitlement of individual shares will be given according to the quantity they have collected, with deductions for the Community Development Fund, product royalty, and compensation for work done by the executive committee. The committee members are required to clearly declare the selling price to every group member and state the financial status to the members.

8. Benefit Sharing

Benefit to the individual members and overall group

- ✓ The Income generated through the sale of the NWFPs will be the alternative source of income for the members of the management groups to support their family for any expenses and will be able to manage the resources in sustainable way to meet demand of future generation.
- ✓ The group's ability to enhance market opportunities through the sale of their products provides livelihood support to many households in the chiwog, contributing to poverty alleviation and furthering the goal of Gross National Happiness.
- ✓ Additionally, they can provide welfare support to poor members during times of trouble within the group, demonstrating their commitment to community well-being.
- ✓ Develop a sense of ownership over the NWFP collection area
- ✓ Protection and conservation of resources from illegal and over exploitation

PART – B: By-Laws

9. Membership Arrangement

- The native of village with registered Thram with the chiwog will be given first chance for membership.
- Outsiders who are not native to the chiwog but have purchased land and possess Thram within the chiwog will be given a free and fair opportunity for membership, provided they are active participants in the group.

9.1. Eligibility of new memberships

The NWFP management group shall register a new member only after following the under stated procedures:

- Interested member shall put up an application to Chairperson of the group.
- New member shall pay individual shares of fund generated in group account (Membership fee, fines, sale of NWFPs, etc) from initiation of group till date.
- The above criteria shall cover for native, spitted household and outsider.

9.2. Procedure for withdrawal from membership

- For voluntary withdrawal from group shall receive only 25% benefit of his share and shall not be entertained to rejoin the group in future.
- But for those who are forced to withdraw because of situation and old age (genuine reason) would receive benefit of 100% of his/her total share provided he/she does not have any dues with group.
- The person withdrawing must write a withdrawal application to the chairman of the group.

10. Responsibility and rights of the members

Each and every member of the group is responsible for:

- Managing and harvesting of NWFPs on sustainable manner.
- Cross check illegal activities within the member and also by outsiders.
- Each member has right to harvest the product from designated area allotted to them within the timeline framed in By-laws.
- Each member has right to know the status of financial transparency matter and fund utilization.
- Every member should ask or obtain Money receipt or sign in proper register while making payments or receiving payments.
- Members have right to vote new executive member if it is necessary.

11. Executive committee of NWFP management and Marketing Group

Sl.No.	Name and Post	Responsibility
1	Santa Kumar Gurung, <i>Chairperson</i> Contact: 17801885	• To facilitate and coordinate meeting • Resolve dispute and conflict among member. • Maintain contact with trader and coordinate marketing of product. • Prepare and present progress report if needed. • Obtain collection permit and announce collection date of product to member. • Cross check the account check and balance timely.
2	Ash Maya Rai, <i>Secretary</i> Contact: 17972603	• Support chairman in carrying out his responsibilities • Plan and call for meeting (disseminate information). • Officiate the chairman in his absence • Support chairman in keeping records of meetings.
3	Aita Hang Subba, <i>Treasurer</i> Contact: 17802276	• Maintain cash transaction records by recording name and get signed while making payment or during collection in clean register. • Collect timely membership fee, group fund, fines and penalties and deposit in bank within 15 days. • Present financial report to group member during meeting • Maintain group account and take care of financial arrangement.

12. Tenure of Committee member

Sl.No.	Committee Member	Tenure of Committee member
1	Chairman	5 years
2	Secretary	5 years
3	Treasurer	5 years

Note: In case, they misuse common funds and failure to conduct their duties as per the bylaws, the committee members shall be eliminated from post and shall be re-elected by the members.

13. Incentives to the Committee Members

Sl.No	Committee Member	Incentives
1	Chairman	5% of total income through sale of NWFPS
2	Secretary	2% of total income through sale of NWFPS
3	Treasurer	2% of total income through sale of NWFPS

Note: Transportation cost shall be deducted from gross revenue for sale of product and above deed was agreed by the entire member.

14. Source for generation of group fund

Sl.No.	Source of Fund	Remarks
1	Membership Fee	Annually Nu.100 will be collected as membership fee in the month of February.
2	Sale of NWFPs	3% of total income through sale of NWFPs will be deposited in group account.
3	Fines and penalties	Absentees' fines in work or meeting will be collected and fines for late fee will be collected, fines for illegal collection or collection beyond harvesting guidelines.
4	Others	Donation and registration fees from new member (s).

15. Group Fund Management and Utilization

The Devi Shingmen Tshogpa decided and agreed to use funds under following points:

- **NWFP resources development**

Utilize the fund in making advance payment to farmers to meet their daily expenditure and recover the entire funds during sale of products to market and deposit in bank.

- **Loaning of fund to members during natural calamities and emergencies**

The Devi Shingmen Tshogpa decided and agreed to use fund for loaning of fund with maximum ceiling of Nu.50000/- with loaning period of six month as per Bank Interest rate. Failure to repay within 6 months shall be added with additional 5% to its interest.

The one provision was discussed and agreed by member fund will be used for procure of stationary items whenever needed for smooth flow of group.

16. Conflict Resolution

- Any member found guilty of misusing group funds shall be dealt as per the by-laws.
- In case disputes or conflicts arising among members regarding the access to certain area for NWFP collection, the matter shall be the submitted to gewog administration and Range office for further discussion.
- Conflicts or disputes within the management that cannot be resolved by the group members shall be forwarded to the Executive Committee. If the case cannot be resolved at this level, it shall be forwarded to the Gewog Administration and Range Office for further action.
- In case of a conflict between the NWFP collection group and outsiders, the case shall be forwarded to the Gewog Administration and Range Office by Executive Committee members.

- v. Note: The collection of NWFP by non-member shall be allowed only for domestic consumption and not for sale/commercial.

17. Meetings

General meeting shall be conducted once a year and in the month of February. The meeting minutes shall be shared to Range officer or division office for information by the committee member of NWFP Group.

18. Fines and Penalties

Sl.No.	Particulars	Fines and Penalties
1	Absentee in work and meetings	• Fine of Nu.500/- per occasion. • With genuine reason shall be considered upon receiving proper information (phone call) and verification by nearby household member (s). • 10 minutes late will be considered and fine of Nu. 100/- will be imposed for crossing stipulated buffer time
2	Late payment of fee	• Shall impose additional of Nu.50 till March 10 • Failure to pay after March 10 shall be automatically terminated from membership without benefit.
3	Collection and sale without adhering to agreed norms of group	• Shall be automatically terminated from membership without benefit.
4	Misuse of funds	• Recover Amount misused plus bank interest plus 5% additional penalties per month.
5	Executive members fail to carry out their duties	• Nu. 1000/- for chairman • Nu. 500/- for Secretary • Nu. 500/- for Treasurer
6	Member not obeying committee members	• Fine of Nu.500/- per occasion
7	Collection by outsider	• Seizure of produces by committee members • Fine shall be as per FNCA 20-232023 and FNCRR 2023
8	Forest fire in collection area	• Shall be dealt as per FNCRR 2023.
Note: All fines shall be paid within 10 days and late payment shall pay 10% additional to fine amount. Further failure shall be dealt as per member ' not obeying to committee member '.
