PART A: NWFP management prescription and marketing plan for Drakey Chinto Ngomen Tshogpa.

Background

Doteng Gewog was established in the year 2005. It lies in the Northern part of the Paro Dzongkhag. The gewog shares its boundary with Dopshari Gewog in the south, Lamgong gewog in the west, Tshento Gewog in the North West and Hungrel Gewog in the east. The Gewog also shares boundary with Thimphu Dzongkhag in the north east. The Gewog consist of five Chiwogs (Jabji_Loogchhoed, Atsho_Phunoob, Chhubar, Phooshar and Joogar_Pacchu). The gewog has a total of 264 household and of which 99 % are provided with clean drinking water and 100% electricity connection. The total of 25.84 km farm road is constructed connecting all the chiwogs.

The geographical area of Doteng gewog is **193.1 sq. km** of which 24640 acres are covered by forest. An altitude ranges from **2350 meters to 3550 meters** above the sea level. The major portion of land falls under wetland and apple orchard.

Drakay-Chinto Ngomen Tshogpa was initially formed in 2011 based on the interest of the communities of **Chintoqoenpa village** under **Chubar Chiwog**, Doteng Geog. Since then, the group has been functioning as NWFP Management Group for collection of Medicine and Incense materials by **22 household members**. The approximate designated area for collection of NWFP by the Drakay-Chinto Ngomen Tshogpa based on their traditional collection right is around **14400 Hectares**. During the NWFP collection season the area is dominated by NWFPs such as *Aconitum orochryseum* (Zhodu), *Aconitum laciniatum* (Bongkar), *Gynmedia orchidis* (wanglak), *Fritillaria delavayi* (Tseka), *Saussurea obvallata*, *Nardostachys jatamansi/grandiflora* (Pangpoi), *Neopicrohiza*

scrophulariiflora (Putashing), *Rhododendron anthopogon* (Balu), *Rhododendron setosum* (sulu), *Rhododendron* (Tamzhing) etc.

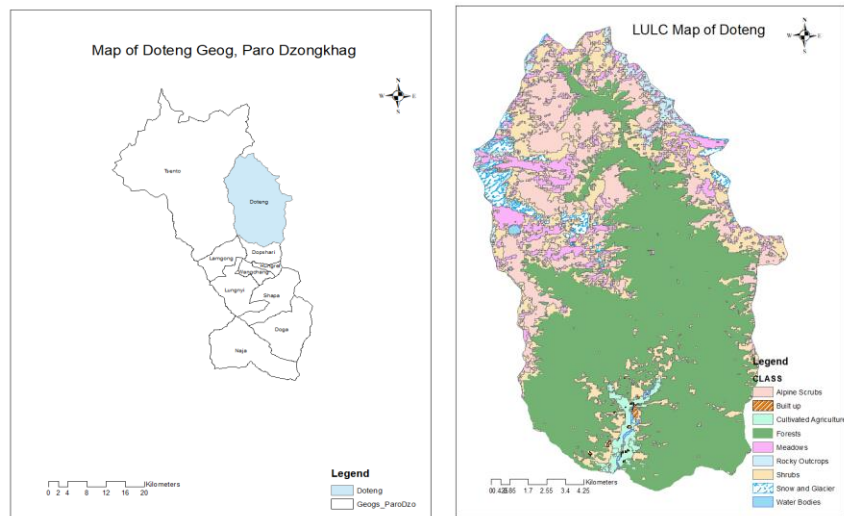

Figure 1: Map Showing Doteng Geog & Land Use Land Cover Map of Doteng Geog

Goal and objectives of Drakay-Chinto Ngomen Tshogpa:

The overall goals and objective of the Drakay-Chinto Ngomen Tshokpa are as follow:

1. To enhance sustainable management and utilization of NWFP resources
2. To promote product development and enhance livelihood for the Highlander as per the Highlander Development Program
3. Provide additional income beside cordyceps.
4. Youth employment opportunities

Description of NWFPs:

Table 1: Brief description of NWFPs for commercial harvesting

<i>NWFP name</i>	<i>Harvesting area(s) (name)</i>	<i>Parts harvested</i>	<i>Use purpose (traditional & others)</i>	<i>Harvesting season (months)</i>	<i>Estimated quantity that can be collected¹</i>
<i>Aconitum orochryseum</i> (Zhodu)	Serbjabna Juchu Rochuthang Paytho Tselam	Root/tuber	Medicine	Sept, Oct &- Nov	1000 kg(dry)
<i>Aconitum laciniatum</i> (Bongkar)	Juchu Natho Dula Serbjana Bumdra	Root/Tuber/ leaves/ Flower (Whole plant)	Medicine	Sept, Oct &- Nov	50 kg (Dry)
<i>Gynmedia orchidis</i> (wanglak)	Serbjana Joochu Tagaytsepa Naygongma Daluna	Root/ Tuber	Medicine	Sept & October	25 kg (Dry)
<i>Fritillaria delavayi</i> (Tseka)	Juchu Serbjana Paytho Rochuthang	Tuber	Medicine	Sept & October	50 kg (Dry)
<i>Saussurea obvallata</i>	Dulha Gomthang Yagasa Jalaydingkha Jojokha	Leaves	Medicine	July & August	100 kg (dry)
<i>Panax pseudogenshing</i>	Chintokha Bumdra Chumphu Nacho Lamche	Root/ tuber	Medicine	Sept & October	50 kg (dry)
<i>Paris polyphylla</i>	Chintokha Bumdra Nacho Chumphu	Tuber	Medicine	Sept & October	100 kg(dry)
<i>Gentiana</i> (Pangja meto)	Bumdra Tsalu Jochu Dula	Leaves	Medicine	Sept & October	50 kg (wet)
<i>Nardostachys jatamansi/gra</i>	Serbjana Jojokha	Rhizome	Medicine/Incense/ Oil	August, Sept &Oct	2000 kg (dry)

¹ Based on ocular estimation

<i>ndiflora</i> (Pangpoi)	Jochu Juchu Tagaytsipa Ratatsiphu Jalaydenkha Neydabjawog Pogodakaysa Kila Sertshola Dula Paytho Demlha				
<i>Neopicrohiza scrophulariiflo ra</i> (Putashing)	Serbjana Jojokha Jochu Juchu Tagaytsipa Ratatsiphu Jalaydenkha Neydabjawog Pogodakaysa Kila Sertshola Dula Paytho Demlha Dragaypamtso	Rhizome	Medicine	August, Sept & Oct	1500 kg (dry)
<i>Rhododendron anthopogon</i> (Balu)	Serbjana Jojokha Jochu Juchu	Leaves & twigs	Incense	Oct-Nov	5000 Kg (dry)
<i>Rhododendron setosum</i> (sulu)	Tagaytsipa Ratatsiphu Jalaydenkha Neydabjawog Pogodakaysa Kila Sertshola Dula Paytho Demlha Dragaypamtso	Leaves & twigs	Incense	Oct-Dec	
<i>Juniper</i> (Lha shup)	Serbjana Rochutgang Neygongma Juchu Naydabjawog	Leaves	Incense	Oct-Nov	1500 kg (dry)
<i>Rhododendron</i> (Tamzhing)	Daluna Juchu	Leaves	Incense	Oct- Nov	1000 kg

	Ugyenkha Nacho				
<i>Juniper (Shup)</i>	Natho Chintokha Lamche Tsetselakha Tangkana	Woodchips	Incense (only wind fallen and dying trees)	Nov, Dec, Jan, Feb & March	20,000kg
<i>Fir (Dungshing)</i>	Chintokha Tseseylakha	Leaves	Incense	Nov, Dec, Jan, Feb & March	1000 kg dry weight
<i>Tongki</i>	Bumdra Chintokha	Roots	Incense	Sept & Oct	10 kg in dry

Harvesting prescriptions for sustainable NWFP harvesting

(Describe per NWFP species HOW, WHO, WHEN, WHAT, WHERE is harvested in order to sustain regeneration and resource base; these prescriptions should be based on the guidelines issued by DoFPS and/or based on local/scientific management of the species)

Table 2: Harvesting prescriptions for sustainable harvesting

<i>NWFP species</i>	<i>Harvesting prescriptions for sustainable harvesting</i>
<i>Aconitum orochryseum</i> (Zhodu)	➤ Harvest only matured roots after flowering in selection basis for seed retention ➤ Use only hoe for digging up the roots (Restrict use of spades) ➤ Retain young ones for future use
<i>Aconitum laciniatum</i> (Bongkar)	➤ Harvest only matured roots after flowering in selection basis for seed retention ➤ Use only hoe for digging up the roots (Restrict use of spades) ➤ Retain young ones for future use
<i>Gymnadenia orchidis</i> (wanglak)	➤ Harvest only matured roots after flowering in selection basis for seed retention ➤ Use only hoe for digging up the roots (Restrict use of spades) ➤ Retain young ones for future use
<i>Fritillaria delavayi</i> (Tseka)	➤ Harvest only matured tuber in selection basis for seed retention ➤ Use only hoe for digging up the roots No table of figures entries found.(Restrict use of spades) ➤ Retain young ones for future use
<i>Saussurea obvallata</i> (Zadunap)	➤ Harvest only matured parts ➤ Retain young ones for future use ➤ Hand pick
<i>Panax pseudogenshing</i>	➤ Dig up and collect rhizome using hands only ➤ Leave a small part of rhizome in soil for regeneration.
<i>Paris polyphylla</i>	➤ Dig up and collect rhizome using hands only ➤ Leave the mother plants intact for regeneration.

<i>Gentiana (Pangja meto)</i>	➤ Harvest only flowers and leaves ➤ Retain all roots and portion of leaves for regeneration ➤ No digging allowed
<i>Nardostachys jatamansi/grandiflora (Pangpoi/Zapoe)</i>	➤ Dig up and collect rhizome using hoe ➤ Leave the aerial plants intact with a small part of rhizome in soil for regeneration. ➤ Do not uproot the entire plant ➤ Refill the digup soil
<i>Neopicrohiza scrophulariiflora (Putishing)</i>	➤ Dig up (Matured 5 years old) and collect rhizome using hoe ➤ Replant the aerial parts with a small part of rhizome in soil for regeneration. ➤ Do not uproot the entire plant ➤ Refill the digup soil
<i>Rhododendron anthopogon (Balu)</i>	➤ Use sharp knife to cut branches in order to collect leaves and twigs ➤ Collect 20% of the leaves and twigs from individual shrubs in order to avoid over harvesting
<i>Rhododendron setosum (sulu)</i>	➤ Use sharp knife to cut branches in order to collect leaves and twigs ➤ Collect 20% of the leaves and twigs from individual shrubs in order to avoid over harvesting
<i>Juniper leaves (Lha shup)</i>	➤ Use knife to harvest only 30% of leaves and twigs from individual trees in order to avoid over harvesting
<i>Rhododendron leaves (Tamzhing)</i>	➤ Harvest only leaves using hands ➤ Avoid using knife and other devices for sustainable harvesting
<i>Juniperus recurva (Shup)</i>	➤ Harvest only wind-fallen, dead, dying and moribund trees after seeking approval from Department. ➤ No fresh felling allowed
<i>Fir leaves (Dungshing)</i>	➤ Harvest only fir leaves and twigs after lopping 20% from individual trees ➤ Avoid harvesting from apical shoots
<i>Tongki</i>	➤ Dig up and collect roots using hoe ➤ Leave the aerial plants intact with a small part of rhizome in soil for regeneration. ➤ Refill the digup soil

Marketing and sales plan

NWFP	Potential market	Estimated quantity for sale per season (Unit)	Expected price per unit	Total (Nu.)
<i>Aconitum orochryseum</i> (Zhodu)	Yezhing Tshongdel, Paro Export to India	1000 kg(dry)	Nu. 200 per kg in dry (Nu. 100 per kg in wet)	2,00,000/-
<i>Aconitum laciniatum</i> (Bongkar)	MSPCL (Menjong Sorig Pharmaceutical Corporation Limited) and licensed exporters	50 kg (Dry)	Nu. 1800 per kg dry	90,000/-
<i>Gymnadenia orchidis</i> (wanglak)	MSPCL and licensed exporters	25 kg (Dry)	Nu. 1500 per kg dry	37,500/-
<i>Fritillaria delavayi</i> (Tseka)	licensed exporters	50 kg (Dry)	Nu.1800 per kg in dry	90,000/-
<i>Saussurea obvallata</i> (Zadunap)	MSPCL and licensed exporters	100 kg (dry)	Nu.1800 per kg in dry	1,80,000
<i>Panax pseudogenshing</i>	MSPCL and licensed exporters	50 kg (dry)	Nu. 500 per kg in wet & Nu.1500 per kg in dry	75,000/-
<i>Paris polyphylla</i>	Licensed exporters	100 kg(dry)	Nu.4000 per kg in dry	4,00,000/-
<i>Gentiana</i> (Pangja meto)	MSPCL and licensed exporters	50 kg (wet)	Nu. 200 per kg in wet	10,000/-
<i>Nardostachys jatamansi/grandiflora</i> (Pangpoi)	Local incense firm / market and licensed exporters	2000 kg (dry)	Nu. 500 per kg in dry	10,00,000/-

<i>Neopicrohiza scrophulariiflora</i> (Putishing)	MSPCL and licensed exporters	1500 kg (dry)	Nu. 1300 per kg in dry (Nu.250 per kg in wet)	19,50,000/-
<i>Rhododendron anthopogon</i> (Balu)	Local market	5000 Kg (dry)	Nu.100 per kg	5,00,000/-
<i>Rhododendron setosum</i> (sulu)	Local market	5000 Kg (dry)	Nu.100 per kg	5,00,000/-
<i>Juniper leaves</i> (Lha shup)	Local market	1500 kg (dry)	Nu.70 per kg	10,50,00/-
<i>Rhododendron leaves</i> (Tamzhing)	Local market	1000 kg	Nu. 150 per kg	1,50,000/-
<i>Juniperus recurva</i> (Shup)	Local market	20,000kg	Nu. 20 per kg	4,00,000/-
<i>Fir leaves</i> (Dungshing)	Local market	1000 kg dry weight	Nu. 40 per kg	40,000/-
<i>Tongki</i>	Local market	10 kg in dry	Nu. 1500 per kg	15,000/-

Financial projection of the benefits to the group, the community development fund

Sl.No	Particulars	Amount (Nu.)
	Revenues	
1	Annual membership fees	1100
2	Contribution to the community development fund from sales of product	1000
A	Total revenues	46200 per annum
	Expenses (only included expenses that will be paid from the group funds)	Nu.10000 for annual meeting expenses
B	Total expenses	Nu.10000
C	Balance: Total revenues – Total expenses	36200 per annum

Sketch map of the NWFP harvesting areas (based on traditional boundaries, customary practices and availability of NWFP resources).

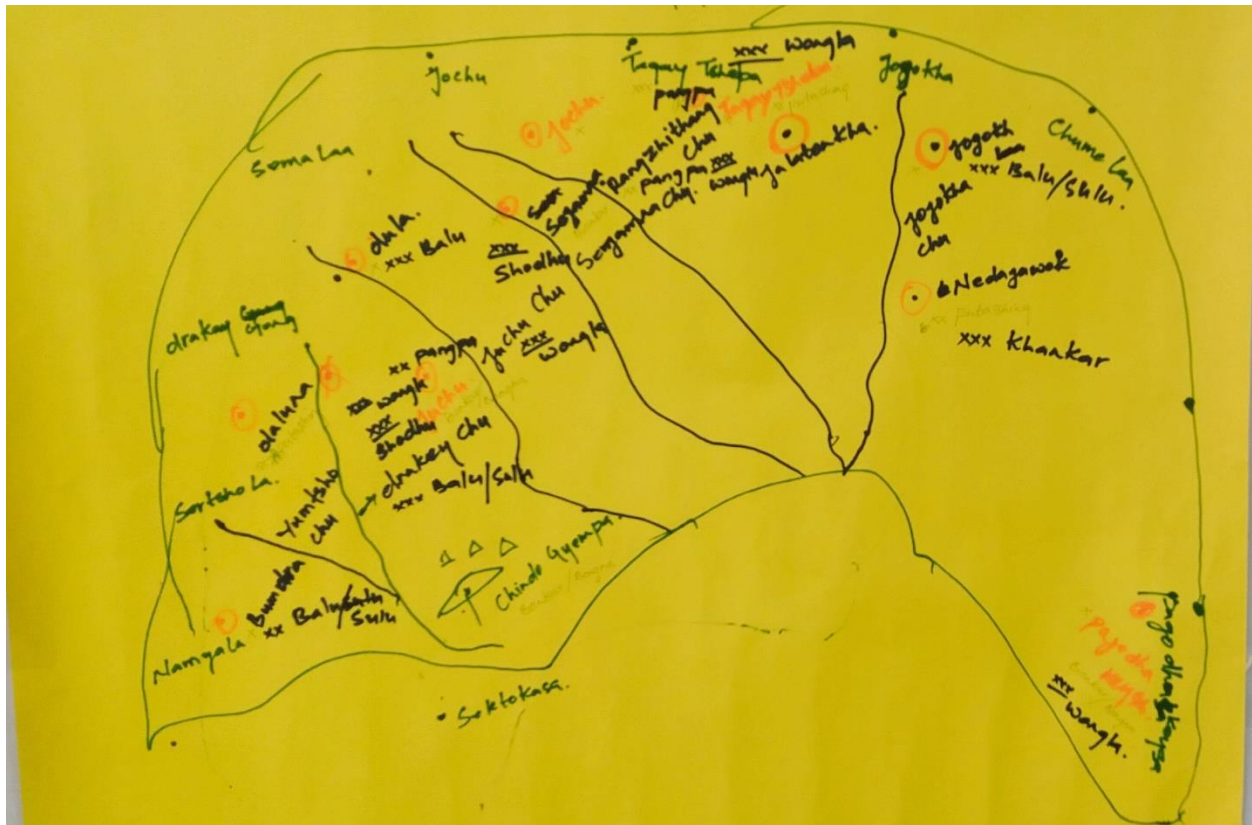

Figure 2: Resource Map of Drakay-Chinto Ngomen Tshogpa

Show (if feasible):

- ☐ Area boundaries by indicating well-known existing features (houses, roads, trails, chortens, streams, ridges, etc.)

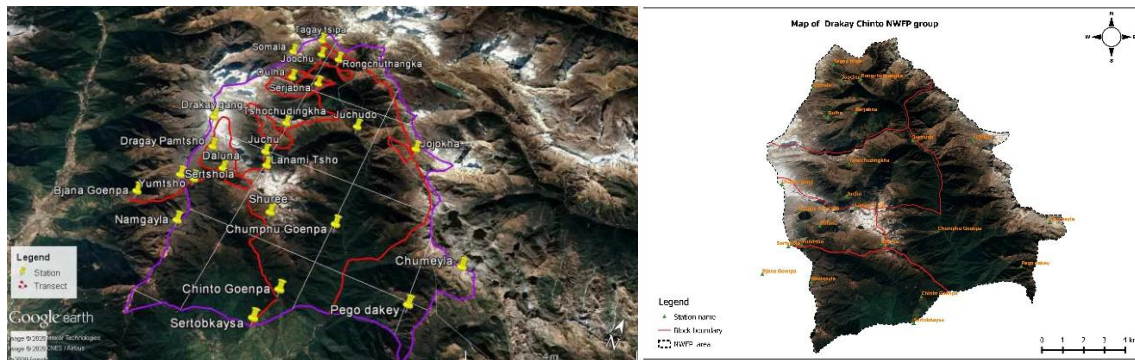

Figure 3: Google Map of Drakay-Chinto Ngomen Tshogpa collection Area plotting for Forest Resource Assessment

- ☐ Harvesting areas by local names, Distances, and harvestable area

The blocking of the harvestable area has been based on the frequency and importance of the area to farmers based on the resource availability in the area. Block 1 signifies most important collection area.

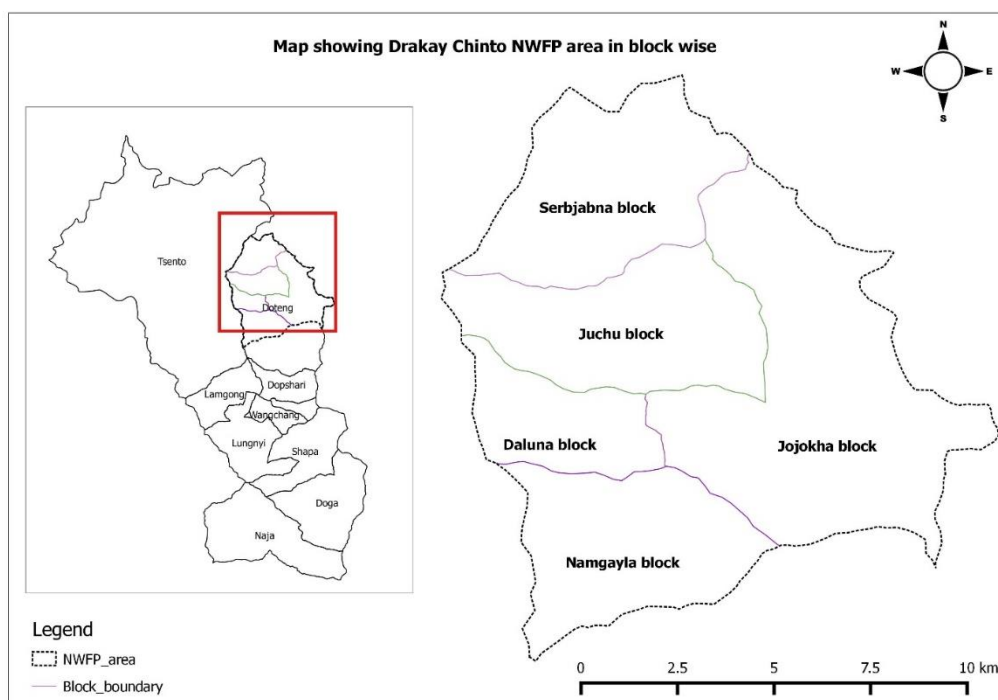

Figure 4: Map showing the blocks for NWFP

Marketing arrangements

1. Collect individually after obtaining permit and sell directly to contract buyer identified officially by the group.
2. Identify potential site for establishment of *sangzey* processing plant, and the interested individual within the Ngomen Tshogpa will be identified for processing of *Sangzey* and marketing in quotation basis. (Sangzey shall be processed, packed and sold either in semi processed form or in fully finished products)
3. Other NWFP shall be sold to registered licensed trader in raw or in processed form whichever is feasible
4. The marketing of *Pangpoe* and *Putashing* will be facilitated by Division office, Paro and SFED, Thimphu as it falls in Schedule II as per CITES.

Part B: Group By-laws:

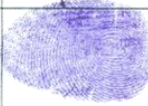

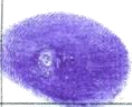

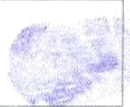

Members of the NWFP management & marketing group	Village	No. of household	Gewog
	Chintokha	22	Doteng
	Responsibilities and rights of members: 1. All the members will have equal rights and access to the resources listed in the plan 2. The group shall keep vigilance and report of any illegal activities to the committee members. 3. All the members shall refrain from illegal collection of resources 4. All the members shall adhere to collection time frame as per plan 5. The group members shall work collectively for sustainable management of resources 6. The members shall collect NWFP as per demand and specification given by buyer/ trader 7. The members shall sell the NWPF product only to trader identified by the group 8. The permit holder shall handover collection permit only to family member and shall not lease or sell to outsider 9. All members shall deposit a sum of Nu.1000 (One thousand only) as a sale proceed irrespective of whether they collect NWFP or not. 10. The group shall manage and collect the resources as per harvesting prescription set in the management plan 11. In case if any member decides to withdraw from the group, he/she shall not be liable for any compensation 12. No new member shall be included in the group until the plan is revised 13. Waste management shall be responsibility of all members 14. The group shall abide to the by-laws framed by the group 15. The group shall abide by the FNCRR 2020 and other international convention in collection and trade of resources.		

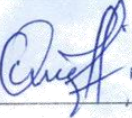

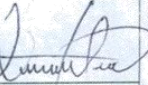

NWFP management committee	
Chairperson	Name of Chairperson: Lhab Dorji
	Responsibilities of Coordinator/ Chairperson: 1. Chair the committee and general meeting 2. Submission of NWFP progress report to concern forest office 3. Coordinate and liaise with other stakeholders for product development, marketing and enterprise development 4. Collect demand of resources from the buyer/traders as per their specification 5. Conflict resolution and process for further unresolved conflict 6. Approve loans to the members in consultation with committee members 7. Annual work planning 8. Joint signatory authority of NWFP fund

	9. Attend meetings and workshops
Secretary	Name of Secretary: Lamkem
	Responsibilities of Secretary: 1. Coordinate and assist Chair-person for smooth functioning of the group 2. Maintain all record books pertaining to NWFP collection and sale, and submit the report to concern forest office. 3. Keep minutes of meeting 4. Co-sign the cheque book 5. Official correspondences 6. Responsible to check the quality of NWFP resources 7. Responsible to disseminate the market and official information to the members
Treasurer	Name of Treasurer: Chenchu Dorji
	Responsibilities of Treasurer: 1. Collect annual membership fees and product sale contribution from members 2. Maintain and prepare financial transaction report and present to members during annual general meeting 3. Collection and deposit revenue to the group account 4. Withdrawal of group fund from the bank and disbursement to the members as and when necessary 5. Co-sign the cheque book
Committee members	Right and Responsibilities: 1. Equal distribution of loan 2. Issue collection permit and monitor NWFP collection as per prescription 3. Restrict and allocate collection of NWFP as per availability of resources 4. Resolve conflict and case settlement 5. Appoint waste collection coordinator on rotational basis 6. The committee members shall organize meeting with general members for price fixing with the buyer/trader 7. In case if group cannot come to common consensus, the decision of the committee shall prevail. 8. The committee shall coordinate and disburse <i>Semso</i> as and when required
Incentives to the committee members	The committee members shall be admissible Nu.500 besides entitlement given by organizer from group fund if he/she has to attend meeting/ workshop out of Paro Dzongkhag.

Membership fee	Every member shall contribute Nu.1100 only as annual membership fee
NWFP group fund management and utilization	1. The accounts shall be maintained in same BDBL saving account No. 000310121243 under Paro branch 2. It shall be loaned to members only when Nu.500,000 (Five lakh only) is accumulated in the account. However, only 50% of the total amount accumulated shall be disbursed as a loan to the members. 3. Maximum term limit for loan availed shall be fixed at one year 4. Interest shall be fixed 10% per annum irrespective of amount 5. An amount of Nu.10,000 (Ten thousand only) shall be paid to the member household incase of death as <i>Semso</i>
Conflict resolution	In case of any disputes or conflicts arises, the matter shall be put to committee members for settlement. If committee fails to resolve, it shall be forwarded to Gewog administration for settlement. Further, if Gewog fails to settle, it shall be forwarded to Division Forest Office for settlement.
Penalties	1. Members absent for meeting shall be levied a fine of Nu. 500 per occasion. 2. From three yak rearing household, one member each from household shall represent for the meeting 3. In violation of harvesting prescription prescribed in management plan by the members, an amount of Nu. 5000 (Five thousand only) for first time, Nu. 10000 (Ten Thousand only) for second time. For third time, Nu.15000 (Fifteen thousand only) shall be levied with termination from membership. 4. Selling of NWFP by the member to other than the appointed buyer/trader shall be levied a fine of Nu.5000 (Five thousand only) and products shall be seized. 5. If products is already sold and could not be traced, he/she shall pay double compensation than market rate in addition to fine 6. Collection of NWFP through hiring of labor is restricted. If found, he/she shall be levied Nu.5000 (Five thousand only) and the products shall be confiscated. 7. In case of violation of harvesting timeline, he/she shall be levied Nu. 5000 (Five thousand only) and the products shall be confiscated. 8. In case of littering, an amount of Nu.1000 (One thousand only) shall be levied per occasion. 9. In case of illegal collection by outsiders, it shall be dealt as per FNCRR 10. All unlisted offence in this plan shall be dealt as per FNCRR

<i>Meeting and purpose</i>	1. General meeting: Once in a year latest by December 1st week 2. Committee meeting : Once in a year after cordyceps auction 3. Ad-hoc meeting: As and when required
