EXECUTIVE SUMMARY

With the total of 33 interested household members and sustaining their rural livelihood through partial depending on forest resources, Gonpung Shingmen Deytshen (NWFP) Management

Group was formed in the year 2014. The community falls under Shumar Geog, Pemagatshel Dzongkhag which is located about 15KM away from the geog centre and were connected with the farm road. The group during previous plan period had collected total of three NWFP species that are locally available within the jurisdiction of their community. Those includes *Rubia cordifolia*, *Pouzolzia sanguine* and *Paris polyphylla*.

The species which they currently managed and collect were found potential for collection during this plan period on the condition they abide with harvesting prescription of the plan. Those resources will be collected from seven collection sites specified in areas designated for collection and management in this plan. Through sustainable management and utilization of these resources they will be help in both future NWFPs resource management and enhancement of income generation.

The group during past plan period had benefitted in terms of income to support their school going children, improve the living standard and as intangible profit, they gain knowledge in techniques to harvest NWFPs in sustainable means. The group through varies contribution from individual member and lending loan within them, the total amount of nu. 228,638.77 had been accumulated to their saving account.

Management Plan consists of the brief description of NWFPs, descriptions of the species including harvesting prescriptions, maps of NWFPs harvesting areas and marketing sales plan. The by-laws of the management plan contained process of executive committee formation-ToR of Chairperson, Secretary and Treasurer, compensation to the executive committee for marketing, membership fee, community development fund, conflict resolution and penalties.

The term of management plan is for five years and will be effective from mid of 2021 to 2025. During the period, the group will have right to collect mentioned NWFPs as per the harvesting guidelines prescribed in the plan and ensure sustainability of resources for future use.

PART 1: BACKGROUND INFORMATION

1.1: Short descriptions of Paris (Paris polyphylla)

Local name: (Thoksampa) is an Asian species of plants native to China, the Indian subcontinent and Indochina. It produces spider like flowers that throw out long, thread-like yellowish green petals throughout most of the warm summer months and into the autumn. In the fall, the flowers are followed by small, scarlet berries. It is a perennial, which slowly spreads and survives in leafy moist soil in either complete or partial shade.

The flowering plants usually grow up to 90 cm (3 ft) high and spread out about 30 cm (1 ft) wide. Its leaves grow in single whorl below

a flower growing in two whorls. The rhizomes are traded considering the high medicinal and market value.

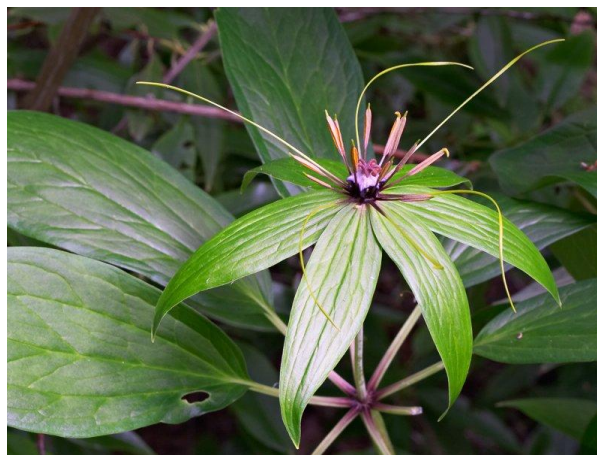

Figure 1: Paris polyphylla

1.2: Short descriptions of Rubia (Rubia cordifolia)

Rubia (local name Laniru) is a perennial scrambling or climbing herbs or sub-shrubs of around 80 species native to various parts of the world. It can grow up to 1.5 m in height. The evergreen leaves are 5-10cm long and 2-3cm broad, produced in whole whorls of 4-7 star like around the central stem. It climbs with tiny hooks at the leaves and stem. The flower usually appears from June to August. It grows along the forest edge and clearings, scrub vegetation, dune forest, less commonly

in grassland and open and rocky areas. It grows up to the elevation of 2600 masl.

Figure 2: Rubia cordifolia

Uses

Rubia is an economically important source to use as colorant. The plants roots contain an anthracites compound that gives its red color to a textile dye. It also used as a colorant especially for paints. In Bhutan it is locally used in coloring and treating threads on weaving.

1.3: Short descriptions of Youngjiva (*Pouzolzia sanguinea*)

There are 35 *Pouzolzia* species widely spread from East Asia, Southern China, Northern India, Nepal, Bhutan, Thailand, Laos and Indonesia. *Pouzolzia sanguinea* is an evergreen shrubs growing in warm broadleaved forest, thickets and edge of woods, dry valleys, roadside and in the patches of abandoned cultivation at elevation of 300-2300 masl.

Figure 3. Pouzolzia sanguinea

Uses

A paste made from the roots of *Pouzolzia sanguinea* is applied to boils. A fibre obtained from the barks is used in making rope, nets, etc. In Bhutan, it is popularly used as one of the ingredients in incense manufacturing process as it is adhesive in nature.

PART 2: NWFPS MANAGEMENT AND MARKETING PLAN

2.1: Objectives:

- Enhancement of income generation from the sale of NWFPS.
- To maintain equitable, sustainable harvesting and management of NWFPS.

2.2: NWFPs descriptions

Table 1: Brief description of individual NWFPs species

NWFP name	Collection area (name)	Parts harvested	Use purpose (traditional and others)	Harvesting season (months)	Estimated quantity that can be collected
Thoksampa (<i>Paris polyphylla</i>)	Kheri, Dodo, Manang, Sengderi & Chenang	Rhizome	Medicinal value	October to November	20 kgs
La-nyeeru (<i>Rubia cordifolia</i>)	Senang Jab, Manang, Sengderi, Chenang Jab, Jephu, Kheri and Dodo	Entire plant	Dye/colorant	November to February	2000 kgs
Youngjiva (<i>Pouzolzia sanguinea</i>)	Senang Jab, Manang, Sengderi, Chenang Jab, Jephu, Kheri and Dodo	Bark	Adhesive and incense making	August to February	1500 kgs

2.3: Harvesting prescriptions for sustainable harvesting

Table 2: Harvesting prescriptions for sustainable harvesting

NWFP species	Harvesting prescriptions for sustainable harvesting
Thoksampa (<i>Paris polyphylla</i>)	✓ Strictly comply with the harvesting season prescribed in this management plan. ✓ Retain at least 10% of seeds for regeneration for following season. ✓ Should abstain from harvesting young and immature plants.
La-nyee roo (<i>Rubia cordifolia</i>)	✓ Do not uproot entire plants. ✓ Do not collect roots. ✓ Use sharp scissors for the collection of upper part of the plant. ✓ Maintain 5 cm at the ground level while cutting the upper parts. ✓ To retain as the seed plant for natural regeneration, leave at least 10% of the plants without harvesting. ✓ Should collect after the announcement made by coordinator in consultation with GFR to collect on each season (As per the season mentioned in plan).
Youngjiva (<i>Pouzolzia sanguinea</i>)	✓ To retain the stump for coppicing in the following growing season, maintain at least 10 cm to the ground level while harvesting. ✓ Do not harvest or collect the remaining young stands/seedling/saplings.

	✓ Felling the surrounding trees to ease harvesting is prohibited. ✓ To retain as the seed plant for natural regeneration, leave at least 10% of the plants without harvesting. ✓ Collection of roots is strictly prohibited for ecological reason.
--	--

2.4: Map of the collection areas:

The community during the revision of plan had suggested some area which is much potential for collection and not included in the previous plan to incorporate in the following plan period. Therefore the sites were visited to study the potentiality of and accordingly included in the plan for management as per the plan prescription. The areas which are included in the management regime are demarcated with a rocky cliff from the north, a perennial stream to the east and Nanong Gewog Center Road to the south.

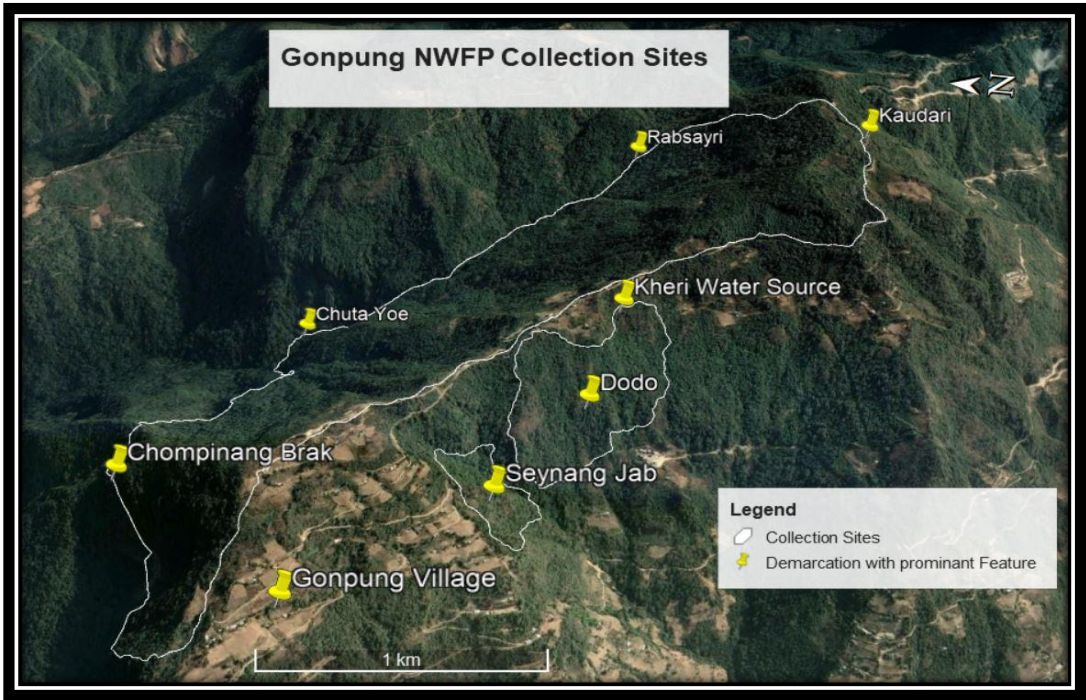

Figure 4: Gonpung Google map

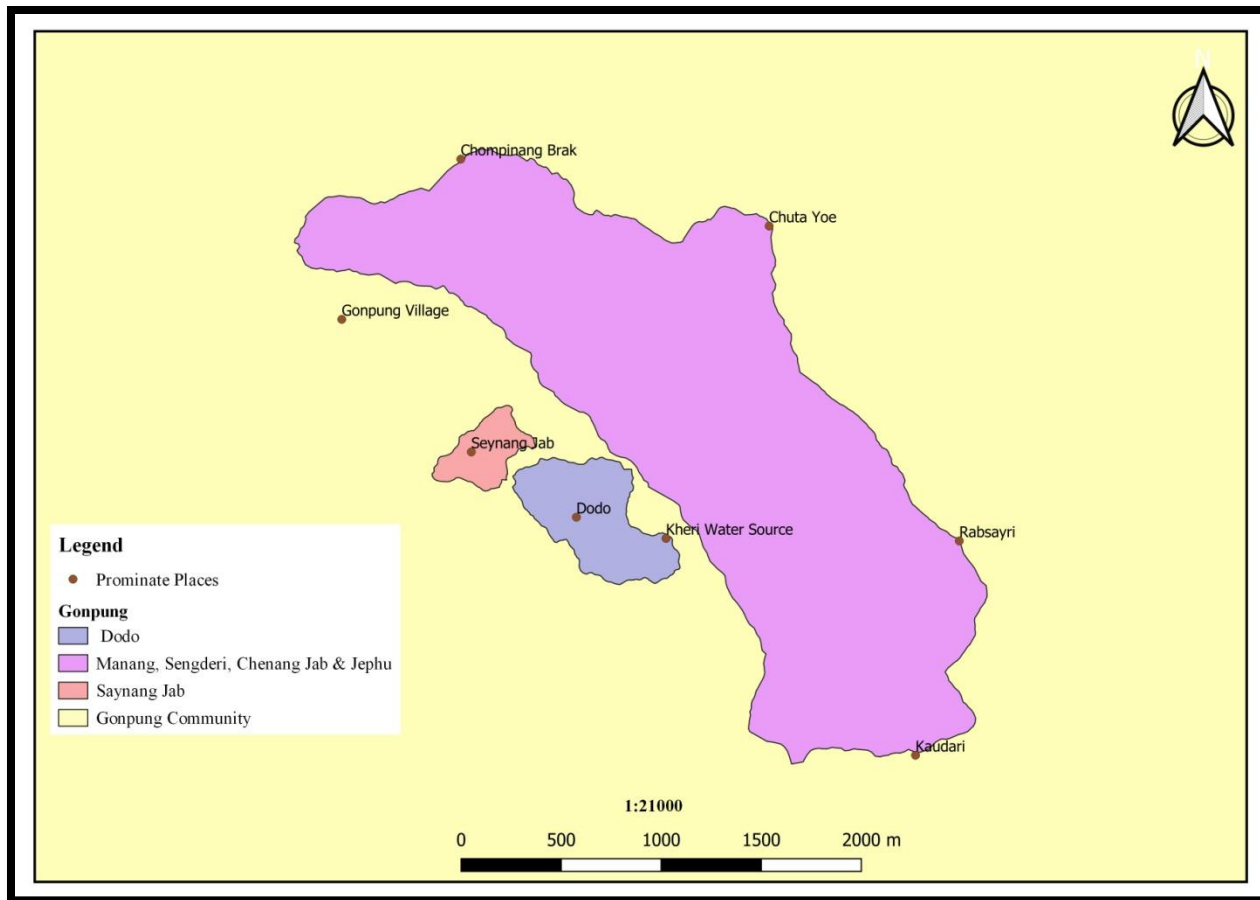

Figure 5. Gonpung NWFP map

2.5: Marketing and sales plan

Table 3: Marketing and sales plan of NWFPs

NWFP name	Potential market	Estimated quantity for sale per season	Expected price per unit	Total Nu.
Thoksampa (<i>Paris polyphylla</i>)	Trader holding trading license	20 kgs	2500	50000.00
Rubia (<i>Rubia cordifolia</i>)	Trader holding trading license	2000 kgs	50	100000.00
Youngjiva (<i>Pouzolzia sanguinea</i>)	Trader holding trading license	1500 kgs	50	75000.00

2.6: Collection and Marketing scheme

The chairman will bear the sole responsibility in obtaining the collection permit from the concern Forest Range Office a week ahead of the onset of the time. The coordinator shall announce the starting date, duration and the closing date in consultation with the GFR.

The group members will collect the NWFPs mentioned in this plan individually, after which they should store properly as per the market requirement demand and segregate products as per the standards required by the trader. The executive committee members will collect the NWFPs product to the auction yard and inform to the concern forestry official/DAMC. The concern forestry official/DAMC will then organize NWFPs auction to various NWFPs traders. The auction will be organized in the presence of Chairman from the respective NWFPs groups as a representative on behalf of the group.

The executive members may deduct the expenditure such as transportation, community fund and compensation before making payment to the group. The sharing of income to the individual group member will be done based on the quantity of NWPs collected by the respective members after deduction of all necessary expenditure.

PART 3: BY-LAWS: Group regulations and norms

3.1: Members of the NWFP management & marketing group

Membership

- The entire household having “Thram and Gung” of Dagor chiwog are eligible to join the group provided they accept the terms and conditions of new member registration in the group.
- Any interested member whiling to join the group up on fulfilmento of above criteria shall put an application to coordinator.
- Up on receiving of application, decision will be taken during half yearly general meeting and should get 50% or more votes from the existing members.
- Up on fulfilling aforementioned terms the member will get register with the payment of compensation amount equivalent to individual member contributed till date in the saving account of the group

Responsibilities and rights of members:

- The group members participating in this management of NWFP will have equal rights and responsibilities for controlling, protection, management and harvesting in the identified collection areas.
- The individual members will have the equal rights to only after chairman fixed the date and time.
- Every member of the group will have equal access to resource and report to the committee members for violation of the management rules.
- The members should agree to sell the collections only through the group and not individually.
- Any member withdrawing due to loss of interest from the membership shall be allowed without any benefit and he/she will not be allowed to re-join the group.
- Resignation from the group membership, owing to age or no one to inherit in the group will get his/her share contributed till date of his/her resignation up on verification and approval from committee.
- The group shall conduct meeting twice to discuss on work plan and group related issues.

3.2: Executive committee and responsibility

Sl. No.	Name	Gender	Designation	Contact no.	Remarks
1.	Chojay	Male	Chairperson	17703120	
2.	Langa Tshering	Male	Secretary	17790282	
3.	Tshering Zangmo	Female	Treasurer	77280780	

3.3 Terms of Reference for Committee members

3.3.1: Chairperson

- To chair all kinds of meeting related to this NWFP management plan.
- To obtain collection permit a week before from the Forest Range Office as mentioned in the harvesting guideline.
- Fix date of collection and make an announcement to the group member
- To inform the members and collect NFWPs for auction.
- To confirm date and time for auction in consultation with GFR/DAMC and inform traders accordingly on venue and time.
- To resolves the disputes and conflict among the members.
- To enforce the fine and penalty as per the norms of the group.
- To submit final report of the product type and income generated to the Gewog Forest Office and whenever deems necessary.
- Act as the overall manager of the group fund.

3.3.2: Secretary

- Look after the roles of chairperson in his absence.
- Provide assistance to the Chairman.
- Maintain records of the activities implemented.
- Write official correspondence and maintain minutes during meeting conducted.

3.3.3: Treasurer

- To maintain all financial matters and present during the annual general meeting to Committee and the group members.
- Officiate and assist the Chairperson or Secretary in their absence in functioning of the group.
- Collect the membership fee of nu. 100/- each for every monthly.

3.3: Compensation to the executive committee for marketing

The executive members during involvement in related activities within Pemagatshel Dzongkhag shall be paid an amount of nu. 500/- per occasion irrespective of designation and will be paid nu. 1000/- per occasion if need to travel outside from the Dzongkhag after which they agreed to serve as committee for the period of next 5 years

3.4: Membership fee and purpose

Collection of nu. 100/- per month shall substitute as part of membership fee.

The collected fee will be deposited in the joint account as a Community Development Fund (CDF) that will be used for pre-financing marketing purposes and others.

3.5: Community development fund and utilization of fund

Individual member should contribute 5% of the total income generated from the sale of each product. However, if the deduction made from sale of each product does not reach to a sum of nu. 150/- the deficit amount should be added and contribute to the group fund. (Minimum amount of nu.150/- from the sale of each product to the group fund and if no NWFPs were collected the group shall abstain from collecting from the members).

The fund collected in the group fund will be utilized for the group works upon general agreement. In case of huge amount accumulation in the bank, it will be landed on loan with the interest rate of 15% per annum within the group.

3.6: Conflict resolution

- In case there is a conflict between the NWFP Group and outsiders, the case shall be forwarded to the Divisional Forest Office/Gewog Administration and if could not resolve, the case will forwarded to higher authority.
- Any conflict or dispute on NWFP matters arises among the group members, the matter will firstly resolve by the Chairman.
- If the nature of the conflict is unable to resolve by the Chairman, the case will be forwarded to the GEFO for further settlement.
- Still if the conflict remains unresolved the case will be forwarded to the Divisional Forest office/ Gewog Administration.
- If the Divisional Forest Office/Gewog Administration cannot resolved the problems, the case will be forwarded higher authority for further action

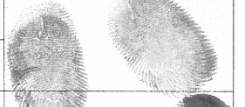

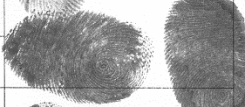

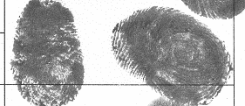

3.7: Penalties

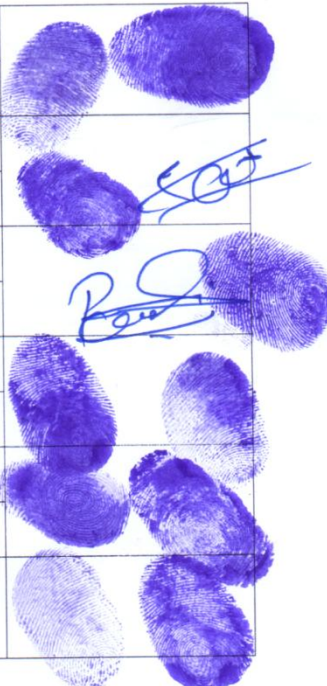

- In case if the member of the NWFP Group violates the harvesting rules as set in this plan, he or she will be charged a fine amount of Nu. 1000/- and will not be allowed to harvest the NWFP for the rest of the season.
- Members collecting the NWFP prior to the fixed date/announcement made by the Coordinator/ GFO, the offender will be levied fine Nu. 1000/- with the confiscation of product and material used.
- Illegal and individual selling of the NWFPs will be imposed a fine of Nu. 10000/-
- Those members who could not collect it owing to old age or death or other should contribute nu. 100/- for each product during the time of marketing.
- Non-members without registering will be not allowed to collect and fine of Nu. 5000/- will be imposed and product will be seized to the group.
- An absentee during meeting is liable to pay Nu. 100/- per occasion and late submission of membership fee from the schedule date 100% of amount suppose to collect.
