Executive Summary

Wongchelo Chigthuen Tshogpa (NWFP Group) is formed comprising of 54 interested households from three villages namely Wongchelo, Garrey and Tephu under Nanong Gewof in Pemagatshel Dzongkhag. The community is connected with farm road measuring 14.5km distance from the Centre. The altitude ranges between 1300-2000 m.a.s.l and experiencing considerably hot and humid climatic condition during summer, cold and dry during winter. The vegetation type is mainly Cool broadleaved forest comprising of *Alnus* sp, *Engelhardia* sp, *Betula*, *Persea* sp, *Castanopsis* sp, *Albezia* and *Quercus* sp with *Rhus* and *Chimonobambusa* sp (Large bamboo) stands.

The NWFP products mainly *Rubia cordifolia* (Laniroo), *Pouzolzia* spp (Yongibu), *Swertia chirata* (Khaloo) and *Edgeworthia* sp (Daphne) can be collected and marketed yearly. For this very purpose, in total of 600.24 acres (242.91ha) of land has been identified, mapped and designated for NWFP collection site within their locality in line with their traditional right for collection of natural resources. Out of which 345.54 acres (139.83 ha) of State Reserved Forest Land (SRFL) located at Menzor Yekatang, Chothpojug and Shezor is mainly for collection of *Daphne* sp and *Swertia* sp. Whereas 210.54 acres of Private Registered Land (PRL) located at Loutiri and Pangkhokayee is for collection of *Rubia* and *Pouzolzia* sp. As the private land holders are also the members of the NWFP Group and they mutually agreed to collect NWFP within their registered land as per the procedures in SRF land.

The natural resources play vital role in the day-to day livelihood of the community through income generation from sale of excess resources. The Wongchelo Chithuen Tshogpa NWFP Group formation has come up with utmost thought and inspiration for sustainable management and conservation resources. The objective of NWFP Group is outlined and highlighted as following

1. To strengthen the sustainable management of NWFP through community participation
2. Enhance income generation to community through sales of NWFP (s)

Marketing arrangements

The group coordinator (Chairman/Committee members) in consultation with the traders, Gewog Forest Office and Division Office will look for the possible traders for the sale of the NWFP when the product is collected and ready for the sale. The concerned authority/agency will consult with the Department of Agriculture Marketing Cooperatives (DAMC) for trading the product if traders are not willing to buy the product.

The following procedures shall be followed while conducting marketing:

The representative group and Gewog Forest Ranger will carry out the preliminary assessment of NWFP available for collection from the designated forest, two months ahead of collection season.

The group members will carry out collection of NWFP products from the designated sites within a particular season (month) upon obtaining collection permits and strictly adhering with the guidelines.

The Committee members will compile and submit report on availability of NWFP collected to the NWFP strategy committee through Gewog Forest Office to prepare for auctioning.

Division in collaboration with the DAMC, traders and NWFP committee members to fix date and identify strategic location for auction.

The group will bring the NWFP products to identified auction sites on or one day ahead of conducting auction.

Division in close coordination with the DAMC will identify traders and conduct auction in presence of Group coordinators.

Benefit sharing

The NWFP members will collect the NWFPs individually within a particular period (season/months) as reflected in the By-Laws and store properly. After segregation of products as per the standard required in the market. The committee members will collect NWFP products from the individual household (Hhs) and transport to their identified auction site. After conduction of auction, the Committee member will deduct all expenditure such as transportation cost, DSA payment (National wage rate 215/day) to members involved in NWFP collection, transportation and auctioning. The percent of expenditure incurred will be deducted from the individual based on quantity of products sold. Further, 10% of total individual income will be deducted and deposited into Group

Joint account within one week. The balance income will be utilized for individual benefit to enhance their livelihood.
