NWFPs	Non-wood Forest Products
ToR	Terms of Reference

PART 1: BACKGROUND INFORMATION

1.1 Background

Dezema Non-Wood Forest Products (NWFP) Management Group comprises of 8 members from Dezema chiwog under Chhokhorling Gewog, Nganglam Dungkhag. There are three potential NWFPs species for income generation. These resources will be collected from 11 collection sites specified in areas designated for collection and management in this plan. Those areas are Jazamo, Potanala- Dengshingdangrey, Zalaborang, Gonpa, Sukarwang-Khalaktangri, Gonpa, Rinchenhang, Omshagonpa, Murshingdangnang, Soitsongzor and Neptangbari.

The given designated areas were dominated by 3 NWFPs species namely *Thysanolaena latifolia*, *Piper pedicellatum*, and *Cinnamomum glaucens*. The sustainable management and utilization of these resources may help in both future NWFPs resource management and income generation.

The Management Plan consists of the brief description of NWFPs, descriptions of individual species including harvesting prescriptions, sketch map of NWFPs harvesting areas and marketing sales plan. The by-laws of the management plan consist of the process of executive committee formation-ToR of Chairperson, Secretary and Treasurer, compensation to the executive committee for marketing, membership fee and community development fund, conflict resolution and penalties.

The term of management plan is for five years and will be effective from 2021 to 2026. During this period, they will have right to collect the mentioned NWFPs as per the harvesting guidelines prescribed in the plan to ensure sustainability of resources in the future.

1.2 Short description of the species

1.2.1: Short descriptions of Pipla (*Piper pedicellatum*)

Pipla, Local name: (Bonzalo) is a perennial plant that grows as bushes to a height of 1-2 meter. It has smooth dark greenish leaves. The fruits start ripening in August – September.

Fig 1: *Piper pedicellatum* at Powari

Pipla thrives widely under the canopy of broadleaf forests or in an open area under Dezema and in some other areas under Nganglam. It is the shade demander and thrives mostly in damp and moist soil. There are eight Pipla species found in different parts of Bhutan: *Piper pedicellatum*, *P. attenuatum*, *P. longum*, *P. rhytidocarpum*, *P. mullesua*, *P. peepuloides*, *P. sylvaticum* and *P. khasianum*. The bush type is more popular to the local farmers

where the fruits have good commercial value and this management plan is only refers to *Piper pedicellatum* and cannot apply to other Pipla species.

1.2.2: Short descriptions of Brooms Grass (*Thysanolaena latifolia*)

Thysanolaena latifolia (locally called Tsakusha) is popular for its rural livelihood ventures to many farmers in Bhutan. This species is found in Bhutan's sub-tropical areas. It grows as high as 2.5 meters and is mostly found in open areas particularly above the road stabilization site, erosion/landslide site, logged-over areas, mountain slopes and ravines. The leaves are linear, about 5 cm wide and 30 cm long; and are alternately arranged at an interval of 12.5 cm. The panicles which are the main material for soft-broom production has an average length of 50 cm while its stalk

Fig 2: *Thysanolaena* spp. near Ngorphujab

measures about 70 cm long. It can be grown in many types of soils such as clay, sandy clay loam and sandy loam. A one and one-half year-old broom grass starts producing panicles that develop from October to March every yea

Uses

T. latifolia is the source of raw material used for making soft brooms. It is widely used as planting materials for controlling soil erosion and as agro-forestry crop in many countries. It is also used as live fencing and boundary plantations materials. The leaves of the plant can be good forage for animals like cattle and horses.

1.2.3: Shoot descriptions of *Cinnamomum glaucescens*

Cinnamomum glaucescens (Local name: Dhurka shing –Tsanglakha) is an evergreen tree native to Bhutan, India (Sikkim, Manipur and the Khasi Hills), and Nepal.

Uses

The matured barks of this species are collected by the locals which is then used as an incense directly for various religious purposes in almost every households under Dezema.

Figure 3 *Cinnamomum glaucescens*

PART 2: MANAGEMENT AND MARKETING PLAN

2.1: Objectives

The objectives of the management plan are:

- To enhance income generation to the community through sale of NWFPs.
- To promote and manage the NWFPs resources at local level through community participations.
- Contribute towards poverty reduction and self sufficiency

2.2: NWFPs descriptions

Table 1: Block description of individual NWFPs species

NWFP name	Collection area (name)	Parts harvested	Use purpose (traditional and others)	Harvesting season (months)	Estimated quantity that can be collected
Pipla (Piper pedicellatum)	Jazamo, Potanala, Dengshingdhan gray, Zalaborang, Gonpa	Fruits	Spice/ medicine young shoots are used as vegetable	Fruits are fully mature usually from Sept onwards	300kgs
Tsakusha (Thysanolaena latifolia)	Sukarwang to Kalaktangri, Rinchenthang, OmshaGonpa	Use upper parts, inflorescence	Fodder, soft broom	December-March	150 bundles
Dhurka shing (Cinnamomum glaucescens)	Murshing Dangnang, Soitsongzor, Neptangbari	Trunks and barks	Incense	September - February	750 kgs

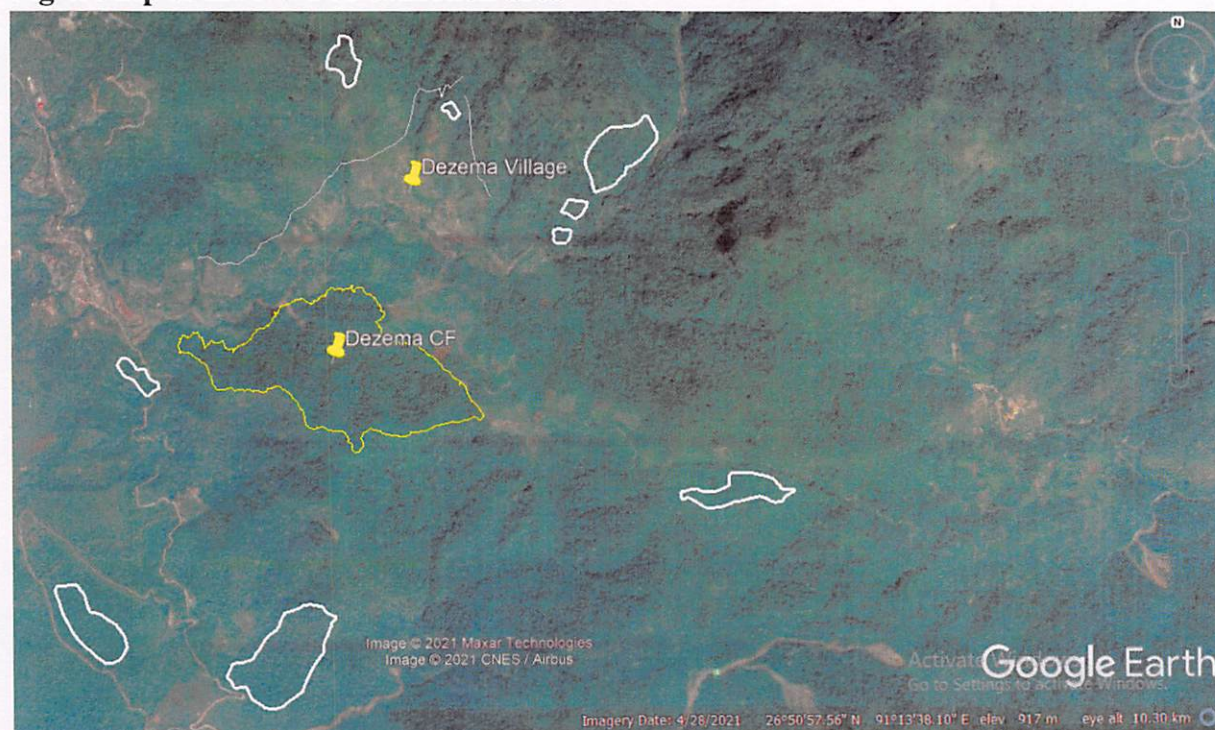

2.3: Harvesting prescriptions for sustainable NWFP harvesting

Table 2: Harvesting prescriptions for sustainable NWFP harvesting

NWFP species	Harvesting prescriptions for sustainable harvesting
Bonzalo (Piper pedicellatum)	-Collect fruits only when fully matured -Harvest fruits only after the announced starting date for harvesting (Date is usually announced by the coordinator/GFR generally in September) -Harvest fruits only by hand picking without damaging, cutting or uprooting of the entire plant

Tsakusha (<i>Thysanolaena latifolia</i>)	-Cut the foliage, inflorescence at 15 cm from the ground. -Do not damage the rhizomes in order to allow natural regeneration
Dhurka shing (<i>Cinnamomum glaucescens</i>)	-Collect the dropped parts (trunks) from the natural fallen trees -Cutting and felling of the healthy mother trees is not allowed

Fig 4: Map of the NWFPs collection area

2.5: Marketing and sales plan

Table 3: Marketing and sales plan of NWFPs

NWFP name	Potential market	Estimated quantity for sale per season	Expected price per unit	Total Nu.
Pipla (<i>Piper pedicellatum</i>)	Local trader	300kgs	200.00	60000.00
Tsakusha (<i>Thysanolaena latifolia</i>)	Local trader, local market, Indian market and vegetable vendors	150 bundles	20.00	3000.00
Dhurka (<i>Cinnamomum glaucescens</i>)	Local trader, local market Indian market	750 kgs	100.00	75000

2.6: Marketing arrangements

The members will collect the NWFPs individually and store properly. The members will segregate products as per the standards required by the trader. The executive committee members will collect the NWFPs product to the auction yard and inform the concerned forestry official. The concerned forestry official in collaboration with the Nganglam NWFP management group's chairperson will organize the auction to various NWFPs traders. The auction will be organized in the presence of Chairman from the respective NWFPs groups as the representative on behalf of the group.

The executive members may deduct the expenditure such as transportation, community fund and compensation before making payment to the group. The sharing of income to the individual group member will be done based on the quantity of NWFPs collected by the respective members after deduction of all necessary expenditure.

2.7: Benefits to the members

The members can earn income from the sale of NWFPs. It became a supplementary income source since their main income source (mandarin) has drastically reduced due to mandarin dieback in the southern areas. To this, the members can enable to meet their basic necessities like buying of salt, rice, sugar, etc. Furthermore, the income also helps in buying of clothes, shoes, stationaries for their school children.

2.8: Benefits to the group

By forming this functional group, all the individual members have equal opportunities to access the resources. The members will be able to collect the NWFP products legally in group which otherwise is not possible at an individual level. Through this, the group will be able to support the welfare of individual member enhancing socio-economic development in the group. Moreover, the group can also save the community fund which they can use for sanctioning of members loan at low rate or they can be used for any livelihood support activities in the group.

PART 3: BY-LAWS-GROUP REGULATIONS AND NORMS

3.1: Members of the NWFP management & marketing group

Responsibilities and rights of members:

- The group members participating in this management of NWFP will be responsible for controlling, protection, management and sustainable harvesting in the identified collection areas.
- The individual members will not be allowed to collect and harvest at their own will unless the coordinator fixed the date for collection and issue collection permit.
- Member of the group must report to the committee members for any violation of the management rules.
- The members should sell the NWFP collected only through the group and not individually.
- Any new members wishing to join the group will be allowed upon payment of entry fee of Nu. 150/- but he/she will not be entitled to get his share from accumulated fund prior to his/her membership. However, he/she will have equal rights for NWFP collection and the accumulated fund only after his/her joining the group.
- Withdrawal of any group members without genuine reason is allowed but the accumulated fund and the entry fee will not be entertained. Withdrawal members wanting to re-join the group will not be entertained.
- Any members who withdraw from the group members due to marriage or resettlements or other reasons will be allowed, the accumulated fund will not be entertained.
- Resign from the group owing to old age or no children to carry out work will derive benefit share equally till the date of his/her resignation.

3.2: Terms of Reference for Committee Members

3.2.1: Chairperson

Name of Chairperson: Mr. Drami

Responsibilities of Chairperson:

- To chair all kinds of meeting relating to NWFPs management matter in the group.
- To resolves the disputes and conflict among the members.
- To enforce the fine and penalty.
- To facilitate members to explore market for the NWFPs collected by the group
- Fix date of collection and make an announcement to the group member
- Maintain contacts with traders, to arrange & coordinate marketing of NWFPs and record data, etc.

3.2.2: Secretary

Name of Secretary: Mr. Sonam Rinchen

Responsibilities of Secretary:

- Provide assistance to the Chairman.
- Officiate Chairperson during his absence.
- Maintain records of the activities implemented, and also minutes of meeting.
- Write official correspondence.
- Compile the progress report and submitted to the GEFO for further submission to the Divisional Forest annually

3.2.3: Treasurer

Name of Treasurer: Mr. Ugyen Tshering

Responsibilities of Treasurer:

- To maintain the financial matters and present the details funds to Committee and the group members.
- Officiate the Chairperson or Secretary in their absence.
- Maintain the cash transaction record, submit expenditure and cash balance report to Chairman and present it to the group in meetings.
- Collection of membership fee from the group members.
- Taking care of financial arrangements in the group

3.3: Compensation to the executive committee for marketing

- The executive committee will work without compensation for the group for the tenure of next 3 years and they will not resign in between tenure except in extraordinary cases

3.4: Membership fee and purpose

- Membership fee for the existing members should pay Nu. 100/- annually.
- Any new members wishing to join the group will be allowed upon payment of entry fee of Nu. 150/- but he/she will not be entitled to get his share from accumulated fund till the date.
- However, he/she will be entitled for the fund accumulated only after the date of his joining as group members.
- The collected fee will be deposited in the joint account as a Community Development Fund (CDF) that will be used for pre-financing marketing purposes and others.

3.5: Community development fund and utilization of fund

- The bank account will be jointly operated by Chairman, Secretary and Treasurer, and they are signatory authority of the Bank Account. All sale and expenses done by the Chairman, Secretary and Treasurer should be in the notice of members.
- All expenditure incurred on behalf of the group will be borne from the Joint Account. Technical support will be sought from the concerned Range officer.
- The source of fund will be from fine imposition, membership fees and the sale of NWFP.
- The group members will deposit Nu.5% of the amount earned from the sale of their products by every member irrespective of the price fluctuation.
- The fund accumulation will be shared among the group members to certain percentage of the total accumulation once the bank account become enough to rotate

3.6: Conflict resolution

- In case disputes or conflicts among communities arise about access to certain areas for NWFP harvesting; the matter shall be put to the Gewog Tshogchung (GT) Dzongkhag and Tshogdue (DT) for further decision
- In case there is a conflict between the NWFP Group and outsiders, the case shall be forwarded to the Divisional Forest and Gewog Administration by the Coordinator.
- The conflict arising among the group members regarding NWFP matters will resort firstly to the Chairman.
- If the nature of the conflict is unable to resolve by the Chairman, the case will be forwarded to the RO for further settlement.
- Still if the conflict remains unresolved the case will be forwarded to the Gewog Administration.
- If the Gewog Administration cannot resolved the problems, the case will be forwarded to the Divisional Forest Office for further action

3.7: Penalties

- In case if the member of the NWFP Group violates the harvesting rules as set in this plan, he or she will not be allowed to harvest the NWFP for the rest of the season and the next season.
- Members collecting the NWFP prior to the fixed date/announcement made by the Coordinator/ RO, the offender will be levied fine Nu. 1000/- and product will be seized by the group
- Illegal and individual selling of the NWFPs will be imposed a fine of Nu. 10000/-
- Number of days for the collection will depend on availability of resources and general consensus by the members.
- Those members who could not collect it owing to genuine domestic problem such as old age or death or other genuine reasons will be considered upon verification. Only one
