Part A: NWFP management and marketing plan

1. Background

Doringphu NWFPs Group is formed by inhabitants from Bhag Jungi, Gareigoan and Dungi illages under Jigmecholing geog and consist of 43 households. The group will manage 1636 hectares of State Reserved Forest Land of Doringphu with boundary demarcation of Towerdara-Devikholcha in the north, Gareigoan Khochi and Bans Gari in the east, Gongchu confluence and Topay kholchi in south and Moukhola river in the west. Around 88% of the total management area is under forest cover and 126 ha of the NWFP Management area has slope greater than 45degree which has limited accessibility for collection of forest products. The area is warm broad-leaved forest.

Table 01: The detail geographical boundaries of NWFPs collection area

Boundary No	Name	Latitude	Longitude
1	Kharkhola Confluence	27° 2'58.74"N	90°23'28.71"E
2	Tower dangra	27° 3'3.68"N	90°24'42.57"E
3	Devikholchi B	27° 3'24.52"N	90°25'22.05"E
4	Gairegoan Kholche	27° 2'46.04"N	90°26'34.60"E
5	Bans gari	27° 1'32.28"N	90°26'33.88"E
6	Gongchu Confluence	27° 0'41.54"N	90°26'8.43"E
7	Topay kholchi	27° 0'56.81"N	90°25'33.22"E
8	Below Dungi	27° 1'27.65"N	90°24'41.41"E

Doringphu NWFP collections area is nearby their settlements whereby it is easy for sustainable management and protection. The area faces towards south east and south west with the slope between 20-45degree.

NWFP species like *Rubia cordifolia* (Majeto), *Piper longum* (Pipla), *Entada rheedii* (Pangra), , *Calamus erectus* (Patsha), *Piper hamiltonii* (Jungle pan), *Litsea cubeba* (Sil timbur) *Choerospondia axillaris* (Labsi) and *Swertia chirata* (Chirato) were mostly grown undergrowth in pocket/sporadic area where the vegetation of the area dominates by *Utis (Alnus nepalenses)*, *Katus (Castanopsis hystrix)* and other Chelauni (*Schima wallichii*) species.

Therefore, formation of Doringphu NWFP Marketing Group will certainly help to improve their social livelihood development through income generation, capacity development, thereby ensuring balance socio-economic development within the community without compromising sustainable management of forest.

2. Goal

Enhance the livelihood of the group members through sustainable harvesting and marketing of Non-Wood Forest Products.

3. General objective

The sustainable utilization and management of NWFP resources in the locality.

4. Specific objectives

- To promote group collection and marketing of NWFP collected from the proximity of settlements;
- To earn income from sale of NWFPs for reducing extreme poverty;
- To initiate sustainable use and management of NWFP prevalent within the locality in the future

5. Description of NWFPs present in the area demarcated for management by the group

Depending upon the types of forest, different species of NWFPs grows. However, in case of Doringphu, Majito (*Rubia cordifolia*), Lambu pipla (*Piper longum*), Dolo Pipa (*Piper pedicellatum*), Phunchey (*Persea fruitefera*), Patsa (*Plectocomia himalayana*) Jungle pan (*Piper hamiltonii*), Siltimbur (*Litsea cubeba*), Chirato (*Swertia chirayita*), Labsi (*Choerospondia axillaris*, *Thysanolaena latifolia* (Kucho), *Dendrocalamus hamiltonii* (Bamboo shoot), Harchur (*Viscum articulatum*) are some of the commercially importance NWFP species (13 species) profusely growing within their designated area. NWFP has different life forms; hence, incomes can be generating at different season. Table below depicts about the detail description of available NWFP species.

Table 02: Brief description of NWFPs for commercial harvesting

NWFP name	Harvesting area(s) (name)	Parts harvested	Use purpose (traditional & others)	Harvesting season (months)	Estimated quantity that can be collectedⁱⁿ each season
<i>Piper mullesua</i> (Pipla)	Kamarey, Dorangay, Lalicok	Fruits	Medicinal	September-October	500kgs
<i>Rubia cordifolia</i> (Majito)	Daragoan, Dungay	Entire plants	Dye, medicine	Nov-Feb.	1200kgs
<i>Litsea cubeba</i> (Sil timbur)	Dungay, Gongkhola	Fruits	Medicine	August-December	1300kgs
<i>Choerospondia axillaris</i> (Labsi)	Daragoan, Bakdungay	fruits	pickles	October-January	500kgs

<i>Swertia chirayita</i> (Chirato)	Dawralidara	Entire plants	Medicines	Nov-December	300kgs
<i>Zanthoxylum bungeanum</i> (Timbur)	Dungay, Gairegoan, Bhagjungay	Fruits	Spice	August-October	250 kgs
<i>Thysanolaena latifolia</i> (Kucho)	Dungay, Gairegoan, Bhagjungay	Inflorescence	Soft broom	November-February	3000 kg/bundle
<i>Dioscorea villosa</i> (Ban Tarul)	Dungay, Gairegoan, Bhagjungay	Tuber	Tuber	January-February	200kgs
<i>Dendrocalamus hamiltonii</i> (Bamboo shoot)	Dungay, Gairegoan, Bhagjungay	Shoot	Vegetable	July-September	100 kgs
<i>Entada rheedii</i> (Pangra)	Dungay, Gairegoan, Bhagjungay	Fruit	Medicine	January-March	100 kgs
Shikhara Lara	Dungay, Gairegoan, Bhagjungay	Climber	Medicine	August-February	20 kgs
<i>Stingless bee honey</i> (Putka)	Dungay, Gairegoan, Bhagjungay	Honey	Medicine	August-April	100 bottles
<i>Viscum articulatum</i> (Hurchur)	Dungay, Gairegoan, Bhagjungay	Climber	Medicine	September-February	5 kg
Bokra hurchur	Dungay, Gairegoan, Bhagjungay	Bark	Medicine	October-April	20 kg
<i>Trachycarpus fortune</i> (Hard broom)	Dungay, Gairegoan, Bhagjungay	Leaves	Hard broom	October-April	250 kg/bundle
<i>Persia frutifera</i> (Phunchey)	Gairegoan, Bhagjungay	Fruits	Consumption	October-January	250 kg

6. Harvesting prescription for sustainable harvesting of NWFPs.

Table below shows measures prescribed for sustainable management of NWFP resources in an area. Prescription reflected both traditional approaches as well scientific management intervention base on Interim Framework for management and marketing of Non wood Forest Products, 2011.

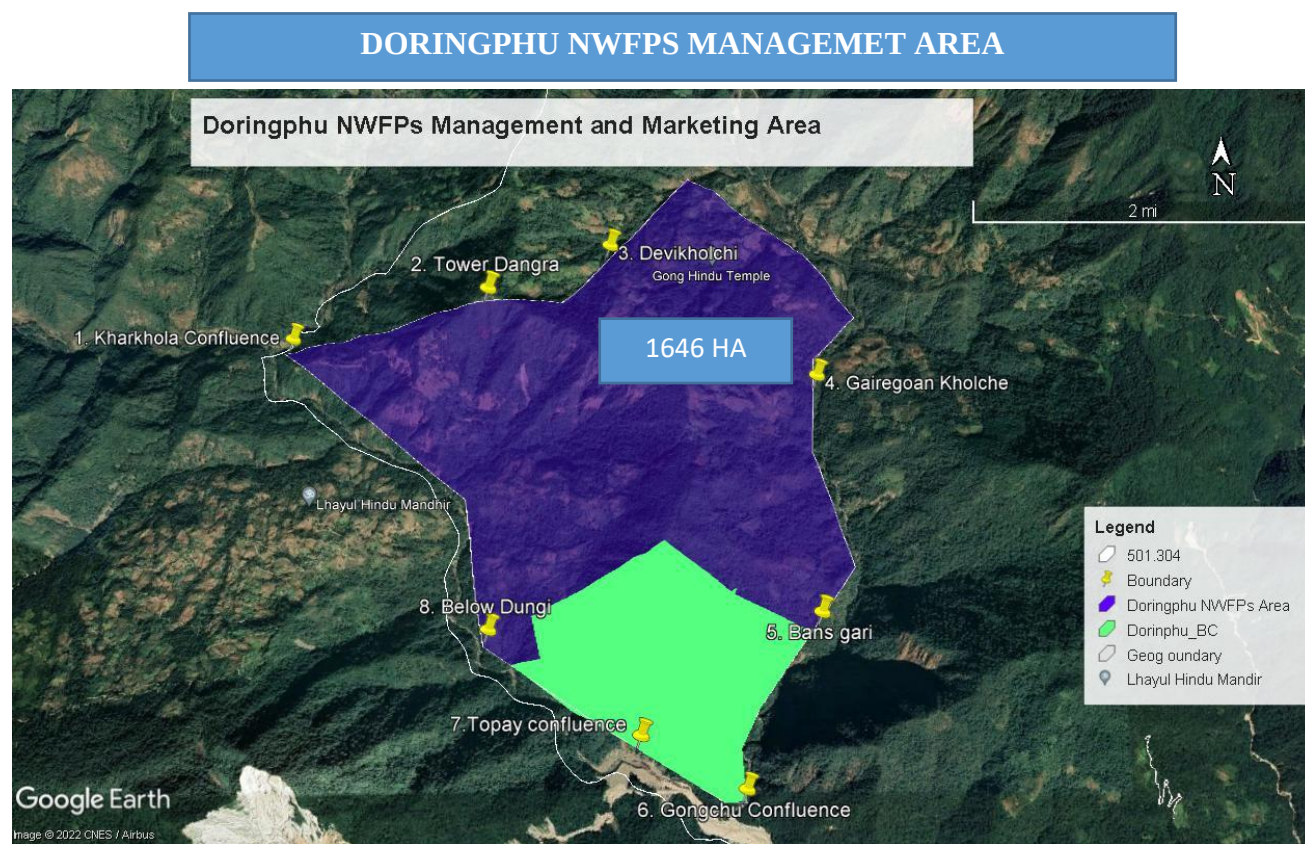

Table 03: Harvesting prescriptions for sustainable harvesting

<i>NWFP species</i>	<i>Harvesting prescriptions for Sustainable harvesting</i>				
	Who	Where	When	What	How
<i>Piper pedicellatum</i> (Pipla)	NWFP Group members	Kanarey, Dorangay, Lalichok	September-October	Fruits	Collect fruits only when fully mature. Harvest fruits only after the announced starting date for harvesting (Date is usually announced by the Chairman / Gewog Forest In-charge generally in September). Harvest fruits only by hand picking without damaging, cutting or uprooting the entire plant
<i>Rubia cordifolia</i> (Majito)	NWFP Group members	Daragoan, Dungay	November-February	Entire plants	Use sharp scissors for the harvesting of the upper part of the plant. Cut the plant at 5 cm above ground level. Leave at least 10% of the plants without collecting or harvesting any raw materials from them (these plants shall act as seed plants for natural regeneration). Do not collect roots. Do not uproot entire plant.

<i>Piper hamiltonii</i> (Jungle Pan)	NWFP Group members	Malagay	Throughout the year	Leaf	Collect leaves only by hand picking without damaging the climber and its tender buds. Harvesting of leaves from a single (same) climber shall be allowed to maximum of 4 times per year. Collect at maximum 80% of the leaves from a single climber. Do not cut down the host tree to ease harvesting Do not uproot or cut down the entire climber.
<i>Viscum articulatum</i> (Hurchur)	NWFP Group members	Dungay, Gairegoan, Bhajungay	October- February	Bark	Collect only bark from trees with a DBH of more than 10 cm. Collect the bark in strips with a maximum of 6 cm in width. Strip the bark from down to up to avoid damaging the roots. Harvest a maximum of two trips per tree trunk from opposite sides. Do not damage the cambium layer of the tree while stripping off the bark. Do not strip off the tree bark for 4 years after the first harvest from the same tree (it takes a tree about 4 years to heal / recover from stripping). Collect the bark every four years from opposite sides of the same tree.
<i>Litsea cubeba</i> (Sil timbur)	NWFP Group members	Gongkhola, Dungay	August- September	Fruits	Harvest fruit by handpicking or by lightly lopping of outer branches Do not cut down the tree for harvesting of fruit.
<i>Swertia chirayita</i> (Chirato)	NWFP Goup members	Dawralidara	November- January	Entire plants	Collect Chirata only after seed dispersal commenced. Harvest plant only after the announcement of harvesting date (It is usually announced by the Chairman / Gewog Forest In-charge, generally in November). Do not collect the plants late in the season (February) because at that time there is a high risk of damaging the germination of new seedlings

<i>Choerospondia axillaris</i> (Labsi)	NWFP Goup members	BhagJungay , Garigoan	December- February	Fruits	Collect fruits by shaking trees Use long bamboo poles to detach fruits form the trees. If the fruits are collected for nursery raising purpose, pick fruits when it turns yellow
<i>Thysanolaena latifolia</i> (Kucho)	NWFP Goup members	Dungay, Gairegoan, Bhag Jungay	December March	Inflorescence	Do not damage the rhizomes in order to allow natural regeneration Cut the matured stem right from base
<i>Trachycarpus fortunei</i> (hard broom)	NWFP Goup members	Dungay, Gairegoan, Bhag Jungay	October-April	Leaves	Do not cut whole plant. Cut matured branches and leave seeds for regeneration. Retain immature branches
<i>Zanthoxylum bungeanum</i> (Timbur)	NWFP Goup members	Dungay, Gairegoan, Bhag Jungay	August to September	Fruits	Harvest fruit by handpicking, if possible, climbing on trees. Use long bamboo poles with a hook to facilitate picking of the fruit. Collect only 70% of the fruits and leave 30% to allow natural regeneration. Do not cut down the tree for collection of fruit.
<i>Entada rheedii</i> (Pangra)	NWFP Goup members	Dungay, Gairegoan, Bhag Jungay	September	Fruits	Collect fallen beans from the ground. Use ling poles to detached beans if beans are hanging from support tree. Do not uproot the climber
<i>Persia frutifera</i> (Phunchey)	NWFP Goup members	Dungay, Gairegoan, Bhag Jungay		Fruits	Don't cut down tree and branches for collection of fruits. Collect fruits only from the ground. Shake the branches to fall fruits fromthe tree.

7. Google/QGIS map of the NWFP harvesting areas

8. Marketing and sales plan

Total of 12 plant based NWFPs collected from the forest and one bees species raised at household will be sold by the group. Honey has been included in the plan as the group members have unanimously decided sell it through group to fetch batter price and raised group fund. The estimate for honey is based on experiences of 30 households who are raising it currently. Thus, total of 8350kgs products shall be collected and marketed annually base on the availability of markets. The details marketing and sale plans of the Doringphu Non-Wood Forest Products Management and Marketing Group is given in table 04.

Table 04: Marketing and sales plan

<i>NWFP name</i>	<i>Potential market</i>	<i>Estimated quantity for sale per season (unit)</i>	<i>Expected price per unit</i>	<i>Total (Nu)</i>
<i>Piper pedicellatum</i> (Pipla)	Domestic & Export	800kgs	85	Nu. 68000.00
<i>Rubia cordifolia</i> (Majito)	Domestic & Export	1200kgs	35	Nu. 42000.00

<i>Zanthoxylum bungeanum</i> (Timbur)	Domestic & Export	250 kgs	100	Nu. 25000.00
<i>Swertia chirayita</i> (Chirato)	Domestic & Export	300kgs	50	Nu. 15000.00
<i>Thysanolaena latifolia</i> (Kucho)	Domestic & Export	3000 kg	25	Nu. 75000.00
<i>Litsea cubeba</i> (Sil timbur)	Domestic & Export	1300kgs	50	Nu. 65000.00
<i>Choerospondia axillaris</i> (Labsi)	Domestic & Export	500kgs	50	Nu. 25000.00
<i>Dendrocalamus hamiltonii</i> (Bamboo shoot)	Domestic & Export	100 kgs	50	Nu. 5000.00
<i>Dioscorea villosa</i> (Ban Tarul)	Domestic	200 kg	50	Nu. 10000.00
<i>Entada rheedii</i> (Pangra)	Domestic & Export	100 kg	50	Nu. 5000.00
<i>Trachycarpus fortunei</i> (hard broom)	Domestic & Export	250 kg	30	Nu. 7500.00
<i>Persia frutifera</i> (Phunchey)	Domestic	250 kg	60	Nu. 15000.00
<i>Stingless bee honey</i> (Putka)	Domestic & Export	100 kg/bottle	5500	Nu. 550000.00
Total Revenue		8350kgs		Nu. 907500.00
Total benefits to members in a year		907500/44=Nu.20625.00		Nu.20625.00 =
Actual benefits/members if work for maximum of 20days				=(20625/20) Nu.=1031/day

9. Marketing Arrangements

In order to prepare marketing of products a series of activities will be carried out by the group.
Table 5: Financial projection of benefits to the members from NWFP sales

Table 05: Procedures for NWFP harvesting, marketing and sharing of income

Activity	Procedures
Harvesting of products	NWFPs will be harvested as per the harvesting prescriptions for sustainable harvesting prescribe in table 03.
Postharvest practices	NWFPs will be dried in the sun and packed in the cartoon box after weighing its quantity.
Marketing of products	All the dried Non-Wood Forest products will be collected and weigh individually. They will call open buyers and sellers in their area in consultation with Gewog Forestry In-Charge.

Income sharing	The payment will be made to the member s as per the quantity of collection made by them after deducting royalty, 3% Executive Committee service charge and 10% contribution to Community Development Fund.
Raising of community development fund	10% contribution to Community Development Fund will be made in the account number of Tashiling NWFP Management and Marketing Group.
Payment to committee members for their service	3% for committee service charge payment.

10. Benefits to members

The benefit or income from sale of Non-Wood Forest Product will be equally shared among the active members who have work for collection, transportation, seasoning and marketing of the products.

Table 06: Financial projection of benefits to the members from NWFP sales

Sl. No	Particulars	Products (names) refer to Table 4.													Total Amount (Nu)

2	Annual Group Meeting	10000.00
3	Office stationeries procurements	2000.00
4	Other miscellaneous expenditures like visitors	5000.00
	Total Expenses	23,000.00
C	Balance: Total revenues – total expenses	72,150.00

Part B: Group's BY-LAW

12. NWFP management & marketing group members	12.1. Responsibilities and rights of members a. Members shall have authority to re-elect the executive committee members if they were disobedient b. Collect NWFP only after general meeting or upon receipt of harvesting permits from the Range office, Gelephu c. The group shall work for the interest of NWFP management and marketing group d. The group should explore market for the agreed NWFPs (14 species) and signed as per NWFP agreement protocol e. All group members should attend meeting (Annual/Quarterly/Emergency) voluntarily and with enthusiasm whenever requires f. Ensure and maintain quality products during the time of sale g. Labour hire beyond 2 labours is not allow from outside the groups as to ensure stringent management h. Collection of listed NWFPs within the family members of group members i. Pay membership fees annually j. Audit the executive members as per the situation k. Protect/stop outsiders from collecting 8 NWFPs species within the demarcated area l. Collect NWFPs which are listed in the signed agreement. m. The fund in the bank can withdraw by committee member only after the consensus of group member where the decision will take during Annual NWFPs Meeting n. Act as per the NWFP management and Marketing plan.
13. NWFP Management and Marketing Group Management Committee	Name of Chairperson:Krishna Prasad Ghimeray Village: Dungay village Contact No:+975-17977125 13.1. Responsibilities of Chairperson a. Coordinate and chair the meeting b. Coordinate the auctioning of the products in collaboration with the concern agencies (DFO, RO, SFED, DAMC, Traders and others) c. Solve conflicts arises within the group or with outsiders d. Explore market opportunities for 14 NWFP products specified in the signed agreement

	e. Seek training and technical support from relevant organizations f. Coordinate Auction for sale of products g. Direct the groups and executives members as per management plan h. Disseminate harvesting season as per the Management and marketing plan i. Represent group during the meeting or training outside the chewog j. He is the co-signatory (Secretary and Treasurer) for cash withdrawal from the bank k. Liaison with concern Agencies and traders then fix date, price and venues for marketing of NWFPs. l. Maintain attendances registers for the groups
	Name of Secretary: Krishna Bahadur Mongar, Village: Bhag Jungi Contact No: +975- 17879004
	<i>13.2. Responsibilities of Secretary</i> a. Chair the meetings in the absence of the co-ordinator b. Provide assistance to the coordinator c. Maintain records and keep minutes of the meeting d. Conduct annual NWFP Meeting yearly e. Assist the Treasurer in maintaining the cashbook and bank book f. Check the quality of the products g. Maintain all the records (quantity collected and harvested records) h. Prepare annual progress reports of any other reports of group i. Exchange official correspondences j. Maintain stock registers for group k. Disseminate of information to group on the latest market information l. Resolve the boundary disputes in collaboration with coordinator m. He is the joint signatory (Chairman, Treasurer) for fund withdrawal from the bank. n. Compilation of annual work plan and progress reporting.
	Name of Treasurer: Suk Kumar Mongar Village: Gairegoan village Contact No: +975-77248652
	<i>13.3. Responsibilities of Treasurer</i> a. Maintain cash transaction records b. Keep record of activities carried out in the group c. Present accounts status during Annual Group Meetings. d. Attend the auction with other members of Executives Committees e. Deduct 10% from each sale of NWFP species from respective members and deposit to the group account

	f. Deduct 3% from each member for sale of listed NWFP species to meet incentive payment to the executive members (Coordinator, Secretary and Treasurer) g. Pay 1% each to Coordinator, Secretary and Treasurer as an annual incentive h. Assist secretary's responsibilities when he is absent i. Collect membership fee annually and deposit in the group Account j. Collect the fine and penalties jointly with Chairman, Secretary, and deposit in the group account. k. Maintain all the sale records of listed NWFPs species during the auction.
14. Possible committee members	Name: Krishna Lal Pokerel Village: Dungi village Phone:+975- 17878972
	14.1. Responsibilities: Group Audit 1. Verify arithmetical accuracy of the accounting records. 2. Verify statutory remittances and recoveries and pay roll. 3. Verify physical existences of stores and NWFPs Group property. 4. Verify expenditure with budget. 5. Conduct physical verification of cash of Community Development Fund and its Management.
15. Tenure of committee member	The above executive members will serve for 5 years.
16. Incentives to the committee members	No salary will be paid to Chairman, Secretary and Accountant. However, a lump sum of Nu. 300/ day shall be incentivized when he/she is on duty of the NWFPs Group outside the Gewog. But, he/she shall not be eligible to such incentives if it is paid by other agencies or individuals.

17. Membership Registration fee and annual contribution	<i>17.1 New registration and resignation</i> 1. The communities residing and registered in the same chewog are eligible to join the Doringphu NWFP Management and Marketing Group without paying any penalties, if join within one month after the date of plan approval 2. In case the family gets extended, son(s)/daughter(s) of the members can join in the group after paying only membership fees and become member. 3. Others can become members outside their group must pay membership fees plus amount equivalent to one person's shares accumulated till that year and become a member. However, he/she should have a Census and Thram in the same chewog. 4. Annual membership fee is Nu. 100. 5. The resignation will be accepted only after completion of formalities such as submitting an application to the Chairman stating his/her problems and difficulties. The matter can further be discussed in the Annual NWFP Meeting and endorsed by all the members 6. If members happen to resigned without informing to executive members or members shall fine sum of Nu.500/member plus he/she shall not entitle his or he accumulated shares till that year. 7. If the members happen to transverse/migrate to other destination, then members shall allow, but without giving its benefits 8. The actual share after calculating from gross amounts (Money in the group Account) will entitle only if the member is decease, retarded & no one to attend meeting on his/her behalf and it should endorse by all the group members 9. If members among executive committee members does not delegate his duty as per their ToR, shall warn by the Group members (first time) and further if she/he repeat his disobediences, then shall fine Nu.500/member (second time) and terminated without benefits 10. However, if the committee members/members did not function as per ToR then issues should be discussed in the annual/quarterly meeting and if he/she want to resign can do so without benefits and shall not entertain in group in the future; 11. Any resignation and new comers name lists must report to DFO Office and Beat Office for updating of member list; 12. Above personal will not entertain in the group in the future.
---	---

18. NWFP group fund management and utilization	The group shall contribute 10% of the net price of NWFPs and Nu. 100/- per member annually, since the balance amount of the group fund is minimal, it will be retained un-utilized for another 5 years.
