Part A: NWFP management and marketing plan

1. Background

Ratey Pani is a small village under Gakidling Gewog. It is located at the northern part of the Gewog and shares the boundary with Tsirang Dzongkhag in the north and Shompangkha Gewog in the East, Singye Gewog in the west. The village has modern amenities such as electricity, mobile Network and farm roads. The major ethnic population is of Sherpa. They depend mostly on agricultural crops and livestock products. Orange is their main cash crop. Crops like maize, paddy, mustard and also grow vegetables like cabbage, cauliflower and beans both for their own consumption and sale.

Ratey Pani soft broom management and marketing group is formed by a group of 42 household from 3 different places of Tsangkha chiwog viz. Ratey Pani, Gumba Dangra and Deoti). The group was initially formed in 2014 with aim to market the soft broom grown in their private registered marginal land and adjacent to state forest land for generating income through the sale of brooms to support their livelihood. However, besides collection of brooms from their registered land, no additional state reserved forest land has been identified for collecting the brooms. During its second phase of plan revision on 25th December 2022, collection area has been identified and demarcated for proper management by the Group.

Currently there are 42 active households in the group who have pledged to work in group and further strengthen the group working system to get maximum benefits for the group members.

2. Goal

To enhance the social livelihood of the Groups and member households through scientific management, sustainable harvesting and marketing of NWFPs.

3. Objectives

- i. The objective of forming the NWFP group is to bring all the households of the community together for sustainable management and utilization of NWFP (soft broom) resources available in their locality.
- ii. To encourage plantation of broom grass in their registered land.
- iii. To generate additional income for the member households through sale of Soft Brooms for up lifting their living standard.
- iv. To assist in reducing poverty through sale of NWFPs.
- v. To create feeling of oneness among themselves in the community.
- vi. To ensure balanced development among the member households without compromising the resource sustainability in future.
- vii. To have equal access to resources by all member households.

4. Description of NWFPs

Generally, the availability and growth of any NWFPs in the area will depend on the type of forest present in the locality. Different NWFPs have different value in the market and its availability in the area also differs. Some are readily available in the area while others are scarce. Despite having other NWFPs in their area, the group member has decided to focus on cultivation of broom grass.

This is due to potential market for both domestic and commercial purpose at present and future as well. During the season, the group members harvest soft brooms and store the resources in a common place. Then the collected brooms are sold as a group product. Most of the time, the groups land up selling the product to middle men fetching them with low price.

Table 1. Brief description of NWFP for commercial harvesting

NWFP Name	Harvesting area(s) (name)	Parts harvested	Use purpose (Traditional others)	Harvesting season (months)	Estimated quantity that can be collected in each season
Kutchu (<i>Thysonolaena latifolia</i>)	Ratey Pani, Gumba Dangra, Deoti	Inflorescence	Broom & Fodder	December-March	2285 bundles

Table 2. Harvesting prescription for sustainable collection of Broom grass

Sl.No	Name of species	Harvesting prescription
1	<i>Thysanolaena latifolia</i> (Kutchu)	➤ Do not damage the rhizomes in order to allow natural regeneration ➤ Cut the matured stem right from base so that other parts can be used a fodder to cattle. ➤ Dry the inflorescences in the sun before making into broom ➤ Cut foliage, inflorescences with secateurs or sharp knife 15 cm above the ground. ➤ Do not damage rhizome to induce good regeneration. ➤ Light controlled fire is recommended to induce regeneration

5. Marketing and sales plan

The group has decided to harvest / collect the brooms from their individual area and they will store all harvested brooms to a common place from where it will be sold as group product. Individual records of the collected quantity of brooms brought will be maintained by the group committee members. When all the brooms have reached to common identified place the

Committee members will explore the market and sale the products. The first option is to sell the product in domestic market but they will export only if there are no buyers in the domestic market. Unfortunately, some time they land up selling to middle man at lower price.

Table 3. Marketing and sales plan

NWFP	Potential market	Estimated quantity for sale /season (unit)	Form of Products (dry/fresh)	Expected price/unit	Total (Nu)
<i>Thysanolaena latifolia</i> (Kutchu)	Domestic / Commercial	2285	Dry	35	
Total Revenue					79975
Total benefits to members in a year					79975/39 =2050.64
Actual benefits/members if work for maximum of 25 days					2050/25 = 82

6. Map of NWFP Collection area.

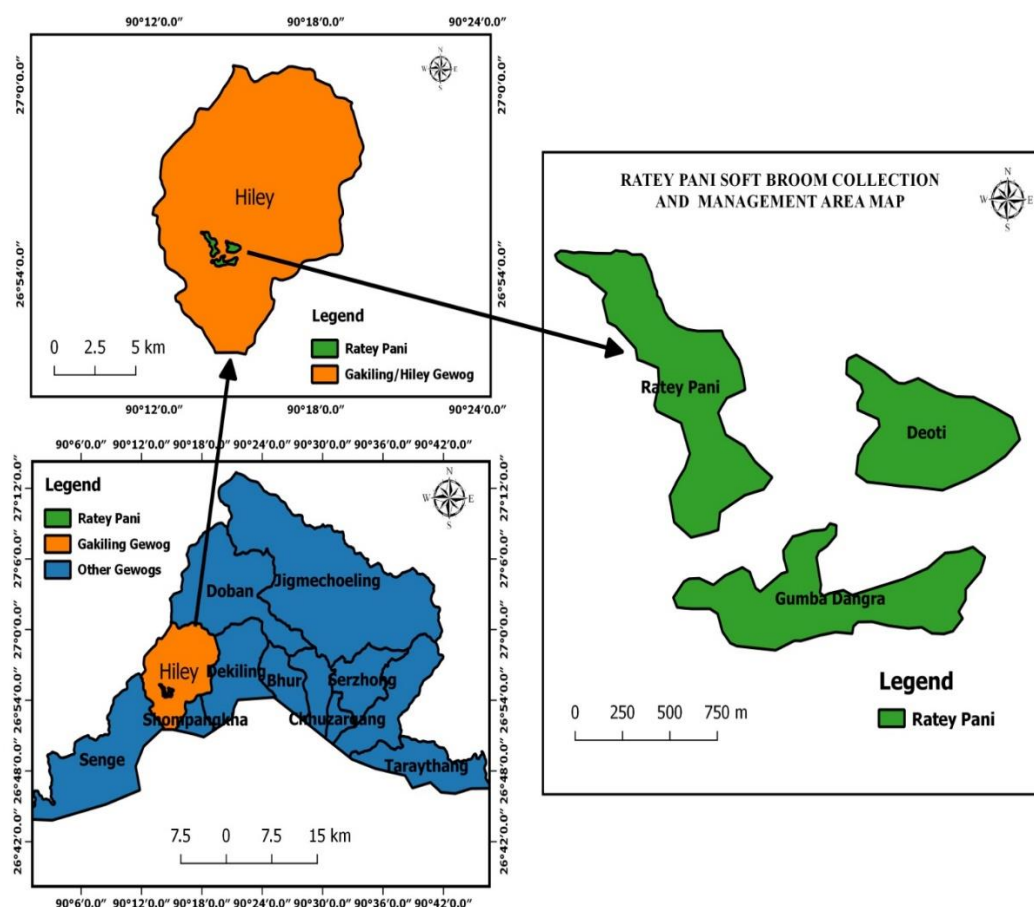

Figure 1. Map showing the NWFP collection area for Ratey Pani NWFP group

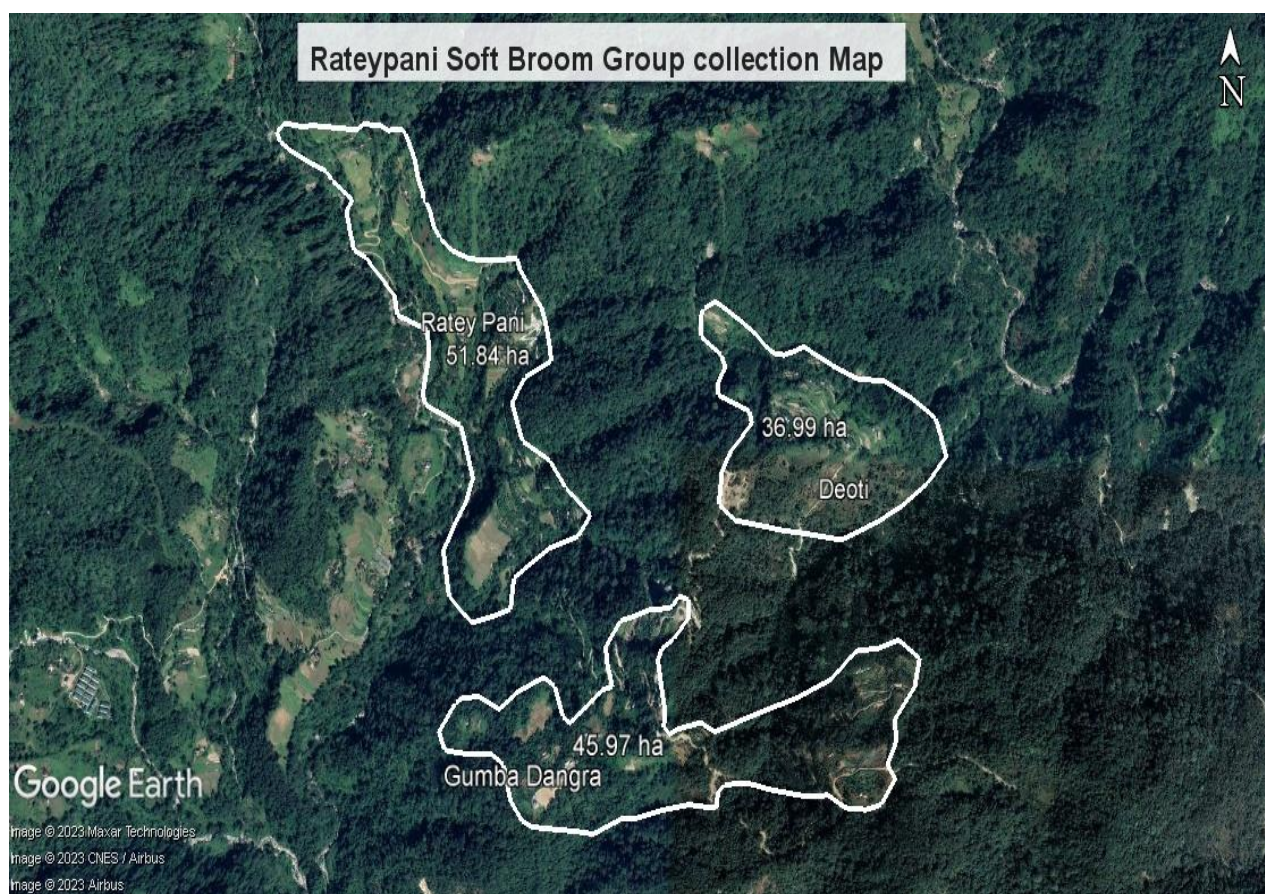

Figure 2. Google Map of Ratey Pani soft broom collection area

7. Marketing arrangements

The Chairman or the Committee members will announce the date for collection of brooms. Individual members will obtain collection permit from the chairman for collection of brooms from their individual land and hand over to the Chairman or the Secretary (any of the Committee member). The Chairman or the Secretary will keep record of quantity collected by each individual. All the collected NWFPs will be stored in one place. The CF Committee members will look for market in consultation with DFO Sarpang and local buyers for sale of products.

Table 4: Procedures for NWFP harvesting, marketing and sharing of income

Activity	Procedures
Harvesting of products	Broom will be harvested as per the harvesting prescriptions for sustainable harvesting as prescribed in table 2.
Postharvest practices	Brooms collected will be dried in the sun, cleaned and made into standard sized

Marketing of products	All the dried and cleaned brooms will be made into standard sized bundle after grading. Individual's quantity record is maintained. Then the small broom bundles are made into equal sized (equal number) head loads. They keep it staking and call open buyers and sellers in their area in consultation with Gewog Forestry In-Charge otherwise they take to local market like Gelephu/Sarpang.
Income sharing	The payment will be made to the members as per the quantity of collection made by them after deducting royalty, 10% contribution to Community Development Fund.
Raising of community development fund	Nu. 100 per member as the annual membership fee and 5% from individual sale of NWFP to Community Development Fund will be made in the account number of Ratey Pani NWFP Management and Marketing Group.
Payment to committee members for their service	2% for committee service charge payment

8. Benefits to the members

The benefits or the income from sale of Non-Wood Forest Product will be equally shared among the active members who have contributed for collection, transportation, seasoning and marketing of the products.

Table 4. Financial projection of benefits to the members from NWFP sales

Sl.no	Particulars	Products (Names)	Total Amount (Nu.)
		Broom	
1	Revenues		
a	Total quantity (unit)	2285	
b	Market price (Nu per unit)	35	
c	Total revenues from forest product sales (a*b)		
A	Total revenues		79975
2	Expenses		
a	Packaging materials	1000	
b	Royalty	500	
c	Transportation costs	1000	
d	Compensation fee to executive committee for marketing products	1500	
e	Contribution to community development fund	1000	
f	Incidental expenses	500	
B	Total expenses		5500

C	Total benefit (net-income) of group members (total revenues A – total expenses B)		74475
D	Average income to group members (C/ no of group members)		1909.61
E	Price per unit paid to group members (C/1a)		32.59

9. Benefits to the group

The cash earned through the sale of brooms will be paid to individual member according to the quantities of products sold after deducting all the expenses incurred in the process of marketing the products. The financial projection of benefits to the members from the sale of brooms depict the actual benefits (Total revenue) acquired by the group members.

Table 5. Financial projection of the benefits to the group, the community development fund

Sl.No	Particulars	Amount (Nu)
1	Revenues	
2	Membership fees	3900
3	Contribution to the Community Development Fund (CDF) from sales of Broom	1000
A	Total revenues	4900
	Expenses (only include expenses that will be paid from the group funds)	
	Permit fees/Royalty	500
	Annual Group meetings	
	Office stationeries	500
	CF visitors	1000
	Seedlings & Plantation	1500
B	Total Expenses	3500
C	Balance: Total revenues – total expenses	1400

Part B: Group's BY-LAW (Group Regulations and Norms)

10. Responsibilities and rights of NWFP group members
