PART A: NWFP MANAGEMENT AND MARKETING PLAN

1. Background

Thongjazor Yargay Pagshing Group was formed by Kencholing and Thangjazor communities under Kencholing Chewog, Shompangkha Gewog, Sarpang Dzongkhag. The group was initially formed in the year 2015 with seven board members to sell bamboo culms. It was named as Shawali bamboo and NWFP management and marketing group. However, during the revision of the plan, the members decided to name the group as Thongjazor Yargay Pakshing Tshogpa, based on the names of the villages. The main aim is to take up bamboo business as they foresee it as a potential resource to generate income for the households. There are 29 members in the group including the three elected executive members.

Currently, bamboo is mainly used in construction of temporary shade, making of handles for agriculture tools, fencing poles, fodder, shuttering & scaffolding in construction of concrete houses and production of limited household utilitarian products. Bamboo is also used as a raw material for weaving and making of decorative or handicraft items but only few of the members possess the traditional knowledge and skills. In a group, two members have the knowledge and skill in weaving Nanglo, ten members in weaving Dhoko and 10 households in making decorative items. The group members also collect bamboo shoots for making of Bamboo pickles for self-consumption.

From the bamboo resource assessment carried out in the communities it was found that every household owns at least 4 clumps of *Bambusa nutans* in addition to 26 clumps of same species in CF. Further, the group also owns 36 clumps of *Bambusa tulda* and 43 clumps of *Dendrocalamus hamiltonii* in CF. One household in Thongjazor owns seven clumps of *Dendrocalamus hamiltonii*. Based on the assessment, it is estimated that the group can sell 950 culms of *Bambusa nutans* and 350 culms of *Bambusa tulda* annually earning an average income of Nu.58900.00 and Nu.10500 respectively. Further, the culms production in clumps are expected to increase from second year through application of better management prescriptions. This will lead to earn better income to the households in the successive years. Besides marketing of bamboo culms, the group will also venture into products diversification to promote life skills and knowledges to the communities for sustainable livelihood improvements. Such initiatives are expected to be instrumental community vitality through engagement of youth.

With booming of construction activities in the area and other neighbouring Dzongkhags, the demand for bamboo poles is increasing annually. Also, the availability of traditional bamboo products for use in different purposes has decreased drastically over the years as only fewer people have skills in crafting and development of bamboo products. In order to produce bamboo culms and products at economy of scale, people of these two communities have united to become a formal bamboo culm, traditional and modern bamboo product suppliers for other communities and in the urban market. As per the resources assessment, there were 146 clumps of *Bambusa nutans*, 50 clumps of *Dendrocalamus hameltonii* and 39 clumps of *Bambusa tulda* available in the area.

During the first plan period, the group carried out plantation of bamboo and broom grass inside the community forest. Bamboo species such as *Bambusa nutans*, *Bambusa tulda* and

Dendrocalamus hameltonii were planted by the group to increase bamboo diversity in the CF area and to avoid monocropping in the locality. In the first plan period, the group brought LPG gas cylinder, rice cooker and stoves and distributed to members. Also, during the 2nd plan period, the group sold 50,000.00 worth bamboo culms to construction companies in Sarpang and Gelephu.

2. Goal

- To be a hub in supply of bamboo culms and its products.

3. Objectives

- To generate additional income from sale of bamboo products.
- To demonstrate bamboo utilization potential to younger generation.
- To demonstrate a sustainable management of bamboo clump.
- Increase bamboo species diversity in CF and in private registered land.

4. Description of NWFPs present in the area

Bamboo species such as *Bambusa nutans*, *Bambusa tulda*, *Dendrocalamus hameltonii* and *Meloconna braccifera* are found growing along the peripheries of private registered land. However, *Meloconna braccifera* was found only in Kecholing village and is of old little use to the communities at present.

The diversity of bamboo species inside the community forest are *Bambusa nutan*, *Bambusa tulda* and *Dendrocoalmus hameltonii*. However, community has little knowledge on utilization of *Bambusa tulda* and other two species are over exploited.

Table 1. Brief description of NWFPs for commercial harvesting for each season.

Bamboo products	Name of harvesting areas	Parts harvested	Use purpose (traditional & others)	Harvesting season (months)	Estimated quantity for harvest in a season/year
<i>Bambusa nutans</i> -culms	PRL & CF	Culms (3 years and above)	Scaffolding, shattering and construction	October to March	950
<i>Bambusa tulda</i> - culms	PRL & CF	Culms (3 years and above)	Furniture and decorative items	October to March	350
Nanglo	PRL and CF	1-2 years culms	Winnowing	December-March	30
Doko	PRL and CF	1-2 years culms	Carriage bag	December-March	30
Tokri	PRL and CF	1-2 years culms	Carriage bag	December-March	20
Flower stand/vase	PRL and CF	3years culms	Decorative	October-March	20

Photo frame	CF	3 years culms	Decorative	October to March	25
Miniature doko, Nanglo and Tokri	PRL and CF	1-2 years culms	Decorative	December to March	20
Pickle	CF	Shoot	Spices	July to September	600

5. Harvesting prescriptions for sustainable NWFP harvesting.

Table 2. Prescriptions for sustainable harvesting of NWFPs.

Bamboo products	Harvesting prescriptions for sustainable harvesting
Bamboo culms	Only 75 percent of matured bamboo culms will be harvested from the clump. Cut only from October to March month.
Bamboo culms for handicraft	Cut culms only from December to March. Harvest only by artisans to ensure collection of right age culms.
Bamboo shoot	Collect only in the month of July and August. Collect only shoots which are only 1 foot in height. Collect 100 percent of shoot from first flush. Collect only 75% of second flush. Do not collect shoot of last flush.

6. Marketing and sales plan

The group decided to sell bamboo culms only after grading. It will be graded into three categories. The price tagged for each grade of culms are; Grade I =Nu.75, Grade II=Nu.60 and Grade III at 50. Similarly, the group will produce two standards of handicraft and decorative items to feed for sell into market. Also, the group will make handicraft products based on sizes given by individuals to put their bamboo into use. To advertise the products, the executives will explore exhibition of products during local, Dzongkhag, regional and national events.

Table 3. Marketing and sales plan for the NWFP groups

NWFP	Potential market / buyer	Estimated quantity for sale / season (unit)	Form of Products (dry/fresh)	Expected price per unit	Total (Nu)
Bamboo culms	Current –Tsirang, Thimphu and Sarpang Future- Zhemgang, Trongsa, Bumthang, Wangdue and Punakha	950	Dry/fresh	Average price = Nu.62	58900
Bamboo culms	Bamboo furniture units	350	Dry/fresh	Average price Nu.30	10500

Nanglo (Flat rounded woven Tray)	Within Sarpang Dzongkhag with possibility to market in Tsirang, Wangdue and Punakha	For use-20		For use-800	16000
		Decorative-10		Decorative-500	5000
Doku	Within member and neighbouring villages	Large -20		Nu.600	12000
		Medium-15		Nu.500	7500
		Small-10		Nu.300	3000
Tokri	Vegetable and fruit seller	Big-10		Nu.450	4500
		Small-10		Nu.30	300
Flower stand	Gelephu, Sarpang, Tsirang	20		100	2000
Bamboo frames	Gelephu, Sarpang, Tsirang	50 different sizes		100	5000
Decorative items	Gelephu, Sarpang, Tsirang	20		100	2000
Bamboo Pickle	Sarpang, Gelephu	600		500g-80	24000
				250g-50	15000
	Total sale forecast in first year				165,700

7. Marketing arrangements

The marketing of any bamboo products will be done through the group despite of its origin. From individual registered land the owner will harvest the culms and reach at road side as instructed by the committee members. Production of crafts and pickle will be done by the smaller groups. The sub-group will deposit it to group committee for sale. It is the responsibility of the committee members to explore market accessibility and sell the products collected from the members. The executive members will also make deals with relevant organizations in identifying the sale outlets in urban market for sale of products.

During the first two years or so, payment to members will be done only after the sale of products. The committee will deduct 5% from total amount payable to an individual to raise group fund required for meeting the administrative cost and other overhead cost. Once the group has enough fund, payment to sub-group members will be provided in cash and the group shall accordingly maintain the records.

Table 4. Procedures for NWFP harvesting, marketing and sharing of income

Activity	Procedures
Harvesting of products	Harvesting of matured bamboo culms: From the community forest, the mature bamboo culms will be harvested in groups by CF members. However, from individual land, it is the responsibility of the owner to harvest and reach to the road point. From both CF and

	private land, only 75 percent of matured culms will be harvested each year. Harvesting of young culms for basketry work: it will be harvested by artisans to reduce damages to the growing culms.
Postharvest practices	Bamboo culms will be stored in collection depot to ensure supply at any time. Bamboo shoots will be sliced and place in salt brine to make it available at any time of the season.
Marketing of products	Advertise through social media. Identify sell agent in Sarpang and Gelephu with possible extension to nearby Dzongkhag.
Income sharing	70 % accrued amount will be shared among members on completion of the plan.
Raising of Group fund	Sale proceeds of 5% will be deducted from each member during the payment.
Payment to committee members for their services	Compensate Nu.500 annually to each committee member for their services provided to the group and the village.

8. Benefits to the members

The benefits or the income from sale of Non-Wood Forest Product will be equally shared among the active members who have contributed for collection, transportation and marketing of the products.

Table 5. Financial projection and benefits to the members from NWFP sales in first year

Sl. No	Particulars	Products (names)									Total Amount (Nu)
		Mal bans	Singhani bans	Nanglo	Doku	Tokri	Flower vase	Frame	Decorative items	Pickle

9. Benefits to the group members.

From the sale of bamboo culms and related products all members will be benefitted largely. The group will have fund that provides security to the members. Further, the group will also be able get bamboo products at economy of scale and sell it through single window fetching better prices.

The programs would also provide forum for youth and unskilled to take up bamboo life skills where by creating short term employment particularly to sub group members who will undertake pickling and bamboo carpentry.

Table 6. Financial projection of the benefits to the group

Sl. No	Particulars	Amount (Nu)
	Revenues	
1	Annual contribution	Nu.8700.00
2	Contribution to the Group Fund (GF) from sales of product 1	Nu.2945.00
3	Contribution to the GF from sales of product 2	Nu.210.00
4	Contribution to the GF from sales of product 3	Nu.987.5
5	Contribution to the GF from sale of product 4	Nu.699.99
6	Contribution to the GF from sale of product 5	Nu.465.00
7	Contribution to the GF from sale of product 6	Nu.100.00
8	Contribution to the GF from sale of product 7	Nu.125.00
9	Contribution to the GF from sale of product 8	Nu.100.00
10	Contribution to the GF from sale of product 9	Nu.1950.00
A	Total revenues	Nu.16282.49
	Expenses (only include expenses that will be paid from the group funds)	
	Voucher allowance payment to executive members	Nu.1500.00
	Simple lunch during group's annual meeting	Nu.8000.00
	Refreshment during bamboo plantation and maintenance work in CF	Nu.3000.00
	Office stationaries	Nu.1000.00
	Miscellaneous	Nu.500.00
B	Total Expenses	Nu.14000.00
C	Balance: Total revenues – Total expenses	Nu.2282.49

This has been calculated based on current stock of bamboo available in the field. However, as the group has already planned to bring bamboo clumps under better management system, the yield is expected to increase by 25%. Also, the sale of the basket and handicraft items would increase by 30% from third years onwards as more artisans will be trained in the group.

10. Work plan for the first year

The approved management plan shall be valid for a period of five year and during the plan period, the members will be harvesting different NWFP species as reflected in this plan with implementation of proper harvesting techniques and prescriptions. The group members will not only harvest the resources but will also plan activities that shall support them with future harvesting of species as well. For sustainable harvesting of Bamboos, the members shall actively participate in the plantation of bamboo sapling in the already harvested areas for future use. The detail plan and activities are provided in the table 7.

Table 7. Annual Work Plan for implementation of the activities

Activity	Target	When	Responsibility	Collaborator
Plantation of bamboo (Mal bans, Bam bans, Balu bans) in open area inside CF.	M.bans-48, B. bans-5 B. bans-5	May 2 nd year	Group	Sarpang Forest Division to look for Bam bans

PART B: GROUP'S BY-LAWS

11. NWFP management & marketing group

<i>Membership arrangement and resignation</i>	Both new Gung holder and new settlers in Thonjazor and Kencholing village will be given an opportunity to join group upon completion of plan period. However, they will have to pay membership registration fee of Nu.1500.00 and Nu.3000.00 respectively. They will have to submit application addressing to the chairperson of the group. Once verified and found eligible, office order will be issued and circulated to members in the group. Similarly, a member resigning from the group will also have to submit resignation letter addressed to the chairperson of the group. Upon verification of the application the secretary of the group will issue office order of his or her resignation. A member leaving the group without any genuine reason will have no right to bargain for payment of any share form the group. However, those leaving genuine reasons are eligible to claim 100% share from the group fund.
<i>Responsibilities and rights of members:</i>	Submit application for both joining and leaving the group. Not eligible to claim benefit without any genuine reasons. Leaving due to genuine reasons are eligible to claim 100% of their share.

12. Executive committee of NWFP management and marketing group

<i>Chairperson</i>	Name and contact no. Ram Lal Golay (77444997)
	<i>Responsibilities:</i> ➤ Chair meetings related to this plan. ➤ Prepare plans ➤ Coordinate the activities with relevant agencies ➤ Explore the market for products and maintain contact with the buyers. ➤ Resolve conflict arising in the groups. ➤ Take action for offender ➤ Attend official meeting when called. ➤ Explore funding sources.
<i>Secretary</i>	Name and Contact No: Sancha Maya (77471893)
	<i>Responsibilities:</i> ➤ Support chairperson in planning and advice in decision making. ➤ Provide information related to meetings/group activities to the members. ➤ Keep records of bamboo and products brought by members ➤ Keep minutes of meetings and distribute to the members. ➤ Draft letter and submit to chairperson for signing. ➤ Maintain record of groups. ➤ Explore market for products. ➤ Arrangement of venue and hospitality for group activities/meetings. ➤ Prepare monthly/annual report and present in meetings.

	➤ Send a reminder letter to defaulter-non-payment of annual contribution.
<i>Treasurer</i>	Norbu Tamang (77261879) <i>Responsibilities:</i> ➤ Collect registration and annual contribution ➤ Present financial statement of the group in meetings ➤ Maintain bamboo and product sales record. ➤ Collect fines and penalties and deposit in bank. ➤ Deposit and withdraw money from bank. ➤ Maintain cash deposit and payment receipt. ➤ Submit name list of defaulters to chairperson.
<i>Tenure of committee member</i>	Elected committee will serve for a period of five years
<i>Incentives to the committee members</i>	Annually pay Nu.500 to meet voucher expenses.

13. Sources for generation of group fund

<i>Membership registration fees.</i>	One time membership registration fees will be collected only from new members joining the group in addition of annual contribution from date of joining the group.
<i>Annual contribution</i>	The present member will annually contribute Nu.300.00 to the group. Contribution will be collected for the period of five years.
<i>Collection from sale proceeds.</i>	In order to raise group fund to meet expenses for different activities the treasurer will deduct 5% from the amount payable from different product sold by the group

14. Group fund management and utilization

<i>Saving of group fund</i>	For the management of fund, the group will open joint account with Bank of Bhutan, Sarpang. Payment to members and suppliers will be done only in cheque. From the fund raised by the group, 5% will be allotted/used to meet office expenses in a year.
<i>Process for withdrawing of group fund</i>	Fund deposited in bank, can be withdrawn by authorise signatories. Further, the committee has right to make decision to withdraw money based on the ceiling agreed in the plan. Chairperson=5000 Committee=20,000.00 Withdrawal of amount of more than that has to be approved by the general members.
<i>Utilization of fund</i>	Group fund will be used solely to make payment to members, resources development and meeting expenses to run office. Percentage of fund to be used for different purposes are;

	10% to meet administrative cost. 5% for NWFP resource development. 5% as a welfare to members during natural calamities. 5% as a welfare to disadvantage members in the group/in village.
--	--

15. Meeting and purposes

<i>Adhoc Meeting</i>	The Committee will meet twice a year excluding adhoc meetings to convince during emergencies. It will be conducted in the month of May to plan activities for the year and in January to discuss the progress of the group.
<i>General Meeting</i>	The group will conduct general meeting once a year. It will be conducted in the month of February every year. The members will raise their concern regarding issues confronted during activity implementation.

16. Conflict management and resolution

<i>Conflict resolution</i>	Conflict or dispute between members will be solved by Chairperson of the group. Conflict or dispute between committee members will be solved by representative members.
----------------------------	--

17. Penalties

<i>Resignation of members without genuine reasons</i>	Members leaving the group without any genuine reasons are not eligible to claim financial or any other benefit from the group. Further, he/she will not be allowed to join group later. However, if his son or daughter has desire to join, they will be accepted a new member following the procedures prescribed in the plan.
<i>Payment of annual fee after the deadline</i>	The members will contribute an annual fee of Nu.300.00 to the group. It will be collected in the month of July every year either in cash or transfer through banking app with screen shot sent to accountant within one week. If the deposit is not made within 1 st week of July, defaulter will be charged Nu.50 daily as penalty. If they do not pay within one month (July) a notice of termination from membership will be sent to the individual.
<i>Failure to attend the meeting</i>	If the member does not attend meeting, they will have to pay a fine of Nu.500.00. Also coming late in the meeting will be seriously viewed. If they are late by 10 minutes a fine of Nu.100 will be collected and after that Nu.500 will be applied.
<i>Misuse of group fund by members</i>	In case, if a committee members misuse group fund, they will have to pay a penalty of 500 per day. After detection he/ she will be given a time of one week to repay the misused amount. If unable to pay within the given time period, he/she will be terminated from the group without any benefits.

<i>Collection of Bamboo in offseason</i>	A member found collecting bamboo culms during restricted seasons will be fine Nu. 100.00/culms. This amount will also be applied to outsider with seizure of bamboo
<i>Collection of bamboo before the collection time</i>	Members collecting bamboo shoot before deciding the collection timing by the group will be fine Nu.100/shoot. Same amount will be levied to outsider with seizure of product by the group.
<i>Failure to shoulder the responsibilities</i>	If selected committee do not carry out the responsibilities mentioned in the plan they will be expelled from the post and elect new member. It is the sole responsibility of member to carry out activities planned in the plan. For that every member should shoulder their responsibility with positive attitude. The age of the individual representing any member shall be of 15 year and above. Also, in order to ensure equal work area coverage, an area will be assigned to each member by the committee.
<i>Penalty for members attending meetings with alcohol consumption</i>	Drunken person will not be allowed to attend any meeting and will directly impose a fine of Nu.500.00 as penalty

18. Support

<i>Support to poor from the group</i>	Provide 21 poles at free of cost to households during death cases.
---------------------------------------	--
