Part A: NWFP management and marketing plan

1. Background

Jigmechoeling is one among 12 Gewog under Sarpang Dzongkhag. The Gewog covers total geographical area of 472 sq. km with its altitude range from 1200m to 2000m above the sea level. It shares geographical boundary with Trongsa Dzongkhag in the North, Chudzom geog in the west, Zhemgang Dzongkhag in the east and Sershong and Gelephu gewog in the south. There are 6 chiwogs with total population of 5238 dwelled in 535 households in 13 villages (Gewog, 2012). Gongduegang is one among 6 chiwogs which encompasses multi-ethnic groups from various socio-economic backgrounds. Among all, 55 interested households from Galeychu, Simkharka, Ashney, Gongdara, Kholatar and Daragoan (A) has applied to form NWFP Management and Marketing Group for collecting locally-available high-priced NWFPs species (8 species) from their settlement proximity for income generation.

Earlier in 1990s, people had better social livelihood through cultivation and sale of oranges and Cardamom. During those days cardamom and oranges was their main sources of incomes till 1990s. However, after 1990s, rampage outbreak of Cardamom epidemic had completely jeopardized the main source of their income until now and Citrus greening effects on the existing oranges have further worsened the livelihoods of the people like in Gongduegang chiwog (PRA 2013). Thus, social livelihood of the people had experienced paradigm shift with major focus towards livestock rearing and agricultural crops. Knowing the growing demand and good price for the NWFPs both in the Regional and International market, the People of Gongduegang had proposed to form a group for collection and sale of NWFPs from their local forest to earn subsidiary income for the poor people. Average people during the early 1990s were now marginalized due to the lack of appropriate income sources, thus resulted in to rural urban migration. Therefore, NWFP Management and Marketing group formation was initiated to add cash income through sale of NWFPs and enhance their social livelihood without compromising the sustainable management of the natural resources.

A total of 9000 acres of forested area covering Deoralidara and Malagay dara in the north, Gophidara in the east, Kalamati and Kholaha in south and Remaldara-Japhu and Devikholcha in the west situated within the warm broad-leaved forest nearby their settlement areas were handed over to 55 households as their NWFP collection area. Geographically, area faces towards south east within the slope gradient ranges from 20-45degree. NWFP species were mostly found in pocket/sporadic area where it is dominated by Tsoe (*Rubia cordifolia*), Lambu pipla (*Piper longum*), Dolo Pipa (*Piper pedicellatum*), Kawla (*Persea gamblei*), Patsa (*Plectocomia himalayana*) Jungle pan (*Piper hamiltonii*), Siltimbur (*Litsea cubeba*) and Choyabans (*Dendrocalamus hamiltonii*).

Therefore, formation of NWFP marketing group would certainly improve their social livelihood development through cash income generation, capacity development; ensure balance socio-economic development within the community without compromising the sustainable management of forest in the future.

2. Goal and objectives:

2.1 Goal

Enhance the social livelihood of the Group members/Households through Scientific management, sustainable harvesting and marketing of NWFPs

2.2. General Objectives:

The objective of forming the NWFP group is to bring all the households of the community together for sustainable management and utilization of NWFP resources available in their locality.

2.3. Specific Objectives

- i. To generate additional income for the member households through sale of NWFPs for up lifting their living standard.
- ii. To assist in reducing poverty through sale of NWFPs
- iii. To create feeling of oneness among themselves in the community
- iv. To ensure balanced development among the member households without compromising the resource sustainability in future
- v. To have equal access to resources by all member households

3. NWFP Marketing and Management Group collection area Map

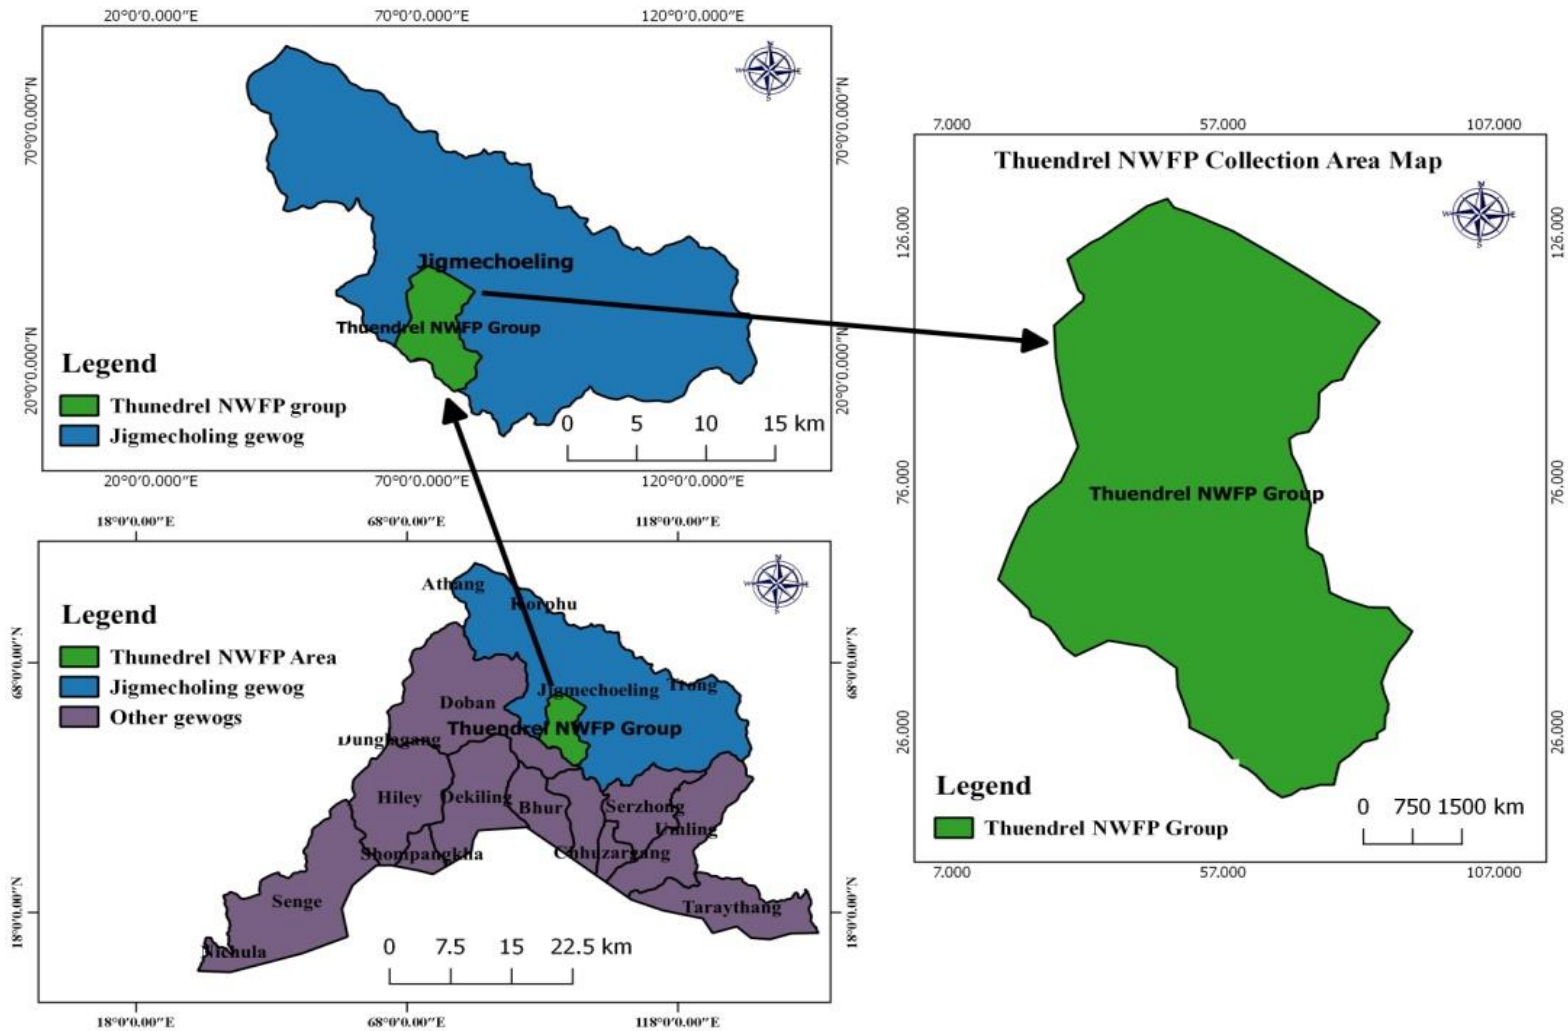

Figure 1. Map of collection area for Thuendrel NWFP Group

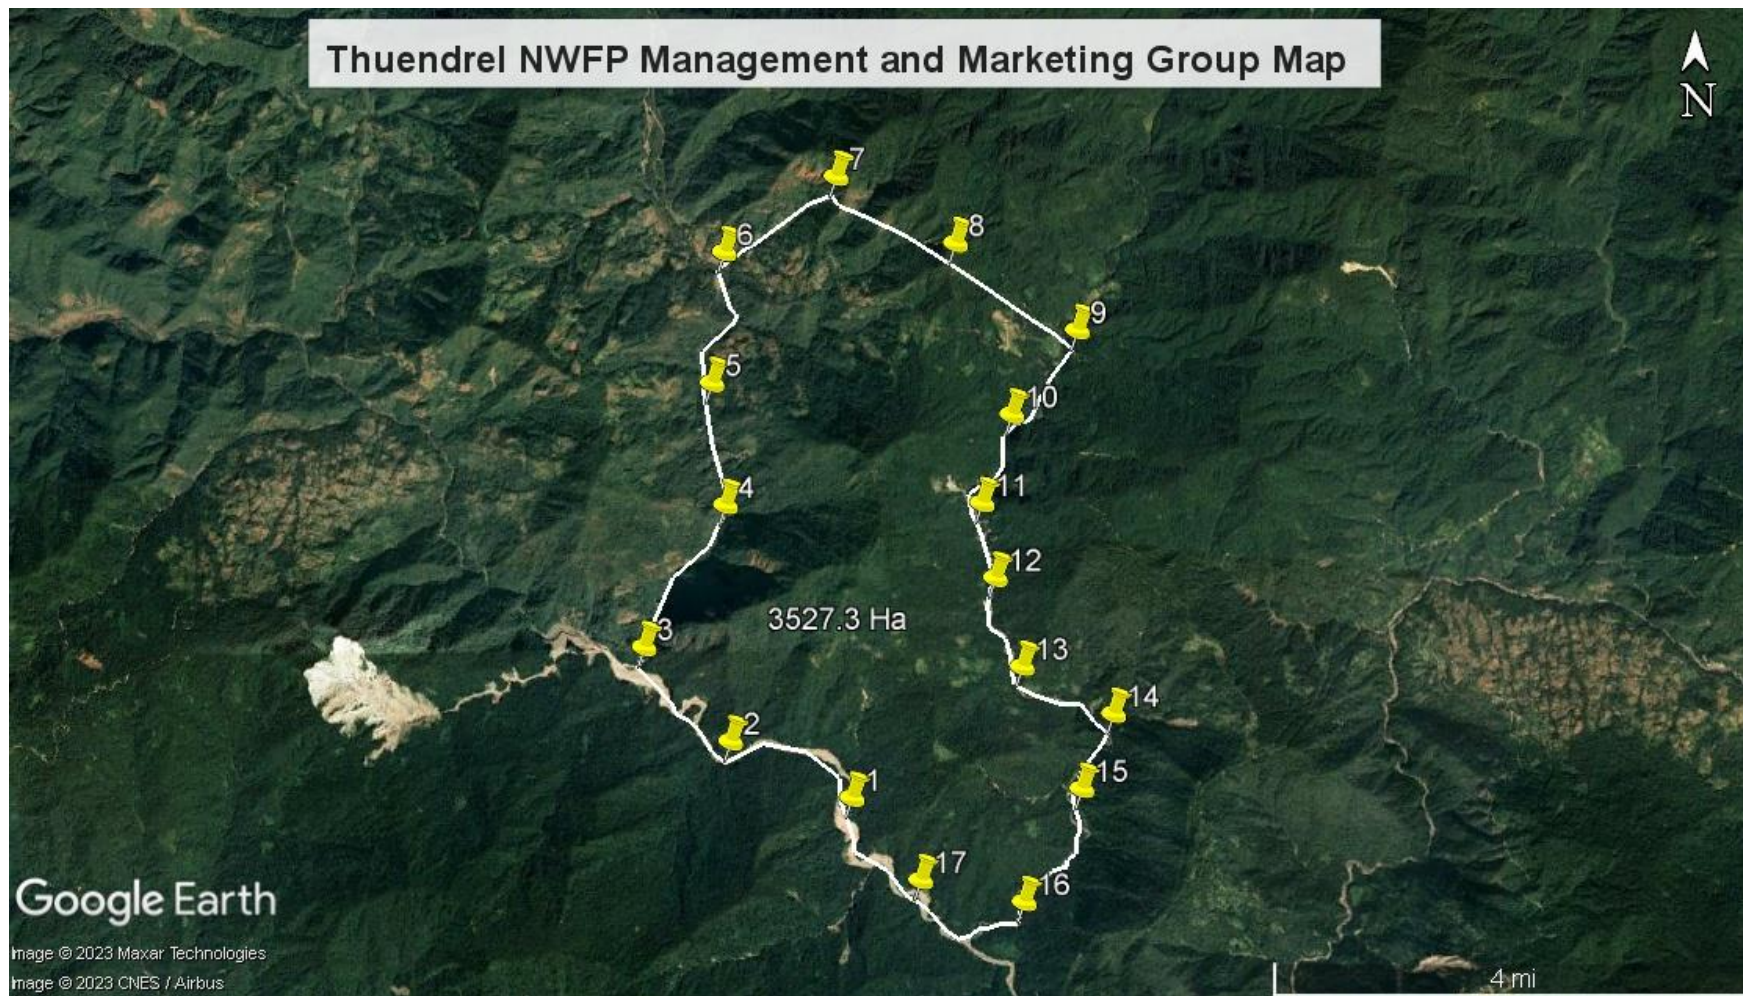

Figure 2. Google Map of NWFP group showing the boundary demarcation

4. Description of NWFPs present in the area demarcated for management by the group

The types of forest, determines the growth and availability of different species of NWFPs in the area. However, in case of Thuendrel NWFP Group, *Thysanolaena latifolia* (Kucho), Mushroom, *Dipazium esculentum* (Nakhima), (*Musa spp*) banana blossom, *Calamus latifolius* (Cane), Round Pipla, Long Pipla, Majito, Kawlo, Siltimbur, Orchids/Suuna Khari, Shekhari lara and Harchuul are some of the commercially viable NWFP species found growing scattered within their designated area. Table below depicts about the detail description of available NWFP species. The availability of NWFPs differs since all are seasonal crops which have different time of its maturity so people can earn cash through the sale of NFPs almost year round.

Table 1. Brief description of NWFPs for commercial harvesting.

NWFP Name	Harvesting area(s) (name)	Parts harvested	Use purpose (Traditional others)	Harvesting season (months)	Estimated quantity that can be collected in each season
Round Pipla (<i>Piper pedicellatum</i>)	Bhangkharka	Fruits	Medicinal	Mid July to Mid-September	300kgs
	Bhalujawke				200kgs
Long Pipla (<i>Piper longum</i>)	Galeychu	Fruits	Medicinal	Mid-March to Mid-April	1500kgs
Majito (<i>Rubia cordifolia</i>)	Gongkhola, Devichu, Bhai paney khola	Entire plants	Dye, medicine	Nov-Feb	2000kgs
	Gongdara				1100kgs
Jungle Pan (<i>Piper hamiltonii</i>)	Gongkhola, Birgoan	Leaf	Stimulants	All year round	250bunches
	Simkhara, Galeychu, Gongdara				1250 bunches
Patsa (<i>Plectocomia himalayana</i>)	Remaldara	Shoots/mature stems	Vegetables	Mature stems: Nov-March, Shoots: April-August	250 bunches
	Simkhara				250 bunches
Kawla (<i>Persea gamblei</i>)	Birgoan	Bark	Incense/Adhesives	Oct-Feb	200kgs
	Simkhara				200kgs
Sil timbur (<i>Litsea cubeba</i>)	Gongdara, Simkhara	Fruits	Medicines/spices	August	300kgs
Kutchu (<i>Thysanolaena latifolia</i>)	Gongdara, Ashney, Khola Tar, Birgoan	Entire plants	Broom & Fodder	December-March	500 bundles

Choya Bans (<i>Dendrocalamus hamiltonii</i>)	Galeychu	Shoots	Vegetables	For culms: Nov-Feb For shoots: June-Sept	1200kgs
Shekhari lara	Ashney, Simkharka, Geleychu	stem	medicines	July-October	100kgs
Suuna Khari (Orchids)	Galeychu, Ashney, Simkharka	Flower/ inflorescence	Medicines/ Vegetables	June-September	50kgs
Harchuul (<i>Viscum articulatum</i>)	Simkharka, Ashney, Geleychu	stems	Medicines	June-September	50kgs
Nakima (<i>Tupistra nutans</i>)	Simkharka, Ashney, Geleychu Khola tar, Gongdangra	Inflorescence/ Flower	Vegetables	October-November	150kgs

4. Harvesting prescriptions for sustainable NWFP harvesting

Table 2. Harvesting prescriptions for sustainable harvesting of NWFPs.

Sl. no	NWFP species	Who	Where	When	What	How (Harvesting Prescription)
1	Round Pipla (<i>Piper longum</i>)	NWFP Group members	Thuendrel NWFP collection area	Mid-March to mid-April	Fruits/Spikes	1. Collect fruits only when fully mature. 2. Harvest fruits only when date of harvesting is announced by the Chairman 3. Harvest fruits only by hand picking without damaging, cutting or uprooting the entire plant
2	Round Pipla (<i>Piper pedicellatum</i>)	NWFP Group members	Thuendrel NWFP collection area	Mid-July to mid-September	Fruits/Spike	1. Collect fruits only when fully mature. 2. Harvest fruits only when date of harvesting is announced starting date for harvesting is announced by the chairman. 3. Harvest fruits only by hand picking without damaging, cutting or uprooting the entire plant
3	Majito (<i>Rubia cordifolia</i>)	NWFP Group members	Thuendrel NWFP collection area	Nov-Feb	Entire plant	1. Use sharp scissors for the harvesting of the upper part of the plant. 2. Cut the plant at 5 cm above ground level. 3. Leave at least 10% of the plants without collecting or harvesting any raw materials from them (these plants shall act as seed plants for natural regeneration). 4. Do not collect roots. 5. Do not uproot entire plants
4	Jungle Pan <i>Piper hamiltonii</i>	NWFP Group members	Thuendrel NWFP collection area	Throughout year	Leaf	1. Collect leaves only by hand picking without damaging the climber and its tender buds. 2. Harvesting of leaves from a single (same) climber shall be allowed to maximum of 4 times per year. 3. Collect at maximum 80% of the leaves from a single climber.

						4. Do not cut down the host tree to ease harvesting 5. Do not uproot or cut down the entire climber.
5	Patsa/Cane (<i>Plectocomia himilaya</i>)	NWFP Group members	Thuendrel NWFP collection area	Mature stems: Nov-March For shoots: April to August	Young shoot/ mature stem	For mature stems 1. Cut cane stem only when mature, to be recognized by: 2. Loosening of leaf sheath from the lower part of the cane stem 3. Exposure of lowest part of the stem For cane shoots 1. Cut young shoot by bending the cane stem with the help of a hook long and strong using sharp knife. 2. Do not cut tree climbed cane for shoot. 3. Care shall be taken to avoid damaging sucker buds.
6	Kawla (<i>Persea gamblei</i>)	NWFP Group members	Thuendrel NWFP collection area	October till February	Bark	1. Collect only bark from trees with a DBH of more than 10 cm. 2. Collect the bark in strips with a maximum of 6 cm in width without damaging the cambium layer. 3. Strip the bark from down to up to avoid damaging the roots. 4. Harvest a maximum of two trips per tree trunk from opposite sides. 5. Do not damage the cambium layer of the tree while stripping off the bark. 6. Do not strip off the tree bark for 4 years after the first harvest from the same tree (it takes a tree about 4 years to heal / recover from stripping). 7. Collect the bark every four years from opposite sides of the same tree.

7	Siltimbur (<i>Litsea cubeba</i>)	NWFP Group members	Thuendrel NWFP area	August; Harvest when the fruit turns black	Fruits	1. Harvest fruit by handpicking or lightly lopping of outer branches 2. Do not cut the trees for harvesting the fruit
8	Kutchu <i>Thysanolaena latifolia</i>	NWFP Group	Thuendrel NWFP area	Dec-March	Upper parts, inflorescence	1. Cut the foliage, inflorescence at 15cm from the ground 2. Do not damage the rhizomes in order to allow natural regeneration.
9	Choya Bans (<i>Dendrocalamus hamiltonii</i>)	NWFP Group	Thuendrel NWFP area	For culms: November to February For shoots: June-September	Young shoot	For culms: 1. Cut culms above one node from the ground level 2. Do not cut culms less than one year old 3. Retain 50% of healthy culms from a clump 4. Harvest culms in condensed / congested clump in “U” or horseshoe form. 5. Use otherwise single Culm selection method 6. Do not harvest the culms growing on the periphery of the clump. For shoots: 1. Collect bamboo shoots to a maximum of 25% from a clump 2. Cut bamboo-shoots with a sharp knife at the ground level without damaging or wounding the other healthy ones 3. After cutting and collecting the bamboo-shoot, cover that void place with top soil 4. Protect the remaining shoots and let them further develop into Culm

5. Marketing and sales plan

The members of the Group have agreed to collect the following major NWFPs species which has potential for both domestic and commercial purpose. Based on the demand and availability of market, the NWFPs will be collected and marketed annually. The details of sale projection plan of the group are as shown below:

Table 3. NWFP Marketing and sales plan

NWFP	Potential market	Estimated quantity for sale per season (unit)	Form of Products (dry/fresh)	Expected price per unit	Total (Nu)
Round Pipla (<i>Piper pedicellatum</i>)	Domestic / Commercial	130kgs	Dry	200	26000
Majito (<i>Rubia cordifolia</i>)	Domestic / Commercial	700kgs	Dry	50	35000
Jungle Pan (<i>Piper hamiltonii</i>)	Domestic / Commercial	2000 bundles	Fresh	10	20000
Siltimbur (<i>Litsea cubeba</i>)	Domestic / Commercial	300kgs	Dry	50	15000
Patsa /Beth (<i>Calamus latifolius</i>)	Domestic / Commercial	1000 pieces	fresh	80	80000
Kutchu (<i>Thysanolaena latifolia</i>)	Domestic / Commercial	500bundles	Dry	30	15000
Bamboo shoot	Domestic / commercial	1500nos	fresh	100	150000
Nakima (<i>Tupistera nutan</i>)	Domestic / Commercial	50kgs	fresh	100	5000
Total Revenue					346000
Total benefits to members in a year					346000/57 =6070.17
Actual benefits/members if work for maximum of 15 days					6070/15days =404.67

6. Marketing arrangements

The Chairman or the CF Committee members will announce date for Collection of NWFPs. Individual member will collect and the Chairman or the Secretary will keep record of quantity collected by each individual. All the collected NWFPs will be stored in one place. The CF Committee members will look for market in consultation with DFO, Sarpang for sale of Products.

Table 4. Procedure for NWFP harvesting, marketing and sharing of income.

Activity	Procedures
Harvesting of products	NWFPs will be harvested as per the harvesting prescriptions for sustainable harvesting as prescribed in table 2.
Postharvest practices	Collected NWFPs will be dried in the sun and packed in the cartoon box/sacks/plastics after weighing its quantity.
Marketing of products	All the dried Non-Wood Forest products will be collected and weighed individually as per species by management members. They will call open buyers and sellers in their area in consultation with Gewog Forestry In-Charge.
Income sharing	The payment will be made to the members as per the quantity of collection made by them after deducting royalty, 10%contribution to Community Development Fund.
Raising of community development fund	Nu. 100 per member as the annual membership fee and 5% from individual sale of NWFP to Community Development Fund will be made in the account number of Thuendrel NWFP Management and Marketing Group.
Payment to committee members for their service(compensation)	2% for committee service charge payment

7. Benefits to the members

The benefits or the income from sale of Non-Wood Forest Product will be equally shared among the active members who have contributed for collection, transportation, seasoning and marketing of the products.

Table 5. Financial projection of benefits to the member from NWFP sales.

Sl. no	Particulars	Products (Names)								Total Amount (Nu.)
		Round Pipla	Majito	Jungle Pan	Siltimbur	Patsa	Kutchu	Bamboo shoot	Nakima	
1	Revenues									
a	Total quantity (unit)	130	700	2000	300	1000	500	1500	50	
b	Market price (Nu per unit)	200	50	10	50	80	30	100	100	
c	Total revenues from forest product sales (a*b)									
A	Total revenues	26000	35000	20000	15000	80000	15000	150000	5000	346000
2	Expenses									
a	Packaging materials	2000	2000	1000	2000	1000	2000	1000	1000	
b	Royalty	2000	2000	1000	500	1500	1500	3000	100	
c	Transportation costs	300	500	500	500	1000	2000	1000	300	
d	Compensation fee to executive committee for marketing products	520	700	400	300	1600	300	3000	100	
e	Contribution to community development fund	1300	1750	1000	750	4000	750	7500	250	
f	Incidental expenses	1000	500	500	500	500	1500	2000	500	
B	Total expenses	7120	7450	4400	4550	9600	8050	17500	2250	60920
C	Total benefit (net-income) of group members (total revenues A – total expenses B)	18880	27550	15600	10450	70400	6950	132500	2750	285080
D	Average income to group members (C/ no of group members)	331.22	483.33	273.68	183.33	1235.1	121.92	2324.56	39.47	
E	Price per unit paid to group members (C/1a)	145.23	39.36	7.8	34.83	70.4	13.9	88.33	55	420.02

8. Benefits to the group

The financial projection of benefits to the members from NWFP sales depicts the actual benefits (Total revenue) acquired by the group members through marketing of listed NWFP species after deducting the all the total overhead expenses.

Table 6. Financial projection of the benefits to the group, the community development fund.

Sl.No	Particulars	Amount (Nu)
1	Revenues	
2	Membership fees	5700
3	Contribution to the Community Development Fund (CDF) from sales of Broom	750
4	Sil Timbur	750
5	Patsa	4000
6	Majito	1750
7	Jungle Pan	1000
8	Round pipla	1300
9	Choya Bass(Bamboo shoot)	7500
10	Nakima	250
A	Total revenues	23000
	Expenses (only include expenses that will be paid from the group funds)	
	Permit fees/Royalty	11600
	Annual Group meetings	2000
	Office stationeries	2000
	CF visitors	1000
	Seedlings & Plantation	3000
B	Total Expenses	19600
C	Balance: Total revenues – total expenses	23000 – 19600 = 3400

Part B: Group's BY-LAW (Group Regulations and Norms)

9. Responsibilities and rights of NWFPs Members

- ✓ The group shall work for the interest of NWFP management and marketing group
- ✓ The group shall remain conscious about the resource sustainability for future generation and any harvesting activities will stringently comply as per harvesting guidelines prescript in this management plan
- ✓ The group should explore market for the agreed NWFPs and signed as per NWFP agreement protocol
- ✓ All group members should attend meeting (Annual/Quarterly/Emergency) voluntarily and with enthusiasm
- ✓ Ensure and maintain quality products during the time of sale.
- ✓ The fund in the bank can withdraw by committee member only after the common consensus with group member where the decision will be taken during Annual NWFP Meeting
- ✓ Act as per the NWFP management and Marketing plan.
- ✓ Maintain co-operation among the members
- ✓ Contribute manpower during harvesting, marketing & enrichment activities.
- ✓ Right to elect as well as terminate Chairman, Secretary & Treasurer
- ✓ Collect NWFP in group as per management plan
- ✓ Attend any meeting/training/workshop/study tours without fail
- ✓ The group shall remain conscious about the resource sustainability for future generation and any harvesting activities will stringently comply as per harvesting guidelines prescript in this management plan
The group when required should explore market for the agreed NWFPs and signed as per NWFP agreement protocol
- ✓ All group members should attend meeting (Annual/Quarterly/Emergency) voluntarily and with enthusiasm when requires
- ✓ Ensure and maintain quality products during the time of sale.
- ✓ The fund in the bank can withdraw by committee member only after the common consensus with group member where the decision will be taken during Annual NWFP Meeting
- ✓ Act as per the NWFP management and Marketing plan.
- ✓ Maintain co-operation among the members
- ✓ Contribute manpower during harvesting

10. Responsibilities of the Executive Committee Members

Secretary	Name of Secretary: Jeewan Gurung, Village: Galeychu Contact No: 77488156
	➤ Chair the meetings in the absence of the Chairman. ➤ Provide assistance to the Chairman. ➤ Maintain records and keep minutes of the meeting ➤ Assist the Treasurer in maintaining the cashbook and bank

	- book ➤ Check the quality of the products and maintain the standard of the NWFP products. ➤ Maintain entire records (quantity collected, harvested records, sale record) ➤ Prepare annual progress reports of any other reports of group ➤ Exchange official correspondences ➤ Maintain stock registers for group ➤ Disseminate latest market information ➤ Resolve the boundary disputes in collaboration with coordinator ➤ He/she is the joint signatory (Chairman, Treasurer) for mobilization from the bank.
<i>Treasurer</i>	Name of Treasurer: Mr. Dil Bdr Gurung, Village: Mendrelgang Contact No: 77679175 ➤ Maintain cash transaction records ➤ Present accounts status during Annual group meetings. ➤ Attend the auction with other members of executive committees ➤ Serve as secretary when absent ➤ Collect the fine and penalties jointly with Chairman, Secretary, and deposit in the group account ➤ Maintain all the sale records of listed NWFPs species during the auction. ➤ Maintain financial records of quantity collected & quantity sold ➤ Collect permit fees and deposit to bank ➤ Co-sign with coordinator while withdrawing from the group fund (Bank) ➤ Collect all contribution/donation and deposit to group account ➤ Maintain all records of withdrawal & deposit of group fund ➤ Inform the members regarding the financial status during the annual group meeting. Deal any procurement associated to group and maintain record accordingly
<i>Tenure of committee member</i>	➤ The above Executive Member will serve for 5 years
<i>Incentives/Compensation to executive committee members for marketing</i>	➤ No salary will be paid to Chairman, Secretary and Accountant. However, a lump sum Nu.2500/-will be given when he/she go for any work related to Group. No financial support, when they go on trainings, workshops, meetings and study tour.

11. Membership registration and resignation

<i>Membership</i>	✓ Any individual with census, tharm no. House no. and is a resident of the same chiwog/Community are eligible to be a member of the group without paying any membership fee during the plan revision exercise or within one month after the approval of plan (Certificates awarded) ✓ However individual opting to join the group within 1 year of its approval
-------------------	--

<i>Registration of New members</i>	he/she has to pay Nu.500/member and then Nu.1000/ member if the individual joins the group within 2nd year of its approval. Nu.1500/member if the individual joins the group within 3rd year of plan's approval. ✓ There shall be no concession/consideration for the son(s) and daughter (s) of the existing members wanting to join the group. Also, they should have census, thram, House no. registered in the chiwog. ✓ All members of the group shall pay a sum of Nu.100/- as membership fee annually.
<i>Resignation of Members</i>	✓ Any member of the NWFP group can resign at his/her own will after submitting written application to the Chairman stating his/her problems and it should be endorsed in the general NWFP group meeting. ✓ Name list and detail information of the resigned member should be reported to DFO, Sarpang for updating the member list. ✓ For those members resigned due to death, health condition, single headed family will be eligible for their shares from the group account. However there should be Bank balance of more than Nu.30, 000/- (Nu.Thirty thousand) in the group saving account otherwise no payment will be made to any member resigned due to above mentioned reasons.

12. Fund arrangement and utilization

<i>Community development fund</i>	1. Nu. 100 of the sale values of NWFP Products shall be deposited directly to the group account and rest shall be used by the respective individuals. 2. Donation and contribution received from outsider shall be directly deposited in group account 3. No utilization of group fund for the first 3 years, however, at time if more than two members resign from the group, their share shall be debited from the group account and rest shall be given their shares through contribution among the members. 4. All the fines and penalties imposed and accumulated shall deposit in the group account upon maintaining the bank receipt 5. All the products seized/confiscated during the patrolling will be sold by the executive members and the money earned shall be deposited in group account. 6. Mode of fund utilization will be decided during annual general meeting. Review and planning meeting will be conducted every six months.
<i>Movement and export of NWFPs</i>	Movement and export of NWFPs (Chapter III, section 160 till 162 of FNCRR 2017 and amendment 2020) 1. The Department may approve the export of any NWFP and its products from the state reserved forest land. For those species listed in the schedule approved by Ministry. 2. NWFP originating from registered land/private forest/community

	forests shall be allowed for export with proper transit permit issued by the CFO after verification 3. Upon obtaining export permit, the applicants shall process for Material Transfer Certificates and Phytosanitary Certificates from the relevant agency 4. Groups/ traders/ exporters shall obtain a clearance from BAFRA as per rules.
--	--

13. Conflict Management

<i>Conflict Management</i>	➤ Disputes within the NWFP Collection Group members shall be forwarded to Chairman/Coordinator for settlement. If it is beyond his capacity, he will seek help from the near forest office and then forward the case to Gewog Administration for settlement. ➤ In case disputes or conflicts arises with the communities with regard to access to certain areas for NWFP collection; the matter shall be forwarded to the Gewog Tshogdey (GT) by the Chairman and if unresolved then forwarded to DFO, Sarpang for further settlement ➤ In case there is a conflict between the NWFP Collection Group and outsiders, the case shall forward to the nearest Beat Office/ DFO and Gewog Administration by the Chairman. If the case not able to settle at DFO level it will be forwarded to Court.
----------------------------	--

14. Meeting

<i>Annual General Group Meeting</i>	1. The group will meet once a year (January) and however if needed, Chairman/coordinator has a right to call general meeting at any time. During the general meeting following points will be deliberated: 2. Present physical and financial status and progress report 3. Deliberate on challenges and constraints encountered during entire working day and come up with appropriate solutions to address those issues 4. Work planning for forth coming year 5. Review of past minutes and resolutions 6. Endorsement of new member as well as resignations Meanwhile, at least 2/3 of members must consent to adopt as resolution for the groups.
<i>Executive Committee Meeting</i>	Executive meeting will be held any time depending upon the need by the NWFP group
	1. The timeframe for the NWFP Management & Marketing plan shall be for a period of maximum 5 years.

<i>Time frame</i>	2. Harvesting permits shall be issued annually/ per season based on the NWFP Management & Marketing plan and provided the resources are available. The NWFP management & marketing group may become a community forestry group, farmers' group or cooperative, wherever feasible and successful.
-------------------	--

15. Power of the Department

<i>Powers of the Department</i>	The Department has provisional right to exercise NWFPMG based on the chapter III, section no.155 of FNCRR 2017 and amendment 2020 The Division/Park shall: 1. On the request by the NWFPMG, take action against violator of the Act, Rules or Management plan; 2. Department shall issue “NWFP Management Certificate” as per section 143 3. Inspect, monitor review the records of and otherwise supervise the activity of the NWFPMG Take action including cancellation of NWFPMG certificate, if the NWFPMG or any of its members who violet the provision of the management plan or any provision under this chapter.
<i>Cancellation of NWFP Management Certificate</i>	Cancellation of NWFP Management Certificate (Chapter III, section 156 of FNCRR 2017 and amendment 2020) 1. The certificate shall be cancelled, if the performance of the NWFPMG is not as per prescriptions of the approved management plan or the sustainability of the resources is not ensured. 2. In the event the member of the NWFPMG decide to cancelled NWFP management certificate in accordance with this rules, the NWFP management certificate shall be deemed cancelled on the date of such decision being notified to CFO in writing and the NWFPMG shall surrender the certificate to the Department. The Range Office shall have the right to enquire about the reason for such cancellation to ensure that no offense has been committed and shall notify the NWFPMG on the cancellation of the certificate.

16. Membership Registration of Thuendrel NWFP Management and Marketing Group

Table 7. List of NWFP Group members.
