## PART 1: NWFP Resource Management and Utilization Plan

### 1.1 Introduction

Non-wood forest products (NWFPs) consist of goods of biological origin other than wood, derived from forests, other wooded land and trees outside forests (FAO, 1999), mainly represented by forest fruits, mushrooms, ferns, and medicinal plants. NWFPs represent a genuine resource base for development, providing income to support livelihoods and promoting rural economies. Historically, a wide range of products from forests have been used by people of Bhutan. It plays an off-farm activity and offer a lifeline for many rural Bhutanese people. However, the development of forest management has focused on timber, thereby marginalizing other forest products. Therefore, the interim framework for management and marketing of NWFPs was developed by DoFPS in December, 2011 mainly to strengthen the sustainable management and marketing of NWFPs.

Kabesa Gewog is one of the largest Gewogs under Punakha Dzongkhag, located 11 km away from Khuruthang town towards north. The majority of the Gewog area is covered with mixed broad leave forest which made an area rich in NWFPs. Tongzhuna Chiwig is located about 10 km away from Serigang village which is connected by a feeder road. The village now have modern facilities like, farm road, mobile network, electricity and ECCD. Tongzhuna Chiwig is one of the five Chiwig under Kabesa Gewog which depends heavily on NWFPs and thus threatens the sustainability of NWFPs in that area. The NWFPs found in and around their community are mushrooms, tong (*Docynia indica*), wangpem (*Tupistra nutans*), Yonten Dem (*Luculia gratissima*), tsoe (*Rubia cordifolia*), pipla (*Piper pedicellatum*) and ferns (*Diplazium spp*) which they collect seasonally. Therefore, they come up with a proposal to establish NWFP group for better utilization of NWFP that not only benefits the sustainability but also equity in resource sharing.

Therefore, with technical assistance from forest officials of Kabesa Beat Office, NWFPs group was formed for communities of Tongzhuna Chiwig. The group is managed by 61 households (HH) and they have named the group as Tongzhuna Namrub Shingmen Tshokpa.

This NWFP management plan contains two part. Part 1 is about NWFPs management and utilization and Part 2 contains By-Laws of this management plan.

## 1.2 General Background of NWFP Management Area and Group

The NWFP Management area falls under Cool Broad-leaved Forest and about 11 NWFPs are found within the NWFPs harvesting area. The Non-Wood Forest Products found in and around their community are Mushrooms, Namdha, Wangpem, Yonten Dem, Tsoe and ferns which they collect seasonally. Tongzhuna Namrub Shingmen Tshokpa covers an area of 678 Hectares excluding all the private lands and it will be managed by 61 HH of villages from Togzhuna and Zabesa Chiog of Kabjisa Gewog under Punakha Dzongkhag.

## 1.3 Legal Status of NWFP and Legal Rights of the NWFP Group Members

The proposed NWFPs management area falls under State Reserve Forest of the Royal Government of Bhutan and all the members of Tongzhuna Namrub Shingmen Tshokpa members has rights to access the NWFP resources and fulfil their basic needs, provided that they obtain permit from the Department of Forest.

With approval from Department, the NWFP Group shall manage the NWFPs as per the provisions of the Interim Framework for Collection and Management of Non-Wood Forest Products. After handing over of the management area, the NWFP Group members shall extract all the available NWFPs within the NWFP area as per the sustainable harvesting guidelines. However, the management plan will be reviewed based on the requirements after every five years as per the framework.

## 1.4 Management Objectives

The objectives of NWFP group are as follows:

1. To generate income through sale of NWFPs to improve rural livelihood of the village.
2. For sustainable harvesting and management of NWFP in and around their community.
3. To protect NWFPs in their community from exploitation by outsiders

## 1.5 Description of NWFPs

Lists of NWFPs for commercial harvesting within the area

| Sl. No | NWFP name                                  | Collection area                                               | Parts harvested | Use purpose (traditional & others) | Harvesting season (months)                         | Estimated quantity that can be collected |
|--------|--------------------------------------------|---------------------------------------------------------------|-----------------|------------------------------------|----------------------------------------------------|------------------------------------------|

| South      | Sana La                           |

## 1.9 Map of the Tongzhuna Namrub NWFPs Group

### 1.10 Monitoring, Review, Evaluation and Reporting

The three executive members shall conduct monitoring of the activities at the NWFP Group level and shall ensure that annual planned activities are initiated and progress report will be submitted to the concerned forest office and will present during the general assembly. The Gewog Beat Office will always provide technical support and will monitor the plan activities from time to time based on requirement. The Forest Office shall monitor the overall NWFP development activities from time to time and they will conduct reviews of the annual NWFP activities, accounts and procedures.

The NWFP Management plan will be reviewed after three years to incorporate the activities which were overlooked during the initial planning stage. And also, with the requirement an evaluation will be conducted in the last year of the plan period and recommendations will be incorporated in the next plan.

## PART 2: BY-LAWS – GROUP REGULATIONS AND NORMS

|                                                      | Village                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | No. of Member household | Gewog   |

- Work in close coordination with executive members in implementing NWFP management plan.
- Manage, protect and utilize the NWFPs on sustainable basis.
- Actively participate in the trainings and group development meetings.
- Protect the NWFPs resources from illegal activities.

#### 2.4 Marketing

To promote Tongzhuna Namrub Shingmin Tshogpa's enterprise is to initiate and produce a good quality of products, and to keep links with potential buyers and providing sustainable marketing guidelines. Till the group finds potential buyers, members can sell their products directly in the market like before group formation. Once the group found a potential buyer for particular products, following procedures shall be followed by the group.

- The NWFPs will be collected by the three executive members from the individual harvesters and will be gathered together till the collected quantity is enough for sale.
- The collection centre will be decided and will be informed by executive members after discussion with buyers
- If the produce collected were more than the demand, executive members should ensure that the equal amount of produce is taken from every member who collected the produce.

#### 2.5 Fund Raising

The NWFP Management Group has decided to explore group fund from following sources:

- Through the sale of NWFPs.
- Through collection of membership fee.

- Through fines and penalties from illegal doers and absentee from the NWFP developmental works.
- Contribution and donation from other agencies and organizations.
- Through interest rate from the loan repayments.

#### 2.6 Fund Management and Utilization

- The common fund shall be deposited in the NWFP Groups' Account maintained with the nearest Financial Institution.
- The three executive members will be paid Nu. 600 as daily allowance for any matters benefiting the group members.
- The group has agreed that a minimum amount of Nu. 60,000 (sixty Thousand) will be kept in the bank.
- The group decided that 10 percent interest rate per annum would be charged if group members avail the loan facilities.
- The group has decided that a maximum amount of Nu. 25,000.00 (Twenty-Five Thousand) only shall be loaned out on a case by case basis and the member shall avail for only once a year. The maximum period for loan repayment shall be one year.
- If loan amount is not sufficient for the members, equal amount will be shared within members applying for loan.
- If any individual fails to repay loan on time, executives will submit the letter to Gewog and Forest Officials for settlements.
- It was agreed that the group shall not lend money to outsider.
- Any person wishing to borrow money from the group must put up an application to the executive members and decision would be taken in general assembly.
- Group members also decided to contribute for charity purposes in the village.

#### 2.7 Benefit Sharing

All the NWFP Group members of Tongzhuna Namrub Shingmen Tshokpa will get equal share of NWFP products and income generated from the sale of NWFPs. The

NWFP Group members also need to contribute equal labour force and other contributions for the development of NWFP Group. In case, any member fails to attend meeting and contribute labour force for the NWFP Development activities will have to bear the equal penalties. And some of the specific benefits sharing are as follow:z

- If Chairman, Secretary and Treasurer have to do work in the interest of group will get Nu. 600 per day. However, if other agent/organization had provided TA/DA lesser than Nu. 600, he/she will get addition from the group to make it Nu. 600 per day. If provided with Nu 600 or more per day, then he/she will not get from the group.
- *Resups*, while doing area inspection upon order from executives will be paid Nu. 500 per day.
- Messenger will be paid Nu. 250 per year as voucher allowance for disseminating information.
- First hand informer of any illegal activities will be rewarded with 10% of fine imposed for that particular illegal activity.
- The group members shall look after the welfare of sick old and needy people of the group if needed.
- The group would assist the needy parents and bear the school fee and other expenditures for one year for the child who is willing to attend the school or is already attending the school.

### 2.8 Meetings

- The group members decided to hold the meeting thrice a year, but additional meetings will be held with the genuine needs.
- The general assembly shall be held between 1<sup>st</sup> to 15<sup>th</sup> January.
- Messenger shall inform about the annual meeting ahead of two days. However urgent meeting can organize ad-hoc.
- The Treasurer shall chair the assembly in the absence of Chairperson and Secretary.
- Every decision in the assembly shall be passed with 2/3 of the majority votes.

- The member shall be allowed to attend the meeting only if he/she comes within 15 minutes from the scheduled time of the assembly, after that he/she shall pay late fee.

#### 2.9 Authority of the Group Members
