Part A: NWFP Management and Marketing Plan

Introduction

The Kamati Pipla Management and Marketing Group was formed in 2015 with the technical support from erstwhile Dzongkhag Forestry Sector, Zhemgang Dzongkhag with funding support from Rural Livelihood Project (RLP) and drawn the management plan for a duration of five years from 2015-2020. The group had 25 households, however six households has resigned from the membership and currently the group has 19 households as members. The group manage and collect the Pipla from an area of 13.35 acres consists of 10 blocks in the vicinity of their village. The community has access to basic amenities like Out Reach Clinic (ORC), farm road, telecommunication, shop, and Community Lhakhang.

The management and marketing plan is drawn for five years and during the plan period, Zhemgang Forest Division (ZFD) and Social Forestry and Extension Division (SFED) will provide technical support to the group in sustainable harvesting of the product and monitor the plan activities based on this management plan.

Objectives

The following are some of the objectives of the group;

1. To enhance the livelihood of the group members through sale of NWFP.
2. To harvest the NWFP through proper management prescription.

Brief description of NWFPs for commercial harvesting

Pipla (*Piper pedicellatum*)

It is a perennial plant growing upto 1-2 meter in height and has a thick greenish leave. The plant has a unisexual reproduction unit with male and female plants and only female plant bears fruits. Pipla grow widely under the canopy of broadleaf forest or open area at an altitude 200-2200m. The plant thrives best in damp and moist soil with good shade. Fruit start ripening in August to September.

The management group will collect the Pipla from 10 blocks as given in the map below;

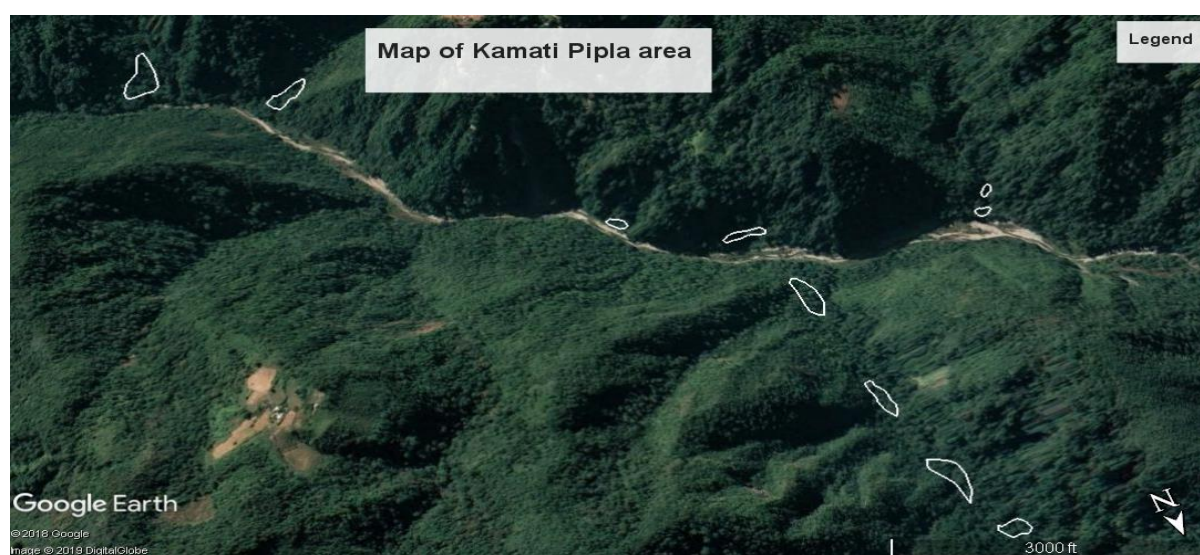

Figure 1: Pipla collection area

Distance of collection site from village

The distance of Pipla collection site from the village as shown below;

Village	Collection area	Distance from village	Total area(Acres)
Kamati	Redigang	2 km	0.26
	Brokpri Damba	2 km	1.78
	Rakdhang Demba1	2.3 km	0.32
	Rakdhang Demba2	2.5 km	1.32
	Rakdhang Demba3	3 km	2.01
	Rongti	3.5 km	0.98
	Engri Duth1	2 km	0.85
	Engri Duth2	1.5 km	0.49
	Engri Duth3	1 km	2.07
	Tsha lie tae	1.6 km	3.27
Total			13.35

Harvesting prescription for sustainable NWFP collection

The group will apply scientific principles and appropriate techniques as per management guidelines of collection of Pipla. The chairperson will collect permit from Bjoka Beat Office in the name of Kamati NWFP Management and Marketing Group and inform the members to proceed for harvesting. The communities will move in group in the designated collection areas for harvesting of Pipla. Only two persons from each household will be allowed to collect Pipla.

The sustainable harvesting will be ensured through proper monitoring by the executive members and Bjoka Beat Office.

Table 2: Harvesting prescription

NWFP species	Harvesting prescriptions for sustainable harvesting
Pipla (<i>Piper pedicellatum</i>)	• Harvest only fruits by hand picking without damaging, cutting or uprooting entire plant. • Harvesting will be done in August to September as per the announcement of chairperson. • Collection will be carried out strictly in designated areas as per management plan.

	• Harvesting will be carried out when it is fully matured as per NWFP guideline. • Collect fruits only when fully mature. • Harvest fruits only after the announced starting date for harvesting that are usually in September. • Harvest fruits only by hand picking without damaging, cutting or uprooting entire plant.
--	---

Marketing and sales plan

The Pipla will be marketed based on demand by the buyers in the country. The quantity, prices and value of sales will be depending upon the current market rate. The market rate of the product is based on the price fetched by the group in the previous plan period and determined as tabulated below;

Table 3: Marketing and sales plan

NWFP	Potential market	Estimated quantity for sale per season(unit)	Estimated price per unit(Nu)	Total amount
Pipla (<i>Piper pedicellatum</i>)	KNC, ITMS, Gelephu and Phuentsholing	190 Kg/season	150/kg	28,500/-

Marketing Arrangements

The following are the marketing plan of the group.

- Collected fresh Pipla will be handed over to committee members for processing until the product is ready for sale.
- Marketing will be done by committee members after completion of processing works; 10% of the gross amount will be given to committee members and 5% of total sale amount will be deposited to Group joint account maintained with BDBL, Panbang as group fund. The account will be maintained by committee members.
- 5 % of total sale will be used for making payment for transporting the products to the road point.

- To assure smooth functioning of business, dealers will be arranged by the committee members. The chairman and Bjoka Beat Office will monitor and explore the demand from nearby institutes, agents, companies and other business groups. For further arrangements, the support will be sought from Range Office Panabng and Zhemgang Divisional Forest Office.

Benefit to the members

The income will be equally share among members as soon as product is sold in the market. All members will be given equal rights to collect Pipla products ensuring the future sustainability. The group agreed that when the fund accumulates more than two hundred thousand, the fund will be used for community ritual ceremonies, supporting poor and disaster affected households in consultation with the group members.

Participatory monitoring

To ensure that the NWFP group is in line with the management plan prescriptions, annual monitoring will carry out by the Zhemgang Forest Division. The mid-term review of the management and marketing plan will be carry out after two and half years from the date of approval of this management plan and annual review in 4th quarter of the fifth year.
