NOTESHEET

Sub: Approval of Non wood Forest Products Management and Marketing Plan

The Non wood Forest Products are the significant source of livelihood to the rural communities in the country. Accordingly, to ensure sustainable management and collection of resources, the management and marketing plans has been developed by communities of Raynang, Lauri Gewog, Samdrupjonhkhhar and Rukha Nagtshel Thuenken Tshogpa, Athang Gewog, Wangdue facilitated by forestry officials of respective park office. The main objectives of the plans are:

- 1) To generate income for members through sustainable collection of NWFPs.
- 2) Protection of NWFPs collection areas from illegal activities.
- 3) equal sharing of resources among members.

In accordance with Forest and Nature Conservation Rules and Regulations (amended) 2020 Chapter III section 142(7) approval needs to be sought from the Ministry.

Submitted for approval.

Submitted by,

(Karma Jigme Tenzin)
Chief Forestry Officer

Recommended for Approval

Ministry of Agriculture and Forests

PART A: NWFP RESOURCES MANAGEMENT AND MARKETING

1 Background

Rukha Nagtshel Thunken Tshokpa was established on 14th May, 2009 and was renewed and approved until 2020. The group was formed by four communities of lower Atang, Rukha, Lawalango, Megtina and Sambrang. There are 72 households registered as member. The group formation was technically and financially supported by Park Range Office, Taksha under Jigme Singye Wangchuk National Park. However, cane resource assessment was carried out with technical support from Social Forestry and Extension Division, Thimphu.

The mentioned villages falls under Athang Gewog, Wagduephodrang Dzongkhag. It is located 50 km away from the Dzongkhag head quarter and remotest of 15 gewogs under the dzongkhag. It is located at four to five hours walking distance from Taksha Zam (Park Office). Recently the villages are connected by farm-road diverted from Wangdue Tsirang high way. Further, construction of new bridge over Punatshangchu and Harachu made the two Chewogs of Rukha and Lamga to have access to market their agricultural products.

People in the villages practice traditional agriculture. They grow cereals crop such as paddy, wheat, barley, foxtail and finger millet. Also vegetables such as sag, chilli, brinjal etc are also grown to meet household consumption. Few household in the villages owns cash crop such as mandarin, guava, banana and mango. However, these are merely to meet household consumption. The same households are also a member of cold water fishery group formed by the livestock sector, Wangdue. While such group formation was to increase household income from sale of smoked fish but implemented by few household of Samthang, Megtana and Rukha due to religious sentiment and lack of skills. Lamgo household are least benefitted as they lack skill in making fish trap.

Dependency on Non wood Forest Products has long history in Adha Rukha area. Still today, people collects diverse of NWFPs for household consumption and for sale to make cash income. During the previous plan period every household could make an average annual income of Nu.And raise group fund Nu.....Further, the members are trained and possess skill in production of different cane and bamboo products. In order to facilitate sale of products formation of NWFP management and marketing group is indispensable.

The RNTT Plan will be valid for five years from the date of approval and management plan handed over to the RNTT group. After completion of the plan period, it shall be reviewed and revised as per the need and demands of the community and within the framework of NWFP management of DOFPS.

2. Overall objectives for management and marketing of NWFPs

1. To improve the livelihood of local community through sustainable management, harvesting, utilization and marketing of NWFPs.
2. To protect from illegal harvesting by outsiders
3. To enhance income through marketing of NWFP products.
4. Equitable benefit sharing amongst all members
5. Poverty alleviation.

3. NWFPs Recourses and their Description

The suitable climatic conditions favours growth of diverse Non wood Forest Products (NWFPs) in four communities of Adha-Rukha. Out of that, the group will be managing five different types of NWFPs (Table 1) found growing within the areas designated for management purpose.

Table 1- Description of NWFPs for commercial harvesting

NWFP Name	Harvesting area(s)	Parts harvested	Use Purpose (traditional & others)	Harvesting season(mont h)	Estimated quantity to be collected / year
Aroo,Harra,Black myrobalan (<i>Terminalia chebula</i>)	Nazhina, Kashicheko, Thaphu, Lawa, daye, Samthang, Migtena, Rukha and Lamga. Refer annexure II for area detail)	Fruits	Medicine, Incense	November onwards (fruits start falling on the ground)	1740kg
Amla,Churoo,Ch orgensay (<i>Phyllanthus emblica</i> or <i>Emblica officinalis</i>)	Kashicheko, Thaphu, Lawa, Daye, Samthang, Migtena, Rukha and Lamga (Refer annexure II for area detail)	Fruits	Medicine Vitamin C	November to February, fruits has highest ascorbic acid content in February.	1700kg
Patsha,Phegkray, Tokri, Damley,Tara,Dho raybet, (<i>Plectocomia himalayana</i>)	Morichu, Sirirangu, Panglema and Dabjiphu	Matured stem and young shoots	Young shoots-vegetable; matured cane - handicrafts	Winter time for mature stems	Shoot-Matured cane-
(Moo) <i>Calamus latifolius</i>	Chimzam & Silima	Matured cane	Matured cane-handicrafts	Winter time	Cane-
<i>Tseem</i>		Matured	Matured cane-	Winter time	Cane-

(<i>Calamus acanthospathus</i>)		cane	handicrafts		
Tsoy, Majito, Lanyiroo (<i>Rubia cordifolia</i>)	Samthang, Rukha, Lamga and Migdana(Refer annexure II for area detail)	Entire plant	Dye, Medicine	November to February	1527 head loads
Pani, Pan (<i>Piper betleoides</i>)	Samthang, Daye(Refer annexure II for area detail)	Leaves	Stimulant	Throughout the year	420 head loads

4. General Guidelines and Management Prescription

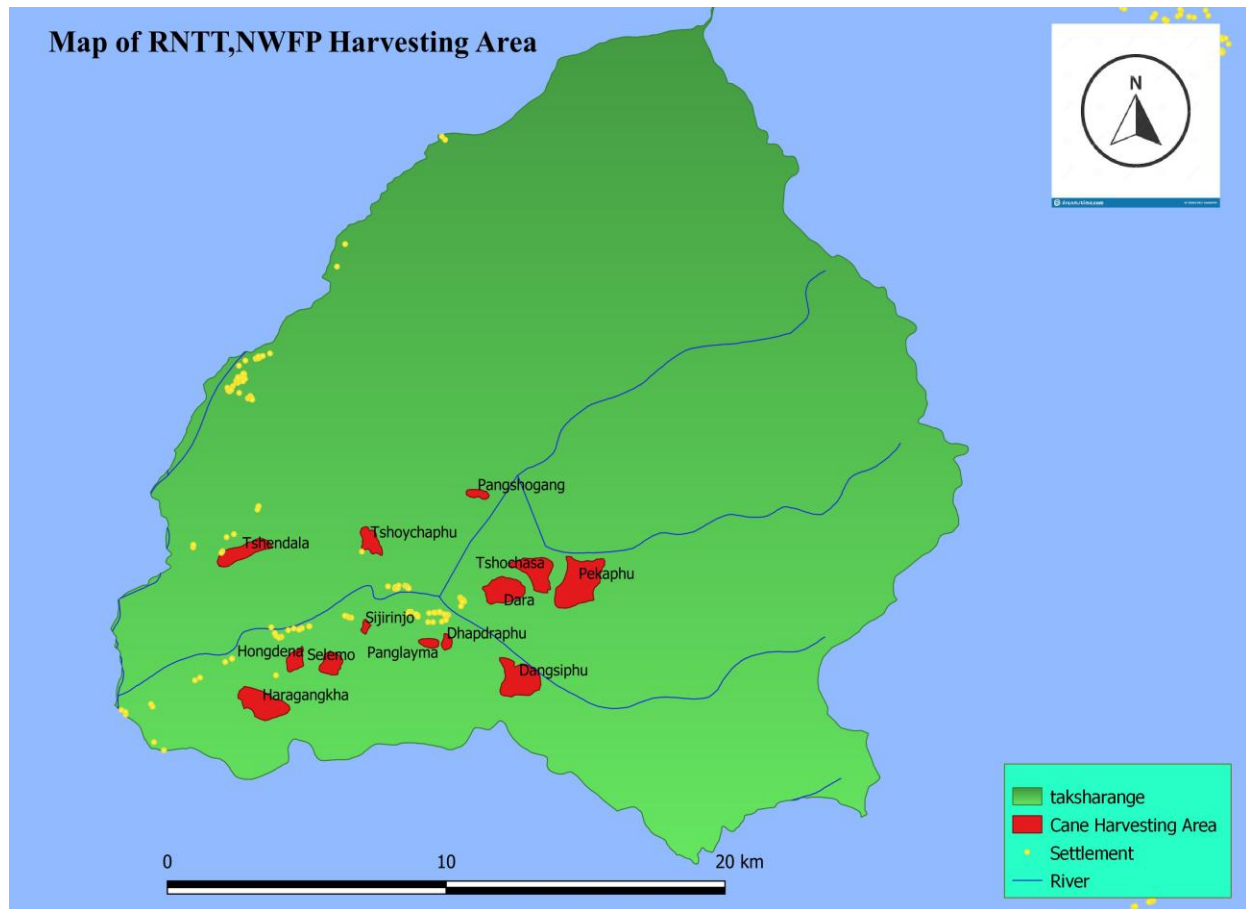

- During the shooting season of Canes and any other plant seedlings, grazing of cattle's is strictly prohibited.
- Wilding of plant seedlings and Cane are allowed unless discuss and decided in the General meeting.
- The harvesting of NWFPs resources beyond the prescribed quantities and areas will not entertained.

Table 2- Sustainable Harvesting for Prescription Management

NWFP species	Harvesting prescription for sustainable harvesting
<i>Terminalia chebula</i> (Aroo)	- Collect the fallen fruits from ground Collect about 75% of the fallen fruits and leave at least 25% to allow natural regeneration
<i>Phyllanthus emblica</i> (Amla)	- Harvest fruits by shaking the tree , handpicking and /or use bamboo poles with a hook - Do not cut down trees for the harvesting of fruits
<i>Plectocomia Himalayan</i> (Pasha) <i>Calamus latifolius</i> (Tseem) <i>Calamus acanthospathus</i> (Moo)	For mature stems - Cut cane stem only when mature. - Pull down as much of the stem as possible (avoid leaving cane parts high up in the tree) - Cut only canes which measures a usable length of at least 10m. - Harvest in winter months. For cane shoots - Cut young shoot by bending the cane stem with the help of a hook. - Do not cut the entire cane to collect the shoots. Cut the leading shoot with a sharp knife diagonally (not straight in order to avoid rotting of the remaining stumps) leave lateral shoots - Care shall be taken to avoid damaging sucker buds[these will later

	develop into lateral shoots] - For both mature stems and cane shoots - Uprooting, cutting of rhizomes/suckers shall be avoided - Trees supporting the canes shall not be felled. The debris after harvesting canes should be taken outside the cane area to avoid infection with insect borers or fungi.
<i>Rubbia cordifolia</i> (Tsoy)	: Use sharp sickle/scissors for the harvesting of the upper part of the plant : Cut the plant at 5 cm above ground level : Leave at least 10% of the plants without collecting or harvesting any raw materials from them (these plants shall act as seed plants for natural regeneration) : Do not collect roots : Do not uproot entire plants
<i>Piper betleoides</i> (Pani)	❖ Collect only leaves by hand picking without damaging the climber and its tender buds ❖ Harvesting of leaves from a single (same) climber shall be allowed to maximum of 4 times per year ❖ Collect maximum of 80% of leaves from a single climber ❖ Do not cut down the host tree to ease climber ❖ Do not uproot or cut down the entire climber

7. Map of NWFP Harvesting Area of RNTT

8. Resource Inventory Result: Cane

8.1 Information on cane species and their distribution pattern.

Cane is an important NWFP for this group given its economic value. They collect it primarily for produce weaving baskets. Due to continuous collection over the years, its assessment was felt necessary to estimate the future supply potential. Cane species available within the collection area are: Moo, Tsen and Patsha and are distributed along the different altitudinal range.

The cane species occupies known as Moo is found on lower part of the slope, Patsha of the middle of the slope and Tseem on ridge top usually in moist broadleaved forest. For the management purpose, the entire Cane collection area is divided into following 5 blocks. An

assessment was carried out in all blocks using strip sampling method. The following table shows cane stock and supply potential from each collection site.

8.2 Block wise stock analysis of Cane resources and Annual Harvesting Limit

To ensure collection of cane resources in a sustainable manner, an assessment was carried out in each sub-block. The sum

Table 3: Block in block/subblock and annual harvesting limit.

Village	Sub-block	Area in acre	Cane species	Cane count in sub-block			Back load	AHL

Note: Plectocomia himalayana (P. himalayana); Calamus latifolius (C.Latifolius) and Calamus acanthospathus (C.acanthospathus).

9. Work Plan

To ensure sustainability of cane resources, the group shall carryout plantation of cane in illage adjacent forest areas. Recently the Ugyen Wangchuk Institute of Environmental Research (WICER), conducted training on raising Cane seedling and plantation to RNTT Group members. The institute also supported nursery development to public of Lawa, Lamga and Thaphu for Cane (*Calamus acathospathus*) seedling rising. Within this management plan period, the group will carry out cane plantation. Total area to be planted in each site is specified below:

Table 04: Areas identified for plantation of C.acanthospathus.

Sl.No	Community group	Plantation site(Acre)	Species	Total area(Acre)
01	Migtana	Chumeyzam	C.acanthospathus	1.5
02	Rukha	Sijurigu	C.acanthospathus	1.5
03	Kashacheke-Lawa	Paychu (above kashacheke village)	C.acanthospathus	0.5
04	Lamga-Taphu	Between Lamga and Dayu	C.acanthospathus	3.0
05	Samthang	Hondona area	C.acanthospathus	0.5

The activity will be coordinated by the group committee led by the chairman. Respectively households under each block will provide man power. Plantation shall be done beginning in of spring to pre-monsoon season.

10. Marketing

The marketing of NWFPs products collected and made into finished products will be sold through one outlet. The members of the NRTT will bring the products individually I collection center at Migtana. The sales person during annual general meeting will make payment to the members bring the products and will also take for sale in urban areas. The price for the products will be fixed by the RNTT group members in general meeting. An opportunity to be a sales person will be given on rotational basis. The sales person will deposit sales proceed of 5% to the treasurer of the group in the month of June and December.

PART B: By-Laws: Group Regulations and Norms

1. Membership Arrangement

- ✓ The households of Lamga and Rukha Chiwog holding Gung and Mitse shall be eligible to be become the member of Rukha Nagtshel Thunken Tshokpa (RNTT). However, 71 members who joined during the initial establishment shall be the primary members.

1.1 *New Membership*

- ✓ Any new members holding Mitse and Gung from five villages will be eligible to be a new members and should abide by the group norms
- ✓ Any new members either outsider or from within the group wishing to join the NWFP group shall require to pay a membership fees and fine as prescribed in the By-laws under section **Fees and Offence & Penalties** upon getting his/her application approved from the ECM.

1.2 *Resignation*

- ✓ Any member who becomes incapable to participate as member due to genuine reasons (old age, disabled, sickness) shall be approved for his/her resignation with eligibility of 100% benefit share from the Group's total fund accumulated at that time period.
- ✓ However, any participants who resign deliberately due to loss of interest shall be approved without any benefits from group.

2. Executive members

To ensure effective administration and governance of the group, three committee members has been elected from the RNTT list. The details are:

Table 05: Executive committee members of RNTT

S/No	Name	Designation	Village	Contact Nos.
	Chado	Chairman	Kashacheke	77292757
	Gyeltshen	Secretary	Lamga	-
	Tshechum	Treasurer	Migtena	77652284
	Nim Dorji	Resoop	Thaphu	77671169
	Yeshe Lham		Rukha	77786805

Table: Roles and Responsibilities of committee members

Designation	Responsibilities
Chairman	• Chair the meeting related to NWFPs management, utilization and marketing • To obtain permit for collection and sale of NWFP from Park Range Office • Responsible for networking group with other CF and NWFPs groups within and outside Dzongkhag. • Coordinate in fixing of market price and sharing information to group • Resolve disputes and conflicts arising among the group members and outsiders • Coordinate in patrolling of NWFP areas • Initiate annual planning and progress report submission to Park Range Office. • Imposing penalties in accordance with the prescribed rules. • To coordinate with Chiwog, Gewog, Dzongkhag and Forest Division/Parks for any meetings • Disseminate information related to NWFP collection time, marketing date with collaboration with Forest Office to members • Authorized signatory for NWFP bank account operation
Secretary	• Officiate as Chairperson in his absence • Prepare meeting agenda and circulate to members. • Present progress report to members during general meeting. • Keeping the minutes of the meeting and circulate to group • Assist chairperson in solving the conflicts arising among the members • Assisting the Treasurer in financial matters • Maintain records of NWFP collected and sold in a year • Prepare annual work plan and progress report of the group in consultation with chairman
Treasurer	• Collection of permit fees, membership fees(annual) • To be signatory for withdrawal. • Keep annual financial transaction records and present to the group members during the annual meeting • Collect and deposit the money on time • Maintain cashbook and available for monitoring and auditing purposes. • Collect fines from defaulters (meeting and field work) during general meeting. • Deposit collected money in group account within three months. • Collect sales proceeds from sale person in the month of June and December.
Resoops	• Inspection of resources collections in adherence to harvesting guideline prescribed in the plan. • Regular patrolling & report illegal activities to the chairman • Check documents to verify legal possession of forest products

Members	• Labour contribution for collection and marketing of NWFP products. • Reporting of illegal activities to Chairperson, Secretary, Treasurer and Resoop • Auditing to promote fair and transparency among members • Collection of resources as per the harvesting guidelines and annual harvesting limit set in the plan. • Actively participate in training and development activities.
---------	---

2.1 Tenure of committee members

- ✓ The committee members-chairman, secretary & treasurer shall serve for a term of five years. Additionally the group will nominate Resoops and shall serve for a term of one year. Every village will nominate on rotational basis from the households list mentioned in the plan.

2.2 Compensation for management committee

Considering their extra work and responsibility, the management committee members shall be compensated as following:

- ✓ Entitled for a daily allowance for travel beyond gewog: Nu.2000/- lump sum for all committee members for official work related to NWFP.
- ✓ On completion of 5 years term, they will be entitled to compensation of Nu: 10000/- for Chairman and Nu: 8000/- each for Secretary and Treasurer.

2. Financial arrangement and management

The following are the sources from which fund for RNTT will be raised.

- Annual membership fees collection.
- Sale proceed of 5% deduction during sale of NWFP products.
- Fines and penalties from defaulter and absentees in meeting.

a. Any financial transaction will be managed and operated under the joint signatory of the Executive committee members (ECM). All cash collected will be deposited in any of the interest bearing financial institute as decided by NWFP Group within 15 days after collection.

b. The ECM will have authority to withdraw a sum of Nu: 5000/- to meet expenses for NWFM Group related activities. However if they need to utilize the fund exceeding to amount authorized, they must accord approval from the group during General meeting.

c. Sale proceeds of handicraft products sold by individual members will be paid in two terms in a year- month of June and December.

d. Defaulter of loan payment will be given a grace period of a maximum one week. If they continue defaulting he/she will have to compulsorily resign from the

membership. However, the principal amount of loan taken will need to be paid based on time fixed by committee members.

- e. The group members shall eligible for loan from the group fund. However, they can apply for a loan amount of Nu. 100, 000.00(One Hundred Thousand) only at an interest rate of 1% per month for the duration of two years.
- f. In general, the members defaulting a payment of loan will get grace period of one week to arrange repayment. However, if the defaulter is identified as destitute by the group, he/she shall be entitled for a grace period of two weeks. Further, if he/she fails to pay back even after the grace period terms, payment time extension will be given but will be liable for half interest rate. Again if he/she fails to payback even after the time extension, penalties will be imposed as mentioned in Table 06.

3. Fees

In general group members will contribute an annual membership fee of Nu.100.00. However, as the group has fund generated already no collection will be done. But, this will not apply to new members and will have to pay an amount specified above.

4. Benefit sharing procedures

- The respective village will respect traditional right of other village. The resources listed in this management plan shall be collected only within their respective traditional boundary delineated during the initial establishment of this NWFM Group in 2009.
- For equity and justice both the Chewog consensually agreed to produce handicraft products for sale irrespective of their turn and of the total income generated, 5% shall be deposited as sale fees in the group fund by sales person from his profit.

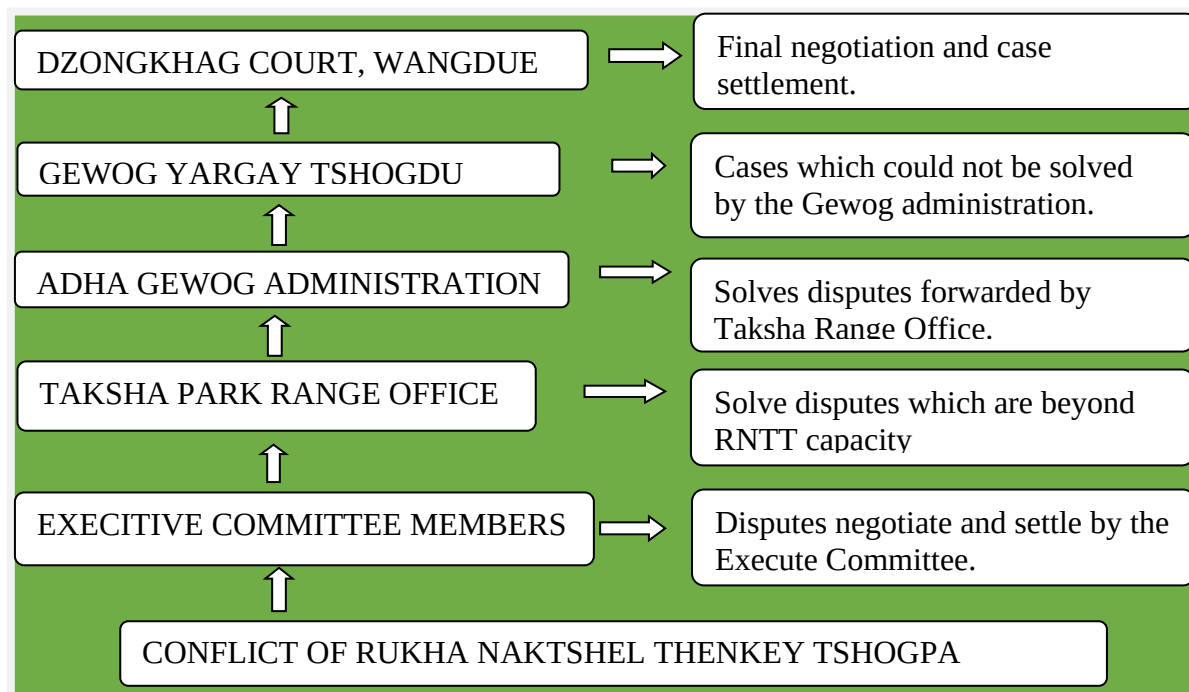

5. Meeting

The group will conduct general meeting at least once a year (May-June). It will be conducted to discuss group progress and plan activities for the following year. The decision of any agenda discussed in the meeting will be taken only if 60% members present agree to it. The executive committee will conduct meeting as and when deemed necessary.

6. Conflict Resolution

The chart below shows a process in conflict resolution.

6.1 Procedure to Resolve Conflicts

7. Offences and Penalties

Table 07: Offences and Penalties

Sl. No	Offence	Group Member	Non-group Member
1	Absence in meetings	Nu.215 for 1 st time, Nu 300 for 2 nd time, Nu 500 for the 3 rd time and increase in similar manner.	NA
2	Collection of resources without permit, and selling of NWFP individually without informing executive committee members.	Nu. 500 shall be imposed and product seized.	Nu: 1000 per incidence (seized products)
3	Selling of NWFP individually without informing ECM	Nu: 1000/Zem	Nu: 1500/Zem
		Nu: 200/Kg for Auru, Churu , Tsoy and Pani (Sized product)	Nu: 500/Kg for Auru, Churu & Tsoy and Nu: 50/bundle for Pani (seized product)

8. Power of Department

Notwithstanding the powers as described in FNCR, 2017 under the Section Management of NWFP (142-154, the department shall have the following authority as prescribed under Section Authority of the Department (155) of the NWFP as described in this management plan and by-laws, should be an interest/need: the department is fully empowered to take action with regard to both forestry and other development activities. In addition, the department reserves the right to:

- Take action against the violator of the Act, Rules or Management Plan
- Inspect, monitor, review the records of and otherwise supervise the activity of the NWFP Group
- Take action including cancellation of the NWFMG certificate, if the NWFGM or any of its members who violates the provision of the Management plan or any provision
- Establish record keeping and financial obligation
