Ministry of Energy & Natural Resources

NOTESHEET

Subject: Approval of NWFP Management Plans

The Non-Wood Forest Products are an important source of livelihood for many rural communities in the country. In order to ensure the sustainable management of resources in the wild, management responsibilities are handed over to the communities through the formation of Non-wood Forest Product Management and Marketing Group. Further, it is mandatory for the group to prepare a resource management and marketing plan and submit it for approval through the Chief Forestry Officer of that area. As such the Forest Resource Planning and Management Division had received and reviewed the following plans submitted and hereby submitted to seek approval:

1. Yumzang Semthuen NWFP Management & Marketing Group, Sakteng Gewog, Tashigang
2. Gangri Phuensum Ngomoen Tshogpa, Naro Gewog, Thimphu
3. Lauri Gaki Shingmein Thuenkyed Tshogpa, Lauri Gewog, Samdrup Jongkhar
4. Momring Shingmein Thuenkyed Tshogpa, Lauri Gewog, Samdrup Jongkhar
5. Thekcho Choling Goenpa Shingmein Tshogpa, Lauri Gewog, Samdrup Jongkhar
6. Woonthi Shingmein Natshok Thundrel Tshogpa, Lauri Gewog, Samdrup Jongkhar
7. Zangthi-Tshothang Shingmein Thuenkyed Tshogpa, Lauri Gewog, Samdrup Jongkhar
8. Patpanadang Shingmein Dondrup Tshogpa, Lauri Gewog, Samdrup Jongkhar

As per the Forest and Nature Conservation Act of Bhutan, 1995, such plans are required to be approved by the head of the Ministry. Submitted for kind approval.

Submitted by:

(Sonam Tobgay)
Chief Forestry Officer

Remarks:

(Lobzang Dorji)
DIRECTOR

Remarks:

Approved.

SECRETARY

1. Background

The Lauri Gaki Shingmein Thuenkyed Tshogpa management and marketing group is formed by the people of Lauri village, Lauri gewog administration under Jomotsangkha Dungkhag. Lauri village lies at an altitude of 1724 metres above the sea level. Agriculture is the primary source of livelihood in the village. People cultivate buckwheat, millet, potatoes, mustard and maize being the staple crop of the village. Farmers also grow different green vegetables, including green chillies, cabbage, spinach, broccoli, etc. Cereal crops are also grown. About ninety-two villagers have registered for Non-Wood Forest Product (NWFP) group revision for the third time.

Various NWFPs, including *Rubia cordifolia*, *Pouzolzia sanguinea*, *Swertia chirayita*, *Illicium griffithii*, *Daphne bolua*, *Juglans regia*, *Elatosteme lineolatum*, *Paris polyphylla*, *Chimonobambusa callosa*, *Borinda grossa*, *Girardinia diversifolia*, *Viscum nepalense*, *Diplazium esculentum*, mushroom, etc., are found in the forest located nearby their settlement. Other NWFPs are yet to be explored for the benefit of the group or community.

The total area for NWFP collection sites is 1100.46 ha, equivalent to 2719.3 acres of State Reserved Forest (SRF) which is further divided into 11 blocks as an identified NWFP collection site. The altitude of the NWFP collection site lies within the range of 1217-3086 meters above the sea level.

The plan revision meeting was conducted with involvement of group members and revisited on the achievements and outcomes of the past plans. During the plan review meeting, it was found out that the NWFP group members had sold 23361 kilograms of *Rubia cordifolia* generating an income of Nu.1498452 ever since the time of establishment of the group. They have also sold 582 kilograms of *Illicium griffithii*, earning Nu.58200 and 7 kilograms of *Paris polyphylla* earning a sum total of Nu.45500. The total saving of the group in bank is Nu.58322.89. The group was established in 2011 and revised once in 2015.

The timeframe for the NWFP Management & Marketing plan was for a period of maximum 5 years. The NWFP members could not and sell the NWFPs due to expiry of the management plan. Hence, this revision of the Lauri Gaki Shingmein Thuenkyed Tshogpa has been carried out to facilitate the sustainable harvesting and sell of NWFPs listed in this plan.

The trading of different NWFPs help rural communities to generate income and improve their livelihood. The NWFP group of Lauri has also contributed Nu.50,000 (fifty thousand) for buying land for Community Lhakhang in Lauri village in 2020. The construction of Community Lhakhang was completed and is being utilized for performing community rituals and spiritual purposes in the village.

2. Objectives

- Sustainable management of NWFPs
- Income generation through sale of NWFPs.
- Protection of the collection areas from illegal activities

3. Description of NWFPs

The table below shows the detail description of each NWFP species to be harvested/collected from the identified collection areas. For each NWFP species, the harvesting season, parts of the species used for producing medicine or other uses and the estimated quantity that can be collected every season are provided in the table below.

Table 1. Brief description of NWFPs for commercial harvesting

<i>NWFP name</i>	<i>Harvesting area(s) (name)</i>	<i>Parts harvested</i>	<i>Use purpose (traditional & others)</i>	<i>Harvesting season (months)</i>	<i>Estimated quantity that can be collected¹</i>
<i>Rubia cordifolia</i> (La-nyi-roo-Sh)	1. Lauri-Tsephu 2. Tsangshingnag 3. Phagchuhay 4. Grengphung 5. Goongdiri	Entire plants	Dye, medicine	November- February	8000 kgs
<i>Pouzolzia sanguinea</i> (Yongjiba-Sh)	1. Lauri-Tsephu 2. Tsangshingnang	bark	incense	August – February	400kg
<i>Elatosteme lineolatum</i> (Drimom-Sh)	1. Brenglunangka 2. Tsangshingnang	Stem and leaves	edible	Any time, summer	300 bundles
<i>Plectocomia himalayana</i> (Phashi-Sh)	1. Brenglunangka 2. Tsangshingnang 3. Phagchuhay	Young shoot as well as matured stem	Young shoots used as vegetable. Matured stem used to produce handicraft items	Mature stems- November to March. For shoot April to August.	300 nos.
Mushroom	1. Phagchuhay 2. Tsangshingnang	Entire mushroom	edible	July -October	150kgs

<i>Diplazium esculentum</i> (Dhawai-Sh)	1. Phagchuhay 2. Tsangshingnang	Young shoots	edible	March - September	300 bundles
<i>Chimonobambusa callosa</i> (Rasu-Sh)	1. Tsangsinang 2. Lauri-Tsephu	culm	Fencing and other use	December - February	1500 nos
<i>Daphne bolua</i> (Shogushing-Sh)	1. Phagchuhay 2. Tsangshingnang 3. Grengphung	bark	paper	March-June	150 kgs
<i>Borinda grossa</i> (Shi-Sh)	1. Lauri-Tsephu 2. Tsangshinang	culm	roofing	December February	1000 nos.
<i>Illicium griffithii</i> (Khaila chinang/ Lishi-Sh)	1. Tsangshingnang 2. Brenglunangka	fruits	medicine	October-December (or when fruits are mature)	500kgs
<i>Girardinia diversifolia</i> (Zangroo-Sh)	1. Brenglunangka 2. Goongdiri 3. Phagchuhay	fiber	weaving	September-October	15 kgs
<i>Swertia chirayita</i> (Khalu-Sh)	1. Lauri-Tsephu	Entire plant	medicine	November-January	70 kgs
<i>Viscum nepalense</i> (Nya-shing-jorma-Sh)	1. Lauri-Tsephu 2. Tsangshingnang	Leaves	Tea leaves	September-February	80 kgs

4. Harvesting prescriptions for sustainable NWFP harvesting

The harvesting prescriptions and basic guidelines are prepared in reference to the framework for management and marketing of NWFPs and guidelines developed for *Daphne*, *Illicium griffithii*, *Chirata*, *Rubia*, etc. The following are some of the important points to be followed by every member:

- Chairperson of NWFP group shall obtain harvesting/collection permit from Range Office in writing
- After approval of the permit, Chairperson shall inform all members stating collection time
- NWFP members must follow collection/harvesting period timeline mentioned in the plan
- NWFP members must strictly follow the harvesting rules mentioned in the management plan
- Collect *Rubia* on rotational basis (2years gap period)

Table 2. Harvesting prescriptions for sustainable harvesting

NWFP species	Harvesting prescriptions for sustainable harvesting
<i>Rubia cordifolia</i> (La-nyi-roo)	1. Use sharp sickle for the harvesting of the upper part of the plant. 2. Cut the plant at 5 cm above ground level. 3. Leave at least 10% of the plants without collecting or harvesting any raw materials from them. 4. Do not collect roots. 5. Do not uproot entire plants For the collection of <i>Rubia</i>, the identified collection sites should be divided into three areas for rotational harvesting of the species. Each season, the species shall be collected from one area and move to the next area in the next harvesting season and that way the species will get ample time for its regeneration and sustainable harvesting (<i>Rubia</i> takes three years for regeneration).
<i>Pouzolzia sanguinea</i> (Yongjiba-Sh)	1. Cut the plant at 10 cm above the ground level. 2. Do not damage the remaining young stands/ seedlings/ saplings. 3. Should not cut down surrounding trees to ease harvesting. 4. Leave at least 10% of the plants to allow natural regeneration. 5. Harvesting of roots is strictly prohibited for ecological reason
<i>Elatosteme lineolatum</i> (Drimom-Sh)	1. Collect plants that are 15cm and above. 2. Retain stump of around 3” for sprouting of new shoots. 3. Don’t uproot whole plant. 4. Shouldn’t cut down trees and create more opening. 5. Shouldn’t disturb its catchment area.
<i>Plectocomia himalayana</i> (Phashi-Sh)	1. Cut cane stem only when matured. 2. Pull down as much of the cane as possible (avoid leaving cane parts high up in the tree) 3. Cut only canes with a usable length of at least 10 m. 4. Harvest during winter as canes have a better quality during this season. 5. Replant the lateral shoots that are attached to harvested cane. For cane shoots 1. Cut young shoot by bending the cane stem with the help of a hook long and strong stick using sharp knife. 2. Do not cut tree climbed cane for shoot. 3. Care shall be taken to avoid damaging sucker buds.
Mush room (Bamung-Sh)	1. Do not use knife for harvesting mushrooms 2. Do not scratch or disturb the logs/soil while harvesting 3. Use bamboo baskets rather than plastic bags for collection and transportation of mushrooms.

<i>Diplazium esculentum</i> (Dhawai-Sh)	1. Harvests young shoot that are 15cm length. 2. Don't harvest all shoot coming up in season. 3. Retain at least 50% of young shoot of last flush for the development of leaves. 4. Don't harvest the shoots that have developed into leaves.
<i>Chimonobambusa callosa</i> (Rasu-Sh)	1. Cut culm above first internode from the base. 2. Leave bamboo shoot or culm of less than one year old intact. 3. Cut at maximum 33% of the 1+ year and 2+ year old culm per clump. 4. Do not cut culm when new shoots are sprouting.
<i>Daphne bolua</i> (Shogushing-Sh)	1. Cut the plant at 10 cm above the ground level (the left stump will regenerate in the following growing season). 2. Cut only stems that are more than 3 cm in diameter. 3. Do not damage the remaining young stands, seedling and /or saplings 4. Do not fell the surrounding trees in order to clear the area to ease harvesting Divide harvesting area into 5 blocks for Daphne. Harvesting is rotated over the 5 blocks so that harvesting takes place only in one block per year (Daphne takes 5 years to produce stems of more than 3 cm in diameter).
<i>Borinda grossa</i> (Shi-Sh)	1. Cut culm above first internode from the base. 2. Leave bamboo shoot or culm of less than one year old intact. 3. Cut at maximum 33% of the 1+ year and 2+ year old culm per clump. 4. Do not cut culm when new shoots are sprouting.
<i>Illicium griffithii</i> (Khaila chinang/Lishi - Sh)	1. Hand pick fruits only when fallen on the ground, or 2. Use long bamboo poles to shake off fruits from the trees. 3. Don't cut tree or branches to collect fruits.
<i>Girardinia diversifolia</i> (Zangroo -Sh)	1. Peel out fiber after cutting plant from base. 2. Harvest plant only after seed dispersal. 3. Do not collect all plants from one area
<i>Swertia chirayita</i> (Khalu-Sh)	1. Collect the plant only after seed dispersal commenced. 2. Do not collect the plants late in the season (February) as there are high risk of damaging the
<i>Viscum nepalense</i> (Nya-shing-jorma-Sh)	1. Do not cut down the host plant to ease collection. 2. Do not collect the whole bunch. Leave at least 25% for flowering and fruiting.

7. Marketing arrangements

After the NWFP collection and post-harvest is completed, Chairperson of NWFP groups shall inform Forest Office and accordingly arrangement for marketing of NWFPs or auction shall be followed up as shown below:

7.1. Auction Committee

- One representative from Gewog Administration
- One representative from Forest Office
- Chairperson/Secretary/Accountant, NWFP group

7.2. Notification of NWFPs auction dateline

- Eligible buyers will be notified or invited using social media platforms or inform them through invitation letter. The registration date line shall be mentioned during the announcement.

7.3. Registration Fee

- Buyers should pay minimal registration fee of Nu.1000 to NWFP Committee members. The registration fee should be paid before the expiry of registration timeline. If the buyers do not turn up for auction, the money shall be freezed and deposited into the NWFP group account. The registration fee shall be credited back to buyers if participated in the auction.

7.4. Auction Arrangement

- After harvesting, members should store NWFPs following recommended post-harvest practice
- Chairperson shall inform Range Office of completion of harvest
- Chairperson and Range Office shall decide auction date and notify eligible buyers through social media and other communication channel
- The notification should contain registration date and the place of auction and the date of auction
- Eligible buyers shall register with Range Office within the announced date
- Members should bring forest produce to the place of auction on mentioned date
- Conduct auction as per the announcement
- Highest bidder shall buy the products
- Buyer and seller shall weigh the product in the presence of auction committee
- Buyer shall make payment on the spot
- Royalty shall be realized from the buyer as per the prevailing schedule rate on the spot
- Buyer shall apply export permit online for export of NWFP based on online permit for NWFP collection applied by NWFP Chairperson.
- Committee Members shall keep record of sale proceed against individual members
- Submit a copy of record to the Range Office

8. Benefits to the members

The members of the NWFP group will be allowed to participate for annual collection of the NWFPs available in their locality. One member from each household shall be allowed for collection of the NWFPs and deposit the collected NWFPs in common place. The auction committee members shall then sale the NWFPs through auction and individual collector will be benefitted from the sale. The income generated per member through the sale of NWFPs will support their family's livelihood improvement.

Through the formation of NWFP groups, the members will take ownership for collection of the NWFPs. The entire members of the group will have equal rights over the collection of resources ensuring the sustainability in perpetuity.

9. Benefits to the group

The members of the NWFP group will be allowed to participate for annual collection of the NWFPs found available in their locality. One member from each household shall be allowed for collection of the NWFPs and deposit the collected NWFPs in common place. The auction committee members shall then sale the NWFPs through auction and individual collector will be benefitted from the sale. The income generated per member through the sale of NWFPs, about 5% of the amount shall be deposited in the group saving account which will ultimately benefit the group.

10. By-Laws: Group Regulations and Norms

<i>Members of the NWFP management and marketing group</i>	Village	No. of households	Gewog
	Lauri	92	Lauri
	Responsibilities and rights of members: - Reporting illegal activities to chairman, secretary and treasurer - Auditing to promote transparency and fairness - Sustainable collection of NWFP products - Follow harvest time and collect only after obtaining permits - Participation in meetings or field works or any group works - Carry out patrolling in selected/perilous unsafe sites		

10.1. Management Committee Members

<i>Management Committee Members</i>	
<i>Chairperson</i>	Name of Chairperson: Phurpa Dorji, Contact No: 17533595
	Responsibilities of Coordinator/ Chairperson: - Coordinate/organize or chair all meetings - Resolve disputes and conflicts among members - Arrange and coordinate marketing of NWFPs - Coordinate obtainment of collection permit in time - Liaise with various governmental agencies and private sector - Initiating annual work plan and reporting to the group - Keep rapport with private entrepreneurs - Impose penalties in accordance with the prescribed rules - Represent group in seminars/workshops/meetings for the benefits of groups. - Monitor the quality of NWFPs
<i>Secretary</i>	Name of Secretary: Kelzang Nidup, Contact No: 17904420
	Responsibilities of Secretary: - Officiate the Chairman - Keep minutes of the meeting - Maintaining records - Assist the chairperson in conflict resolution and marketing - Decision making with group members - Assist the accountant in financial matters - Write Official correspondence - Share/disseminate information - Informing the group about the time, date and venue of meeting - Monitor the quality of NWFPs

<i>Treasurer</i>	Name of Treasurer: Pema Thinley, Contact Nu: 17387266
	Responsibilities of Treasurer: Keep financial records: money transaction, cash management, expenditure a) Collect membership fees and deposit in bank b) To maintain the cash books c) Deduct the 5 % from every seller (group members) and deposit in the bank

<i>Compensation to the executive committee for marketing</i>	Pay to and return vehicle charge and offer working lunch for carrying out group benefit works. If committee members are paid DSA and working lunch from meeting organizers, they should not utilize group fund. If extra expenditures are incurred for hiring vehicles, meeting should be conducted once returned. During the meeting the committee members who have gone for meeting should explain his detail extra expenditures to the rest committee members/members for recovery from group fund. Minutes of meeting should be maintained.
--	---

11. Membership Arrangement

<i>Membership fee & purpose</i>	✓ Annual membership fee per household– Nu.50 ✓ Money accumulated shall be utilized for meeting expenditures of group related works or buying NWFP office stationeries Membership Registration: 1. New member is allowed to join, but must have tharm/gung, registered in the gewog. 2. Pay compensation to group before entry, i.e., equivalent to individual share (total group saving divided by all members) 3. Son-in-law of family members are allowed to join, after paying bank saving share (compensation as mentioned in serial no.2). 4. New members wishing to join must be resident of the same village Resignation benefits 1. Members wishing to resign from membership based on conflicting issues/reasons shall not get any benefits. 2. If the reasons are good for leaving, transfer of village/other, shall get the benefits of bank saving 3. Old/disabled members shall get equal share upon discussions with all members
-------------------------------------	--

	Termination ○ Terminated members shall not get any benefits ○ If the members deny or disagree to join meetings or any group works for 3 times, he/she shall be terminated If the members deny or disagree to pay 5% of NWFPs sold to traders in the group saving, he/she shall be terminated from membership
--	---

12. Community Fund Use

<i>Community development fund & utilization of fund</i>	1. Maintenance of Community Lhakhang or infrastructure development. 2. Support community festivals or ceremony events. 3. Loan shall be given to members who are in genuine needs. Up to 10,000 shall be given for the duration of 6 months. 4. The interest rate of loan shall 15% per annum
---	--

13. Conflict Resolution

<i>Conflict resolution</i>	Conflicts or disputes within the members should be resolved by the Management Committee Members. If it the conflict is serious, forward to the Gewog Administration or Park Office In case there is a conflict arises between the NWFP group and outsiders regarding NWFP, the case shall be forwarded to the Park Office and Gewog Administration by the Chairperson
----------------------------	---

14. Fines and penalty

<i>Penalties</i>	In case a member of the NWFP Group violates the harvesting rules as set in this plan, he or she will not be allowed to harvest the NWFP anymore for the rest of the season and the next season. ✓ Members absent during meeting has to pay Nu.215 per day as penalty ✓ Members absent during field work has to pay Nu.215 per day as penalty ✓ Members shall not be allowed to collect NWFP if he/she doesn't follow management plan ✓ Termination from the membership if members disobey executive members for 3 times ✓ If illegal harvesting is found, outsiders/insiders, shall be levied a fine of Nu.80 per kilogram (Rubia and Yongjiba) and seize the produce. If already taken or stolen, and caught later, the offender shall be charged Nu.100 per kilogram
------------------	---

15. Annual Workplan

Table 5. Annual Workplan

Sl. No	NWFP species	Procure collection permit time	Collection time	Auction time
Meetings – For harvest planning (1time) and after auction (2 nd). 2 times meeting/years, and adhoc/emergency meeting shall be done as per the requirement/need basis
