NOTESHEET

Subject: Approval of NWFP Management Plans

The Non-Wood Forest Products are an important source of livelihood for many rural communities in the country. In order to ensure the sustainable management of resources in the wild, management responsibilities are handed over to the communities through the formation of Non-wood Forest Product Management and Marketing Group. Further, it is mandatory for the group to prepare a resource management and marketing plan and submit it for approval through the Chief Forestry Officer of that area. As such the Forest Resource Planning and Management Division had received and reviewed the following plans submitted and hereby submitted to seek approval:

1. Yumzang Semthuen NWFP Management & Marketing Group, Sakteng Gewog, Tashigang
2. Gangri Phuensum Ngomoen Tshogpa, Naro Gewog, Thimphu
3. Lauri Gaki Shingmein Thuenkyed Tshogpa, Lauri Gewog, Samdrup Jongkhar
4. Momring Shingmein Thuenkyed Tshogpa, Lauri Gewog, Samdrup Jongkhar
5. Thekcho Choling Goenpa Shingmein Tshogpa, Lauri Gewog, Samdrup Jongkhar
6. Woonthi Shingmein Natshok Thundrel Tshogpa, Lauri Gewog, Samdrup Jongkhar
7. Zangthi-Tshothang Shingmein Thuenkyed Tshogpa, Lauri Gewog, Samdrup Jongkhar
8. Patpanadang Shingmein Dondrup Tshogpa, Lauri Gewog, Samdrup Jongkhar

As per the Forest and Nature Conservation Act of Bhutan, 1995, such plans are required to be approved by the head of the Ministry. Submitted for kind approval.

Submitted by:

(Sonam Tobgay)
Chief Forestry Officer

Remarks:

(Lobzang Dorji)
DIRECTOR

1. Background

The Patpanadang Shingmein Dondru Tshogpa is formed for the Gawaling village, Lauri Gewog under Jomotsangkha Drungkhag. The village lies at an altitude of 1509 - 1804 metres above the sea level. Agriculture is the primary source of livelihood in village and People cultivate maize, buckwheat, millet, potatoes, and mustard. Maize is the staple crop of the village. Farmers also grow different green vegetables, including green chilies, cabbage, spinach, broccoli, etc. Cereal crops are also grown.

Twelve members in the village have registered for Non-Wood Forest Products (NWFP) group formation. Some of the various NWFPs, including *Rubia cordifolia*, *Pouzolzia sanguinea*, *Thysanolaena maxima*, *Viscum nepalense*, mushroom, *Elatosteme lineolatum*, *Diplazium esculentum*, *Plectocomia himalayana*, *Girardinia diversifolia*, *Paris polyphylla*, *Chimonobambusa callosa*, *Borinda grossa*, etc., are found growing in the forest located nearby their settlement. Other NWFPs are yet to be explored for the benefit of the group or community.

There are 11 blocks identified as NWFP collection sites. The total area of NWFP block is 804.39 hectares, equivalent to 1987.69 acres of State Reserved Forest (SRF). The collection areas fall under their rights of traditional boundary.

Review of the past management plan

The NWFP group members have been greatly benefited through the group formation. The right for collection and trading of NWFPs have supported their household income for meeting various expenditures at home, including the education of their children at school. The farm road connectivity in the village has further created a conducive environment for trading of NWFPs harvested.

Prior to group formation, the livelihood and household income of people in the village was not stable economically. The group was established in 2011 and revised once in 2015.

The group savings of the NWFP members were not utilized for community contribution so far. However, group members are willing to support important community activities if required. The provisions for loan to NWFP members have been kept for solving the problems and urgent needs of money for NWFP members.

The validity of the plan has expired and the group members would be restricted for collection and trading of NWFPs whereby their income generation and livelihood of group members would be affected. Thus, the revision of the group is important and mandatory. The timeframe for the NWFP Management & Marketing plan is for a period of maximum 5 years. Hence, revision of the Patpanadang Shingmein Dondrup Tshogpa has been initiated.

The NWFP group members have sold 8576 kilograms of *Rubia cordifolia* since the time of establishment, earning a total of Nu. 564840. The total savings of the group in bank is Nu.30491.43.

2. Objectives

1. Sustainable collection of NWFPs from the identified collection sites.
2. Income generation for members through the sale of NWFPs.
3. Conservation of NWFPs

3. Description of NWFPs

Table 1. Brief description of NWFPs for commercial harvesting

<i>NWFP name</i>	<i>Harvesting area(s) (name)</i>	<i>Parts harvested</i>	<i>Use purpose (traditional & others)</i>	<i>Harvesting season (months)</i>	<i>Estimated quantity that can be collected¹</i>
<i>Rubia cordifolia</i> (La-nyi-roo-Sh)	1. Lebari 2. Phochu 3. Kersarang 4. Dogorom Hay 5. Somshinghung 6. Memeri	Entire plants	Dye, medicine	November - February	1500 kgs
<i>Pouzolzia sanguinea</i> (Yongjiba-Sh)	1. Memeyri 2. Tokaphung 3. Churbandri	bark	incense	August – February	100 kgs
<i>Elatosteme lineolatum</i> (Drimom-Sh)	1. Memeri 2. Chuchendema 3. Changchogri	Stem and leaves	edible	Any time, summer	200 bundles
<i>Plectocomia himalayana</i> (Phashi -Sh)	1. Tokaphung 2. Karjayhung 3. Memeri 4. Chuchendema	Young shoot as well as matured stem	Shoots edible, matured stand for baskets	Mature stems: November to March Shoots: April to August	150 nos
Mushroom	Chuchendema	Entire mushroom	edible	July -October	100 kgs
<i>Diplazium esculentum</i>	1. Memeri 2. Chuchendema	Young shoots	edible	March - September	200 bundles

(Dhawai-Sh)					
<i>Viscum nepalense</i> (Nya-shing-jorma-Sh)	1. Lhathung 2. Dogormaypoktor	leaves	Tea leaf	October-January	50 kgs
<i>Girardinia diversifolia</i> (Zangroo-Sh)	1. Memeri 2. Chuchendema	fibers	Weaving	August-October	15 kgs
<i>Thysanolaena maxima</i> (Beyshaw -Sh)	1. Phogchiri 2. Chuchendemabrag	broom	broom	December-March	300 bundles
<i>Daphne bolua</i> (Shogushing-Sh)	Memeri	bark	paper	March-June	20 kgs
<i>Paris polyphylla</i> (Thoksampa-Sh)	1. Lhathung 2. Karjayhung 3. Kersarang	Rhizome	medicine	October-November	2 kgs
<i>Chimonobambusa callosa</i> (Rasu-Sh)	Dongchinadang	culm	fencing	December-February	1000 culms
<i>Borinda grossa</i> (Shi-Sh)	1. Tadzongnangri 2. Memeyphodrang	culm	roofing	December-February	1000 culms
<i>Zanthoxylum armatum</i> (Ghee-Sh)	1. Lebari 2. Dogoromhay 3. Somshihung	Fruit	Essential oil, medicine, pickle & spice, water purifier	August to September	30 kgs

4. Harvesting prescription for sustainable NWFP harvesting

The harvesting prescriptions and basic guidelines are prepared in reference to the framework for management and marketing of NWFPs and guidelines developed for *Daphne*, *Illicium griffithii*, *Chirata*, *Rubia*, etc. The following are some of the important points to be followed by every member:

- b. Collect on right time, on maturity as per harvesting guidelines months/seasons.
- c. Collect NWFPs, after obtaining collection permit from Samdrupcholing Range
- d. Shall obtain collection permits for all listed NWFPs and do collection.
- e. The following prescriptions provided in the table below should be followed while harvesting NWFPs.

Table 2: Harvesting prescriptions for sustainable harvesting

<i>NWFP species</i>	<i>Harvesting prescriptions for sustainable harvesting</i>
<i>Rubia cordifolia</i> (La-nyi-roo-Sh)	1. Use sharp knife for harvesting of the upper part of the plant. 2. Cut the plant at 5cm above the ground level. 3. Leave at least 10% of the plants without harvesting 4. Do not collect roots 5. Do not uproot entire plants. For the collection of <i>Rubia</i>, the identified collection sites should be divided into three areas for rotational harvesting of the species. Each season, the species shall be collected from one area and move to the next area in the next harvesting season and that way the species will get ample time for its regeneration and sustainable harvesting (<i>Rubia</i> takes three years for regeneration).
<i>Pouzolzia sanguinea</i> (Yongjiba-Sh)	1. Cut the plant at 10 cm above the ground level. 2. Do not damage the remaining young stands/seedlings/saplings. 3. Felling of surrounding trees to ease the harvesting is prohibited. 4. Leave at least 10% of the plants to allow natural regeneration. 5. Harvesting of roots is strictly prohibited for ecological reason.
<i>Elatosteme lineolatum</i> (Drimom-Sh)	1. Collect plants that are 15cm and above 2. Retain stumps of around 3” for sprouting of new shoots 3. Do not uproot entire plants. 4. Shouldn’t cut down trees and create more opening 5. Shouldn’t disturb its catchment area
<i>Plectocomia himalayana</i> (Phashi-Sh)	1. Cut the cane stem only when mature 2. Pull down as much of the stem as possible 3. For shoots, cut young shoot by bending the cane stem with of a long and strong stick with a hook 4. Do not cut the entire cane to collect shoots. Cut the leading shoot with the help of sharp knife diagonally. 5. Care shall be taken to avoid damaging sucker buds For cane shoots 1. Cut young shoot by bending the cane stem with the help of a hook long and strong stick using sharp knife. 2. Do not cut tree climbed cane for shoot. 3. Care shall be taken to avoid damaging sucker buds.
Mushroom	1. Do not use knife for harvesting mushrooms 2. Do not scratch or disturb the logs/soil while harvesting 3. Use bamboo baskets rather than plastic bags for collection and transportation of mushrooms.
<i>Diplazium esculentum</i> (Dhawai-Sh)	1. Harvest young shoots that are 15cm length 2. Do not harvest the entire shoot coming up in season 3. Retain at least 50% of young shoot of last flush for the development of leaves 4. Do not harvest the shoots that have developed to leaves 5. Do not cut down trees which provide shade to the plants

<i>Viscum nepalense</i> (Nya-shing-jorma-Sh)	1. Do not cut or fell the host trees 2. 2. Leave around 10% stand, while collection
<i>Girardina diversifolia</i> (Zangroo-Sh)	1. Peel out fiber after cutting plant from base. 2. Harvest plant only after seed dispersal. 3. 3. Do not collect all plants from one area
<i>Thysanolaena maxima</i> (Beyshawawa-Sh)	1. Cut the foliage, inflorescence at 15 cm from the ground 2. 2. Do not damage the rhizomes in order to allow natural regeneration
<i>Daphne bolua</i> (Shogushing-Sh)	1. Cut the plant at 10 cm above the ground level (the left stump will regenerate in the following growing season). 2. Cut only stems that are more than 3 cm in diameter. 3. Do not damage the remaining young stands, seedling and /or saplings 4. Do not fell the surrounding trees in order to clear the area to ease harvesting Divide harvesting area into 5 blocks for Daphne. Harvesting is rotated over the 5 blocks so that harvesting takes place only in one block per year (Daphne takes 5 years to produce stems of more than 3 cm in diameter).
<i>Paris polyphylla</i> (Thoksampa-Sh)	1. Oct-Nov is the most appropriate time because by this time, the bud emerges from the rhizome which remains dormant underground till next germination period 2. Leave some portion of the rhizome with bud underground. 3. 3. Do not harvest the plant before the seed dispersal
<i>Chimonobambusa callosa</i> (Rasu-Sh)	1. Cut culm above first internode from the base. 2. Leave bamboo shoot or culm of less than one year old intact. 3. Cut at maximum 33% of the 1+ year and 2+ year old culm per clump. 4. 4. Do not cut culm when new shoots are sprouting.
<i>Borinda grossa</i> (Shi-Sh)	1. Cut culm above first internode from the base. 2. Leave bamboo shoot or culm of less than one year old intact. 3. Cut at maximum 33% of the 1+ year and 2+ year old culm per clump. 4. 4. Do not cut culm when new shoots are sprouting.
<i>Zanthoxylum armatum</i> (Ghee-Sh)	1. Harvest fruit by handpicking, if possible, climbing on trees. 2. 2. Use long bamboo poles with a hook to facilitate picking of the fruit. 3. 3. Collect only 70% of the fruits and leave 30% to allow natural regeneration.

5. Location sketch map of the NWFP harvesting areas

14	<i>Zanthoxylum armatum</i> (Ghee-Sh)	Lebari	94.376	1.5 hours
		Dogoromhay	38.70	½ hours
		Somshihung	31.67	50 inutes

6. Marketing and sales plan

In reference to the standard operating procedures and by-laws formed for the group, each member from every household is allowed to participate for collection/harvesting of NWFPs following basic guidelines and prescriptions for each NWFPs. The collected NWFPs are brought to the common place for auction. The potential market for the NWFPs are local market, national market and international market and the price depends on the market rate.

The collected NWFPs are then brought to a common place during the day of auction and the committee members sale the products through auction and income earned are then share amongst the members and the group as per the by-laws.

Table 3. Marketing and sales plan for the collected NWFPs

NWFP	Potential market	Estimated quantity for sale/ season (unit)	Expected price/ unit	Total (Nu)
<i>Rubia cordifolia</i> (La-nyi-roo-Sh)	India	1500kg	60	90000
<i>Pouzolzia sanguinea</i> (Yongjiba-Sh)	Incense	100kg	50	5000
<i>Elatosteme lineolatum</i> (Drimom-Sh)	Locality market	200 bundles	10	2000
<i>Plectocomia himalayana</i> (Phashi-Sh)	Locality market	150 numbers	25	3750
Mushroom	Locality market	100kg	50	1000
<i>Diplazium esculentum</i> (Dhawai-Sh)	Locality market	200 bundles	10	2000
<i>Viscum nepalense</i> (Nya-shing-jorma-Sh)	Locality market	50kg	100	5000
<i>Girardinia diversifolia</i> (Zangroo-Sh)	Thimphu	15kg (dried)	1700	22500
<i>Thysanolaena maxima</i> (Beyshawa-Sh)	Locality market	300 bundles	30	9000
<i>Daphne bolua</i> (Shogushing-Sh)	Traditional paper making enterprises	20kg	50	1000
<i>Paris polyphylla</i> (Thoksampa-Sh)	India	2kg	6000	12000
<i>Chimonobambusa callosa</i> (Rasu-Sh)	Locality market	1000 culms	3	3000 (collected by buyers)
<i>Borinda grossa</i> (Shi-Sh)	Locality market	1000 culms	20	20000
<i>Zanthoxylum armatum</i> (Ghee-Sh)	Locality market	30kg	200	6000

7. Marketing arrangements

The following procedures mentioned below are followed for marketing of the collected NWFPs:

7.1 Standard Operating Procedure (SOP) for Collection and Marketing of Non-Wood Forest Products (NWFPs)

7.1.1. Harvesting of NWFPs

- Chairperson of NWFP group shall obtain harvesting/collection permit from Range Office in writing
- After approval of the permit, Chairperson shall inform all members stating collection time
- NWFP members must follow collection/harvesting period timeline mentioned in the plan
- NWFP members must strictly follow the harvesting rules mentioned in the management plan
- After harvesting, members should store NWFPs following recommended post-harvest practice
- Chairperson shall inform Range Office of completion of harvest

7.1.2. Marketing of NWFPs

- Chairperson and Range Office shall decide auction date and notify eligible buyers through social media and other communication channel
- The notification should contain registration date and the place of auction and the date of auction
- Eligible buyers shall register with Range Office within the announced date
- Members should bring forest produce to the place of auction on mentioned date
- Conduct auction as per the announcement
- Highest bidder shall buy the products
- Buyer and seller shall weigh the product in the presence of auction committee
- Buyer shall make payment on the spot
- Royalty shall be realized from the buyer as per the prevailing schedule rate on the spot
- Buyer shall apply export permit online for export of NWFP

7.1.3. Bookkeeping

- Committee Members shall keep record of sale proceed against individual members
- Submit a copy of record to the Range Office
- Chairperson shall apply for online permit for NWFP collection prior to application of the export permit

7.1.4. Auction Committee

- One representative from Gewog Administration
- One representative from Forest Office
- Chairperson, NWFP group

7.1.5. Registration Fee

Buyers should pay minimal registration fee of Nu.1000 to NWFP Committee members. The registration fee should be paid before the expiry of registration timeline. If the buyers do not turn up for auction, the money shall be freezed and deposited into the NWFP group account. The registration fee shall be credited back to buyers if participated in the auction.

8. Benefits to the members

The members of the NWFP group will be allowed to participate for annual collection of the NWFPs found available in their locality. One member from each household shall be allowed for collection of the NWFPs and deposit the collected NWFPs in common place. The auction committee members shall then sale the NWFPs through auction and individual collector will be benefitted from the sale. The income generated per member through the sale of NWFPs will support their family's livelihood improvement.

Through the formation of NWFP groups, the members will take ownership for collection of the NWFPs. The entire members of the group will have equal rights over the collection of resources ensuring the sustainability in perpetuity.

9. Benefits to the group

The members of the NWFP group will be allowed to participate for annual collection of the NWFPs found available in their locality. One member from each household shall be allowed for collection of the NWFPs and deposit the collected NWFPs in common place. The auction committee members shall then sale the NWFPs through auction and individual collector will be benefitted from the sale. The income generated per member through the sale of NWFPs, about 5% of the amount shall be deposited in the group saving account which will ultimately benefit the group.

10. By-Laws: Group Regulations and Norms

<i>Members of the NWFP management & Marketing group</i>	Village	Number of member households	Gewog
	Gawaling/Patpanadang	12	Lauri
	Responsibilities and rights of members: - Reporting illegal activities to chairman, secretary, and treasurer - Auditing to promote transparency and fairness - Sustainable collection of NWFP products - Follow harvest time and collect only after obtaining permits - Participation in meetings or field works or any group works - Obeys the advice of executive members - Carry out patrolling in selected/perilous unsafe sites. - Participate in meeting and share view and suggestions - Suggest and guide Management Committee Members if wrong.		

Management Committee Members

Management Committee Members	
<i>Chairperson</i>	Name of Chairperson: Lhadrup Dorji 17615644
	Responsibilities of Coordinator/ Chairperson: - Coordinate/organize or chair all meetings - Resolve disputes and conflicts among members - Arrange and coordinate marketing of NWFPs - Coordinate obtainment of collection permit in time - Liaise with various governmental agencies and private sector - Initiating annual work plan and reporting to the group - Keep rapport with private entrepreneurs - Impose penalties in accordance with the prescribed rules - Represent group in seminars/workshops/meetings for the benefits of groups. - Monitor the quality of NWFPs
<i>Secretary</i>	Name of Secretary: Yeshe Zangpo 17832851
	Responsibilities of Secretary: - Officiate the Chairman - Keep minutes of the meeting - Maintaining records - Assist the chairperson in conflict resolution and marketing - Decision making with group members - Assist the accountant in financial matters - Write Official correspondence

	8. Share/disseminate information 9. Informing the group about the time, date and venue of meeting 10. Monitor the quality of NWFPs
--	--

<i>Treasurer</i>	Name of Treasurer: Yeshi Wangdi 17286368
	Responsibilities of Treasurer: a) Keep financial records: money transaction/cash management/expenditure b) Collect membership fees and deposit in bank c) To maintain the cash books d) Deduct the 5 % from every seller (group members)
<i>Possible additional executive committee members</i>	Name(s): Pema Tshomo and Dup Zangmo
	Responsibilities: a. Assist executive members b. Monitor the quality of NWFPs

<i>Compensation to the executive committee for marketing</i>	Pay to and return journey vehicle charges and offer working lunch for carrying out group benefit works. If committee members are paid DSA and working lunch from the organizers, they should not utilize group fund. If extra expenditures incurred for hiring vehicles, meeting should be conducted once returned. During the meeting the committee members who have gone for meeting should explain his detail extra expenditures to the rest of the committee members/members for recovery from the group fund. Minutes of the meeting should be maintained.
--	---

11. Membership Arrangement

<i>Membership</i>	✓ Annual membership fee per household– Nu.100 ✓ Money accumulated shall be utilized for meeting expenditures of group related works or buying NWFP office stationeries. Membership Registration: 1. New members are allowed to join, but must have tharm/gung. 2. Pay compensation to group before entry, i.e., bank saving sharing, equally divided by all members. 3. New members wishing to join must be resident of the same village 4. Fragmented members need to pay Nu.1000 for entry. He or she shall get equal benefits as other members. 5. New members are allowed to join, but have to pay, bank saving sharing,
-------------------	--

<i>fee and purpose</i>	equally divided by all members. Resignation benefits 1. Members wishing to resign from membership based on conflicting issues/reasons shall not get any benefits. 2. If the reasons are good for leaving, transfer of village/other, shall not get the benefits of bank saving. 3. Old/disabled members shall not get benefits during resignation. 4. Termination 5. Terminated members shall not get any benefits. 6. If the members deny or disagree to join meetings or any group works for 3 times, he/she shall be terminated. 7. If the members deny or disagree to pay 10% of NWFPs sold to traders in the group saving, he/she shall be terminated from membership. 8. If collectors hide quantities collected and sell to buyers without knowledge of Management Committee Members, shall be terminated and should pay fine Nu.5000 per occasion. 9. If the products are apprehended, shall be fine double of NWFP price by collectors. Buyers shall be handed over to JWS
------------------------	---

12. Community Fund Use

<i>Community development fund and utilization of fund</i>	1. Community Lhakhang infrastructure development 2. Support community festivals or ceremony events 3. Loan shall be given to members who are in genuine needs. 4. Interest of 10% shall be charged for loan. 5. Drinking water sources materials procurement. 6. For any injuries or emergency in line with duty/patrolling of NWFP area, NWFP shall bear expenses for medical treatment.
---	--

13. Conflict Resolution

<i>Conflict resolution</i>	Conflicts or disputes within the members should be resolved by the Management Committee Members. If it the conflict is serious, forward to the Gewog Administration or Park Office. In case there is a conflict arises between the NWFP group and outsiders regarding NWFP, the case shall be forwarded to the Park Office and Gewog Administration by the Chairperson
----------------------------	--

14. Fines and penalty

	In case a member of the NWFP Group violates the harvesting rules as set in this
--	---

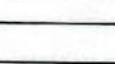

Penalties	plan, he or she will not be allowed to harvest the NWFP anymore for the rest of the season and the next season. (Describe other penalties if desired) ✓ Members absent during meeting has to pay Nu.215 per day as penalty ✓ Members absent during field work has to pay Nu.215 per day as penalty ✓ Members shall not be allowed to collect NWFP if he/she doesn't participate in group collection. A member who doesn't participate in collection shall be fine Nu.500 per year or occasion. ✓ Termination from the membership if members disobey executive members for 3 times ✓ If illegal harvesting is found, outsiders/insiders, shall be levied a fine of double per kilogram (Rubia and Yongjiba) and seize the produce. If already taken or stolen, and caught later, the offender shall be charged Nu.80 per kilogram. ✓ If members delay any type of fee collection by 2 months, he/she shall be terminated from NWFP group membership. ✓ If executive members misuse the group funds, shall be dealt as per the decision of the members in the meeting or call forestry technical persons for audit and explanation. ✓ Accountant should deposit before 20 days. If delayed, 5 % shall be charge. ✓ Membership fees should be paid 10 days.
